INTRODUCTORY SECTION (Unaudited)

Table of contents	i-ii
Organizational chart	iii
Priorities and mission statement	iv
Board of education and school district officials	v
Letter of transmittal	vi-xi
GFOA Certificate of achievement for excellence in financial reporting	xii
ASBO Certificate of excellence in financial reporting	xiii
Diversity statement	xiv

FINANCIAL SECTION

Independent auditor's report	1-3
Management's discussion and analysis	4-16
Basic financial statements:	
Government-wide financial statements:	
Statement of net position	17
Statement of activities	18-19
Governmental fund financial statements:	
Balance sheet- governmental funds	20
Reconciliation of total governmental fund balances to net position of governmental activities	21
Statement of revenues, expenditures and changes in fund balances- governmental funds	22
Reconciliation of the statement of revenues, expenditures and changes in fund balances of governmental funds to the statement of activities	23
Proprietary fund financial statements:	
Statement of net position	24
Statement of revenues, expenses and changes in net position	25
Statement of cash flows	26-27
Fiduciary fund financial statements:	
Statement of fiduciary net position	28
Statement of changes in fiduciary net position	29
Notes to basic financial statements	30-57
Required supplementary information:	
Budgetary comparison schedule of revenues, expenditures/expenses and changes in balances budget and actual- all governmental and enterprise funds	58-59
Schedule of changes in the district's total OPEB liability and related ratios	60-61
Schedule of the district's proportionate share of the net pension liability	62-63
Schedule of the district contributions	64-65
Notes to required supplementary information	66-67
Other supplementary information:	
Nonmajor governmental funds:	
Combining balance sheet	68
Combining statement of revenues, expenditures and changes in fund balances	69
Schedule of changes in special revenue fund, student activity accounts	70
Schedule of combining balance sheet, capital projects fund- by account	71
Combining schedule of revenues, expenditures and changes in fund balances, capital projects fund- by account	72
Nonmajor enterprise funds:	
Combining statement of net position (deficit), nonmajor enterprise funds	73
Combining statement of revenues, expenses and changes in net position (deficit), nonmajor enterprise funds	74
Combining statement of cash flows, nonmajor enterprise funds	75-76
Fiduciary funds:	
Combining statement of fiduciary net position (deficit)	77
Combining statement of changes in fiduciary net position (deficit)	78
Schedule of changes in fiduciary net position- custodial funds, by activity account	79

STATISTICAL SECTION (Unaudited)

Statistical section contents	80
Financial trends:	
Net position by component	81-82
Expenses, program revenues and net (expense)/revenue	83-84
General revenues and total change in net position	85-86
Fund balances, governmental funds	87-88
Change in fund balances, governmental funds	89-90
Revenue capacity:	
Assessed value and actual value of taxable property	91-92
Direct and overlapping property tax rates	93
Principal property taxpayers	94
Property tax levies and collections	95
Debt capacity:	
Outstanding debt by type	96
Direct and overlapping governmental activities debt	97
Legal debt margin information	98-99
Pledged revenue coverage	100
Demographic and economic information:	
Demographic and economic statistics	101
Principal employers	102
Operating information:	
School building information	103-108
Full-time equivalent district employees by type	109-110
Operating statistics	111

COMPLIANCE SECTION

Independent auditor's report on internal control over financial reporting and on compliance and other matters based on an audit of financial statements performed in accordance with government auditing standards	112-113

DAVENPORT COMMUNITY SCHOOL DISTRICT

Priorities

The Davenport School Board establishes the following priorities to ensure the academic success of all students:

- *Provide leadership and direction to improve the overall learning environment in our classrooms, schools and district including the health, safety, security and happiness of students and staff;*
- *Direct and support actions, programs, and activities which reduce the impacts of poverty on our students, their families and our community.*

Mission Statement

Enhance each student's abilities by providing a quality education enriched by our diverse community.

Vision Statement

Education that challenges conventional thinking, prepares all students to compete in a global society, and inspires our students, parents, staff and community to answer the question, “What if?”

November 26, 2025

To President Kline-Jerome, Members of the Board of Directors, and Citizens of the Davenport Community School District:

We are pleased to submit to you the Annual Comprehensive Financial Report, (ACFR) for the Davenport Community School District, (the “District”) for the year ending June 30, 2025. This report has been prepared to conform to guidelines recommended by the Association of School Business Officials International and the Government Finance Officers Association of the United States and Canada.

Management’s Discussion and Analysis (MD&A) immediately follows the independent auditor’s report and provides a narrative introduction, overview, and analysis of the basic financial statement. This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it.

