**Subject: New Providence High School Named to Advanced Placement School Honor Roll**

New Providence, NJ – College Board announced that New Providence High School has been named to the 2025 Advanced Placement® Program (AP®) School Honor Roll, earning **gold distinction** for the 2024-2025 school year.

The AP School Honor Roll recognizes schools whose AP programs are delivering results for students while broadening participation. Schools can earn this recognition annually based on criteria that reflect a commitment to increasing college-going culture, providing opportunities for students to earn college credit, and maximizing college readiness.

NPHS had 66% of seniors who took at least one AP exam during high school, 62% scoring a three or higher on at least one AP exam, and 13% who took five or more AP exams!

On behalf of the New Providence High School administration and staff, NPHS Principal Mr. Brian Henry extends his sincere congratulations to the Advanced Placement students and their teachers on achieving Gold Distinction on the AP School Honor Roll. “This prestigious recognition reflects the students’ strong commitment to academic excellence, as well as the dedication and expertise of the AP faculty who support and guide them. Their collective efforts exemplify the high standards of scholarship at NPHS and contribute to the continued success and future opportunities of its students. The New Providence School community is proud of this outstanding accomplishment and congratulates all involved!”

New Providence High School currently offers 26 AP courses. For course descriptions and additional information, please see the 2026-2027 Program of Studies, available on the [New Providence High School website](#).

“AP gives students opportunity to engage with college-level work, earn college credit and placement, and build professional career skills they can use no matter what path they choose after high school,” said Trevor Packer, head of the AP program. “Congratulations to this year’s AP School Honor Roll recipients for proving it’s possible to expand participation in these rigorous courses and still drive strong performance.”

College Board’s Advanced Placement® Program (AP®) enables students to pursue college-level studies—with the opportunity to earn college credit, advanced placement, or both—while still in high school. Through AP courses in 40 subjects, each culminating in a challenging exam,

students learn to think critically, construct solid arguments, and see many sides of an issue—skills that prepare them for college and beyond.
