Technology Deployment

We have deployed to everyone who has expressed need, and are caught up on deployment. Ipads that were received are pretty old, and cases that are in bad shape. School has requested new cases that are more student friendly. We have not had any problems getting technology. Families are also qualifying for hot spots. The first plan is to get them connected with COX prior to utilizing a hot spot. Most of our families have been able to connect.

Distance Learning Update

Most difficult is the lag in internet service. Teachers are having to slow down as they deliver the information due to connectivity issues. Families are frustrated because they are attempting to get multiple students on at the same time and systems are slow. Teachers will provide lesson content for students who are unable to log in for live sessions.

Budget Update

We will not lose the money that was assigned to us for Read by Grade 3 or SB178. We will lose however \$125 per student. 657 students are currently enrolled. Based on enrollment, we may lose 1 teacher position. Count day is Sept. 11th. After that we will know exactly what we will have budget wise. If we lose a position the staff will be asked if they want to volunteer to surplus. If nobody volunteers, the teacher with the least seniority will be surplus.

4.0 General Discussion

Lunch services at Red Rock have been feeding about 120+ families.