Management Responsibility

Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with the officials of the District. To the best of our knowledge and belief, the enclosed information is fairly stated in all material respects and is presented in a manner which sets forth the financial position and results of operations of the governmental activities, business-type activities, each major fund and aggregate of the remaining funds of the District in accordance with generally accepted accounting principles, (GAAP). It includes all funds of the District. The District is not included in any other reporting entity, nor are any other entities included within this report. All disclosures necessary to enable a reader to gain maximum understanding of the District’s financial activities have been included.

Independent Audit/Legal Requirements

The Code of the State of Iowa requires an annual audit of the District to be performed by an accounting firm selected in a competitively bid process. The annual audit meets the requirements of the Code of Iowa, generally accepted auditing standards and the annual single audit requirements of Subpart F of Title 2 U.S. Code of Federal Regulations Part 200 Uniform Administrative Requirements, Cost Principles, and audit Requirements for Federal Awards (Uniform Guidance). The auditor’s report on the basic financial statements and combining and individual fund statements and other schedules is included in the financial section of this report. Information related to this single audit, including a schedule of expenditures of federal awards, summary schedule of prior audit findings, the independent auditor’s report on internal control over financial reporting and on compliance and other matters, independent auditor’s report on compliance with requirements applicable to each major program and internal control over compliance, a schedule of findings and questioned costs and corrective action plans (if any) are included in the Compliance Section of this report.

All the District’s funds are presented in this report and have been audited by the District’s independent certified public accountants, Bohnsack & Frommelt LLP, Certified Public Accountants. Bohnsack & Frommelt LLP, Certified Public Accountants, have issued an unmodified (“clean”) opinion on the Davenport Community School District’s financial statements for the year ended June 30, 2025. The independent auditor’s report is located at the front of the financial section of the ACFR.

Internal Control

Management of the District is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the District are protected from loss, theft, or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the evaluation of costs and benefits requires estimates and judgments by management. All internal accounting controls adequately safeguard assets and provide reasonable assurance of proper recording of financial transactions.

As a recipient of federal, state, and local financial assistance, the District is also responsible for ensuring that adequate internal control is in place to ensure compliance with applicable laws and regulations related to those programs. As a part of the District's single audit, described earlier, tests are made to determine the adequacy of internal control, including that portion related to federal awards programs, as well as to determine that the District has complied with applicable laws and regulations.

Basis of Presentation

The chart of accounts used by the District have been prepared in conformity with accounting principles generally accepted in the United States of America as prescribed by the Governmental Accounting Standards Board and Audits of State and Local Government units issued by the American Institute of Certified Public Accountants. In addition, the District's accounting records materially conform to the Uniform Financial Accounting for Iowa Schools and Area Education Agencies issued by the Iowa Department of Education and Chapter 11 of the Code of Iowa. The chart of accounts manual is updated annually, and the District is materially in compliance with these requirements.

Profile of the District

Davenport serves as the county seat and is the largest municipality in Scott County, Iowa. Situated centrally along the scenic Mississippi River, Davenport stands as Iowa's third largest city and ranks among its most historic settlements. The city was officially incorporated in 1838, predating Iowa's attainment of statehood by eight years. Davenport operates under a "special charter," affording it distinctive governing authorities.

Davenport is known for its hard-working population with both urban and rural roots. Founded by Antoine LeClaire, who helped explore the Mississippi River, Davenport has rich farmland and historic milestones, including appointing the first female public-school superintendent (1874–1878) and launching a major school building program during the Great Depression.

In 1858, Antoine LeClaire lent \$500 to form Davenport Community Schools from existing local school systems. The District has since expanded, building on its industrious heritage by creating programs that meet diverse student needs.

The Davenport Community School District (the "District") is a political subdivision of the State of Iowa and operates public schools for children in grades pre-school through twelve. The geographic area served includes the cities of Davenport, Blue Grass, Walcott and Buffalo, Iowa, and portions of the agricultural territory in Scott and Muscatine Counties.

The District is governed by a seven-member Board of Education whose members serve four-year terms and are elected on a nonpartisan basis. The District is the fifth largest in the state of Iowa. The Board of Directors is a policymaking and planning body whose decisions are carried out by school administrators.

The District is composed of four high schools, four intermediate schools, one kindergarten through eighth grade school, fourteen elementary schools, and various off-campus alternative educational programs. Early childhood learning programs are offered at several sites, as well as the state four-year-old preschool

program and Headstart programs at additional sites. Student enrollment for grades kindergarten through twelfth for the 2024-25 school year was approximately 13,370 regular and special education students.

Quality instruction and comprehensive education services require state-of-the-art facilities and technology. Professionally led Long Range Facilities Planning promotes excellence in the learning environment, with a \$125 million investment in facilities and \$25 million in technology over a decade. District-wide interactive technology is at a 1:1 status with an individual computer for each student and teacher district-wide. A new initiative began in January 2023 to upgrade elementary classroom technology with larger viewing and auditory enhancements. Secondary classrooms also received state of the art classroom technology with interactive displays and auditory enhancements. The District's Long-Range Facilities Plan is in phase I of a \$160 million investment in 2 middles schools, North HS, athletic improvements at all 3 high schools and a state-of-the-art transportation facility. Phase II of this plan is under way to evaluate and better serve our preschools, special education students and CTE programming.

The average age of our elementary buildings is seventy-one years. There are two buildings that were built in 1923 and five were built in 1939. In 2002 the district built an elementary building in Buffalo, Iowa. The average age of our intermediate buildings is seventy-nine, with two buildings built in 1917. Wood Intermediate was the last intermediate building constructed in 1984. The district has four high schools; Central High was constructed in 1904, West High in 1960, North High School was originally built in 1972 as Wood Intermediate and was converted to a high school setting in 1984, and Mid City High School which was built in 2014. All our facilities are in excellent condition as we follow a rigorous maintenance schedule to maintain and enhance the historical beauty and integrity of our older facilities as well as preserve all the facilities in the District.

In Davenport Community Schools, education is tailored to meet the needs of and inspire each student. Quality educational experiences provide the fundamentals while exploring innovative teaching methods from early childhood education to graduation and beyond.

College and career readiness is integrated at all levels in the Davenport Community Schools, with Davenport high schools offering award-winning programming to prepare graduates for college, career, and citizenry.

The heart of the Davenport Community Schools is the teaching and learning that occurs every day in our classrooms. The success of classroom teachers is fostered by a supportive building climate, a district-wide support system ensuring high quality instruction and responsive student interventions. Principals serve as instructional leaders, and curriculum specialists provide professional development and ensure implementation of curriculum. The Teacher Leadership program creates a culture where teachers work collectively to analyze and improve their instructional practice through peer observation and collaboration. This work is supported by a committed and innovative school board and administration that ensures classroom and school leaders have resources, including continuing the fight to address inequality in state funding and challenge state-imposed spending limits.

The District is supported financially by state aid, property taxes, state and federal grants for special projects, and local revenue received for tuition and other services.

Budgetary controls are maintained by the District. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual budget approved by the District's governing body. Activities of the General Fund, Special Revenue Funds, Enterprise Fund, Debt Service Fund and Capital Projects Fund are included in the annual budget.

The Board of Directors is required to adopt a final budget no later than April 15th each year. The level of budgetary control (that is, the level at which expenditures cannot legally exceed the budgeted amount) is established by function and encompasses all fund types. To facilitate the monitoring of the legal provisions, and to provide more complete information to interested parties the District prepares a more detailed budget for each fund. The District also maintains an encumbrance accounting system as one technique of accomplishing budgetary control.

Economic Condition and Outlook

The Quad Cities region is a bi-state, six county area comprised of Clinton, Muscatine, and Scott Counties in Iowa and Henry, Mercer, and Rock Island Counties in Illinois. It is within a 300-mile radius of forty-one million people with close access to major markets: Chicago, Minneapolis-St. Paul, St. Louis, Des Moines, Omaha, Kansas City, and Indianapolis.

Major employers in the area include Arconic, John Deere, Kraft Heinz, MercyOne Genesis, Amazon, Tri-City Electric as well as the Davenport Community School District.

The unemployment rate in Scott County, Iowa was 5.3% in August 2025 which is trending higher than the national average of 4.3%. It's also worth noting that county-rates are **not seasonally adjusted** in many cases, and local factors can cause larger swings month-to-month. While a 1-point differential is meaningful, it doesn't necessarily mean a crisis — but it does suggest the region is under somewhat more pressure.

The District's enrollment is expected to decrease by about three hundred students in the next 5 years to about 11,500 students.

Taxable property valuations within the District have shown consistent annual growth, increasing by 29.83% over the past decade—including tax increment financing (TIFs). For fiscal year 2024-25, valuations as of January 1, 2023, rose by 3.65%.

The financial solvency ratio of the District measures its ability to meet long-term obligations and cover future costs. Specifically, it assesses the relationship between the District's uncommitted fund balance and its total revenue, expressed as a percentage. The ratio provides a snapshot of the District's financial health at a given point in time, indicating how much revenue would remain if the District closed its doors at the end of the fiscal year after paying all obligations. Iowa Association of School Boards recommends a target solvency ratio within a range of 7-17%. The District's solvency ratio on June 30, 2025, is 24.2%

The Iowa school funding formula is pupil-driven, meaning total spending authority increases by either raising the number of pupils or the cost per pupil. Despite decreasing certified enrollment, the district cost per pupil rose from \$7,635 in FY 2023-24 to \$7,826 in FY 2024-25. The legislature can increase this cost by setting the allowable growth each year, which they must do within 30 days of receiving the governor's budget recommendation. This allowable growth is crucial for the district, as it often dictates necessary budget reductions.

In the spring of 2023, the Iowa Legislature passed a notable change to education funding by approving Education Savings Accounts (ESA). These accounts provide funding for parents who choose private schools instead of public schools. In the first year of implementation, eligibility is based on students moving from public to private schools and current private school students whose families are at or below 300% of the Federal poverty level. For fiscal year 2025, the per pupil amount of \$7,826 is set aside in an account for each eligible student, which is directed to the private schools to cover enrollment and other expenses. Districts retain \$1,205 in categorical funding for each student. The estimated cost of the ESA program for the first three years of implementation is expected to exceed \$800 million. The district will need to monitor how this affects enrollment, as it will have a major impact on funding for public schools statewide.

In recent years, Iowa has faced an economic downturn that has severely hampered its ability to fund schools at previous levels. The district has experienced inadequate funding for state aid and other state-funded programs, resulting in lower supplemental state aid.

Debt Administration

In March 2025, the District sold revenue bonds in the amount of \$80 million. These funds are to be used for the construction and renovation of Sudlow and Smart middle schools, construction of a new bus lot, turf practice fields for three high schools and other smaller projects. A second revenue bond sale will occur during the FY26 fiscal year to continue the above projects and North High School addition and renovations.

Long-term Financial Planning and Relevant Financial Policies

Financial Policies

The District only invests securities allowed by the Code of Iowa, Chapter 12C. The district's cash and pooled investments consist of depository accounts at local financial institutions and the Iowa Schools Joint Investment Trust (ISJIT). The cash balances of the District's funds are pooled. Interest revenue earned on all deposits and investments for fiscal year ending June 30, 2025, was \$11,398,864.

The District currently covers property and liability losses with traditional insurance coverage. Group health, dental and vision plans are self-funded.

The Iowa Department of Education requires a comprehensive accounting system, including account numbers for revenues and expenditures by function and object. The District additionally tracks revenues by source for funds and expenditures by location, curricular program, and funding source.

For long-term planning, the District uses a comprehensive financial planning software to project various scenarios and how they could affect the financial health of the District in the next five years. The District also has a five-year capital projects plan which staff update annually for projecting future capital project needs for the District.

Major Initiatives and Achievements

In November 2021 Davenport Community Schools established a Facilities Master Planning Committee (FMPC) to discuss long-range facility planning. The FMPC consisted of one parent from each school, one staff member from year school and district administrative leadership. The FMPC was tasked with the goal of providing a recommendation to the DCSD school board regarding two questions:

- What is the best grade configuration, number of school building transitions, and pathway/experience for our students?
- What is our best path forward to right size the quantity of our school buildings to align with current and projected student enrollments?

Through collaborative efforts and data-driven analysis, the FMPC created actionable recommendations to the DCSD school board, ensuring the district's facilities are optimized to meet the evolving needs of its student population.

Utilizing the information from the enrollment projection study, the building capacity study, and the facility study, the Master Facility Plan Committee considered several different pathway recommendations that included grade configuration and school boundary alignment.

Phase one of the Master Facility Plan includes the construction of a new Sudlow Middle School and Smart Middle School, new athletic facilities at West High School, new turf fields for all high schools, enhancements to Brady Street Stadium, and new science classrooms at North High School. Construction of the new West High School athletic facility addition began in May 2023. Completion was finished in December 2024. This project included a new competition gym as well as wrestling rooms and strength training facilities. Enhancements to Brady Street Stadium also started early spring 2025, with completion scheduled for summer 2025.

In fiscal year 2024-25, the Davenport Community School District (DCSD) undertook several significant initiatives and achieved notable milestones:

1. **Comprehensive School Improvement Plan (CSIP):** The district continued to implement its CSIP, focusing on enhancing student achievement through differentiated instruction and collaborative teacher teams. This plan aims to create a high-performance educational environment by setting specific learning goals and accountability measures.
2. **Mental Health and Well-being:** DCSD continued to prioritize the mental health of students by administering the Strengths & Difficulties Questionnaire (SDQ) to students in 4th, 6th, and 9th grades, with parental consent. This initiative is part of the district's broader commitment to supporting student well-being.

3. **Multi-Tiered System of Supports (MTSS):** The district continued to utilize MTSS to provide targeted instructional practices and interventions, ensuring that all students receive the support they need to succeed.
4. A 6-year commitment for the John Deere Foundation established the John Deere Scholars Program, a need-based pipeline program that will prepare DCSD high school students for a collage education at the University of Iowa. In addition to receiving academic, financial and social support, scholarship recipients also take part in specialized leadership training.
5. Celebrated the completion of \$9.2 million construction and renovation of West High athletic facilities. The extensive upgrades include a new auxiliary gymnasium, renovated competition gymnasium, modern weight room and wrestling room and additional space for basketball and volleyball. This is the first project completed under the long-range facilities plan.
6. DSCS high school science teacher Laura McCreery received two prestigious awards for her exceptional contributions to education. She received the Presidential Award for Excellence in Mathematics and Science Teaching and the Bohumil Shimek Educator Award by the Iowa Association of Naturalists and the Iowa Conservation Education Coalition. She has been with the district for 20 years and is known for her dynamic and enthusiastic teaching style.

These highlights and initiative reflect DCSD's dedication to providing a quality education enriched by the diverse community it serves.

Certificate of Excellence in Financial Reporting

The Government Finance Officers Association of the United States and Canada, (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Davenport Community School District for its annual financial report for the fiscal year ended June 30, 2024. To be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized annual comprehensive financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current annual comprehensive financial report continues to meet the Certificate of Achievement Program's requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate.

The Association of School Business Officials International, (ASBO) awarded a Certificate of Excellence in Financial Reporting to the Davenport Community School District for its annual comprehensive financial report for the fiscal year ended June 30, 2024. This Certificate is a prestigious national award, recognizing conformance with the highest standards for preparation of government financial reports.

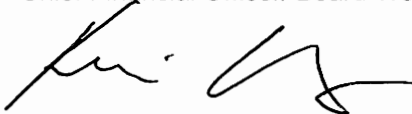

We believe that our current ACFR also conforms to the requirements for the Certificate of Excellence in Financial Reporting, and we are submitting it to ASBO to determine its eligibility for a Certificate.

Acknowledgments

The publication of this report is a major step toward the commitment to professionalism in financial reporting and significantly increases the accountability of the District to the taxpayers. This report would not have been possible without the help of many people. We would like to express our appreciation to District staff, and public employees at various Scott County agencies who assisted in providing valuable information to Bohnsack & Frommelt LLP, the District's independent auditor, in the preparation of this report.

Sincere appreciation is extended to the Board of Directors, where the commitment to excellence begins. It is with considerable pride that this year's Annual Comprehensive Financial Report is submitted to the Board of Directors.

Independent Auditor's Report

To the Board of Education
Davenport Community School District
Davenport, Iowa

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the governmental activities, business-type activities, each major fund, and the aggregate remaining fund information of the Davenport Community School District as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Davenport Community School District, as of June 30, 2025, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to the financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States (*Government Auditing Standards*). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Davenport Community School District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Emphasis of Matter

As discussed in Note 13 to the financial statements, the District adopted new accounting guidance related to Governmental Accounting Standards Board Statement No. 101, *Compensated Absences*. As a result, June 30, 2024 governmental activities, business-type activities, and nonmajor enterprise funds, School Nutrition Fund and Out of School Time Fund net positions were restated.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Davenport Community School District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Davenport Community School District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Davenport Community School District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, schedule of the District's proportionate share of the net pension liability and schedule of contributions for the Iowa Public Employee's Retirement System and schedule of changes in the District's total OPEB liability and related ratios, on pages 4-16 and 58-67 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context.

We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements.

We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Davenport Community School District's basic financial statements. The combining and individual fund statements and schedules and the other supplementary information as listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements.

Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 24, 2025, on our consideration of the Davenport Community School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Davenport Community School District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Davenport Community School District's internal control over financial reporting and compliance.

Davenport Community School District

Management's Discussion and Analysis Year Ended June 30, 2025

Davenport Community School District provides this Management's Discussion and Analysis of its financial statements. This narrative overview and analysis of the financial activities is for the fiscal year ended June 30, 2025. We encourage readers to consider this information in conjunction with additional information that we have furnished in our transmittal letter and the District's financial statements, which follow:

2024-25 FINANCIAL HIGHLIGHTS

- The General Fund June 30, 2025 fund balance decreased \$5,505,136 from the June 30, 2024 fund balance of \$56,660,994 to \$51,155,858.
- The District net position increased \$12,591,385 from restated \$255,411,332 to \$268,002,707. The increase is primarily due to the continued investment in capital improvements to the District and \$9,520,500 reduction in a pension liability and related deferred inflows and outflows.
- The District continues to be successful in receiving donations and local, state and federal grants. In 2025, the District received approximately \$40 million in operating grants and contributions.

USING THIS ANNUAL REPORT

The annual report consists of a series of financial statements and other information, as follows:

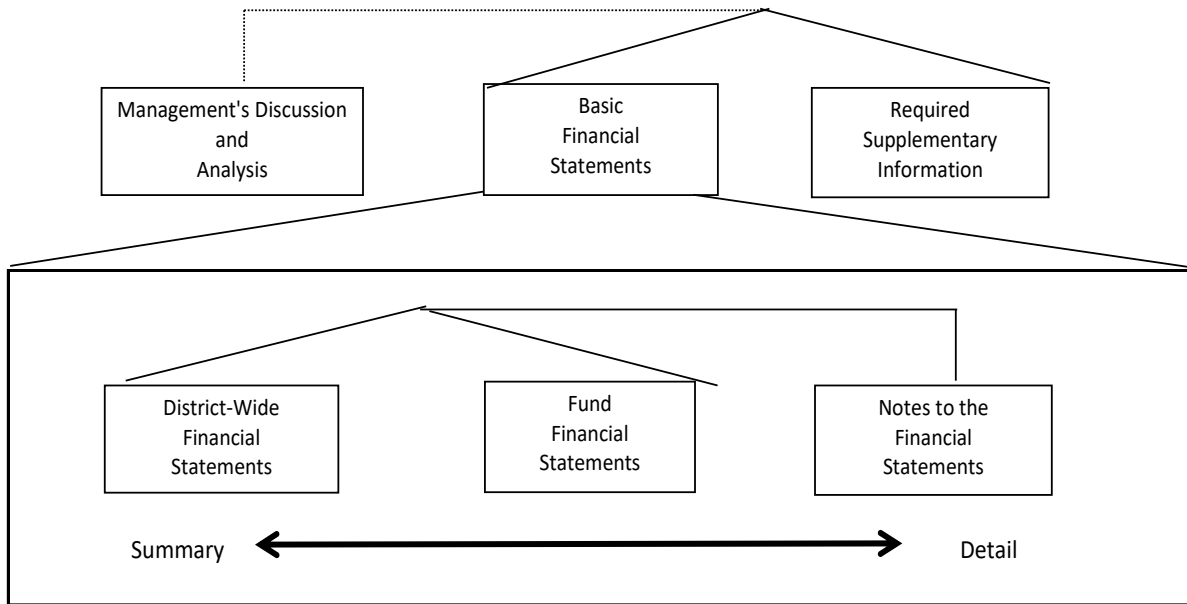

- Management's Discussion and Analysis introduces the basic financial statements and provides an analytical overview of the District's financial activities.
- The government-wide financial statements consist of a Statement of Net Position and a Statement of Activities. These provide information about the activities of Davenport Community School District as a whole and present an overall view of the District's finances.
- The fund financial statements tell how governmental services were financed in the short-term as well as what remains for future spending. Fund financial statements report Davenport Community School District's operations in more detail than the government-wide statements by providing information about the most significant funds. The remaining statements provide financial information about activities for which Davenport Community School District acts solely as an agent or custodian for the benefit of those outside of the District.
- Notes to financial statements provide additional information essential to a full understanding of the data provided in the basic financial statements.
- Required supplementary information further explains and supports the financial statements with a comparison of the District's budget for the year and information regarding the District's retiree health plan and pension plan.
- Other supplementary information provides detailed information about the nonmajor governmental funds.

**Management’s Discussion and Analysis
Year Ended June 30, 2025**

Figure A-2 summarizes the major features of the District’s financial statements, including the portion of the District’s activities they cover and the types of information they contain.

Figure A-2 Major Features of the Government-Wide and Fund Financial Statements				
Government-Wide Statements		Fund Statements		
		Governmental Funds	Proprietary Funds	Fiduciary Funds
Scope	Entire District (except fiduciary funds)	The activities of the District that are not proprietary or fiduciary, such as special education and building maintenance	Activities the District operates similar to private businesses: school nutrition and internal service fund	Instances in which the District administers resources on behalf of someone else, such as scholarship programs, reunion moneys and funds for District employee purchases of pop, etc.
Required financial statements	Statement of net position Statement of activities	Balance sheet Statement of revenues, expenditures and changes in fund balances	Statement of net position Statement of revenues, expenses and changes in net position Statement of cash flows	Statement of fiduciary net position Statement of changes in fiduciary net position
Accounting basis and measurement focus	Accrual accounting and economic resources focus	Modified accrual accounting and current financial resources focus	Accrual accounting and economic resources focus	Accrual accounting and economic resources focus
Type of asset/liability information	All assets and liabilities, both financial and capital, short-term and long-term	Generally assets expected to be used up and liabilities that come due during the year or soon thereafter; no capital assets or long-term liabilities included	All assets and liabilities, both financial and capital, and short-term and long-term	All assets and liabilities, both short-term and long-term; funds do not currently contain capital assets, although they can
Type of inflow/outflow information	All revenues and expenses during the year, regardless of when cash is received or paid	Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and the related liability is due during the year or soon thereafter	All revenues and expenses during the year, regardless of when cash is received or paid	All additions and deductions during the year, regardless of when cash is received or paid

Davenport Community School District

Management's Discussion and Analysis Year Ended June 30, 2025

REPORTING THE DISTRICT'S FINANCIAL ACTIVITIES

Government-Wide Financial Statements

The government-wide financial statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The Statement of Net Position includes all of the District's assets, deferred outflows of resources, liabilities, and deferred inflows of resources. All of the current year's revenues and expenses are accounted for in the Statement of Activities, regardless of when cash is received or paid.

The two government-wide statements report the District's net position and how they have changed. Net position – the difference between the District's assets and deferred outflows and liabilities and deferred inflows – are one way to measure the District's financial health or financial position. Over time, increases or decreases in the District's net position are an indicator of whether financial position is improving or deteriorating, respectively. To assess the District's overall health, additional nonfinancial factors, such as changes in the District's property tax base and the condition of school buildings and other facilities need to be considered.

In the government-wide financial statements, the District's activities are divided into two categories:

Governmental activities: Most of the District's basic services are included here, such as regular and special education, transportation and administration. Property taxes and state aid finance most of these activities.

Business-type activities: The District charges fees to help it cover the costs of certain services it provides. The District's school nutrition program and before and after care programs are included here.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's funds, focusing on its most significant or "major" funds – not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs.

Some funds are required by state law and by bond covenants. The District establishes other funds to control and manage money for particular purposes, such as accounting for student activity funds, or to show that it is properly using certain revenues, such as federal grants.

The District has three kinds of funds:

- 1) **Governmental Funds:** Most of the District's basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed short-term view that helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, additional information at the bottom of the governmental funds statements explains the relationship (or differences) between the two statements. The District's major governmental funds for 2024-25 were the General Fund and the Capital Projects Fund. The nonmajor governmental funds include two Special Revenue Funds (the Management Fund and Student Activities Fund) and the Debt Service Fund. The required financial statements for governmental funds include a balance sheet and a statement of revenues, expenditures and changes in fund balances.

Davenport Community School District

Management's Discussion and Analysis Year Ended June 30, 2025

- 2) **Proprietary funds:** Services for which the District charges a fee are generally reported in proprietary funds. Proprietary funds are reported in the same way as the government-wide financial statements. The District's Enterprise Funds, one type of proprietary fund, are the same as its business-type activities but provides more detail and additional information, such as cash flows. The District currently has two Enterprise Funds, the School Nutrition Fund and the Out of School Time Fund. The District uses an internal service fund, the other kind of proprietary fund, to report activities that provide supplies and services for other District programs and activities. The District currently has one internal service fund, which is used to account for the District's self-funded health and dental insurance plans.

The required financial statements for proprietary funds include a statement of net position, a statement of revenues, expenses and changes in net position and a statement of cash flows.

- 3) **Fiduciary funds:** The District is the trustee, or fiduciary, for assets that belong to others. This fund type includes the District's Custodial Funds.

Teacher and Paraeducator Registered Apprenticeship Program: This fund is used to operate the Teacher and Paraeducator Registered Apprenticeship program from Iowa Workforce Development. The District operates as the fiscal agent for Districts in the Mississippi Valley School District Consortium.

Staff Activities Fund: This Fund accounts for District faculty accounts for certain revenue collected for District employee purchases of pop, funeral flowers, etc. and related expenditures and for revenues and expenditures of other various non-District club accounts.

The District is responsible for ensuring the assets reported in the fiduciary funds are used only for their intended purposes and by those to whom the assets belong. The District excludes these activities from the government-wide financial statements because it cannot use these assets to finance its operations.

The required financial statements for the fiduciary fund of the District include a statement of fiduciary net position and a statement of changes in fiduciary net position.

Reconciliations between the government-wide financial statements and the fund financial statements follow the fund financial statements.

Deferred inflows of resources	82,649,970	82,547,435	336,199	400,271	82,986,169	82,947,706	0.0%
Net position:							
Net investment in capital assets	174,324,303	168,135,611	380,358	342,699	174,704,661	168,478,310	3.7%
Restricted	97,830,428	93,666,520	-	-	97,830,428	93,666,520	4.4%
Unrestricted	(9,321,791)	(11,389,715)	4,789,409	4,656,207	(4,532,382)	(6,733,508)	-32.7%
Total net position	\$ 262,832,940	\$ 250,412,416	\$ 5,169,767	\$ 4,998,906	\$ 268,002,707	\$ 255,411,322	4.9%

The District's net position has increased from the prior year. The District's combined net position as of June 30, 2025 increased by \$12,591,385 (4.9%) over the June 30, 2024 combined net position. Net position in the governmental activities increased by \$12,420,524 (5.0%). The net position of the District's business-type activities increased by \$170,861 (3.4%).

Restricted net position represents resources subject to external restrictions, constitutional provisions or enabling legislation on how they can be used. The District's restricted net position increased by \$4,163,908 (4.4%) primarily due to debt service restrictions associated with the series 2024 revenue bonds.

Unrestricted net position (the part of net position that can be used to finance day-to-day operations without constraints established by debt covenants, enabling legislation or other legal requirements) increased by \$2,201,126. This increase is due to the change in compensated absences, termination benefits, and pension liability and related deferred inflows and outflows.

The District implemented Government Accounting Standards Board Statement No. 101, *Compensated Absences*, which required a restatement to fiscal year 2024 governmental activities, business-type activities, and nonmajor enterprise funds, School Nutrition Fund and Out of School Time Fund net position.

In 2024-25, local taxes (property taxes and utility taxes), state foundation aid, statewide sales services and use tax and revenue in lieu of taxes accounted for 76.2% of the revenue from governmental activities while charges for services and grants and contributions accounted for 98.7% of the revenue from business-type activities. The District's expenses primarily relate to instruction and support services, which account for 95.4% of total governmental activities expenses.

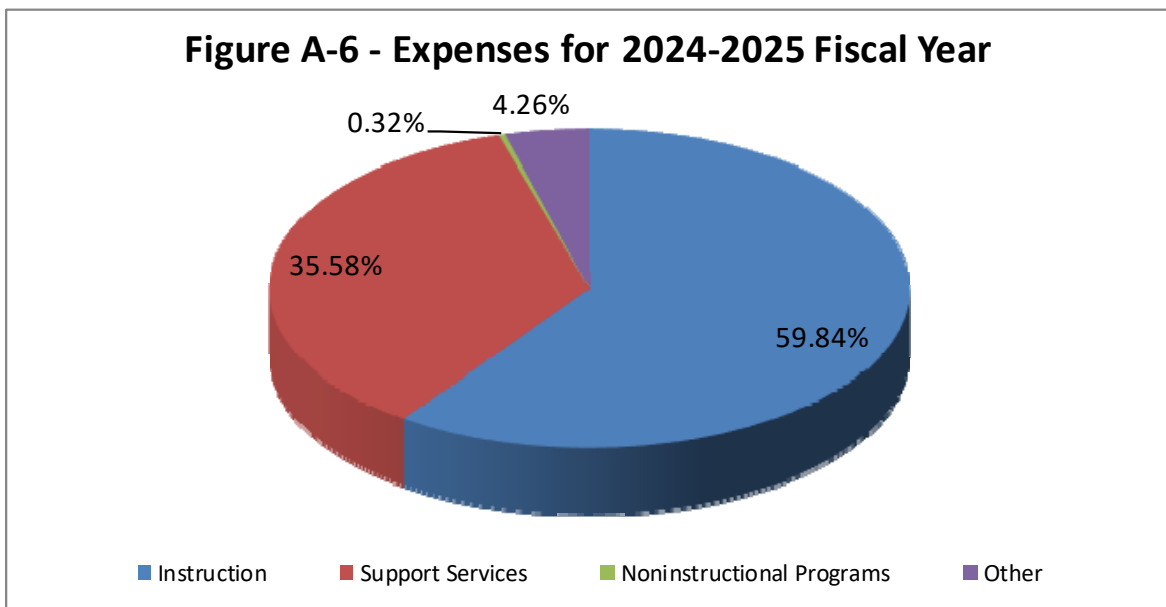

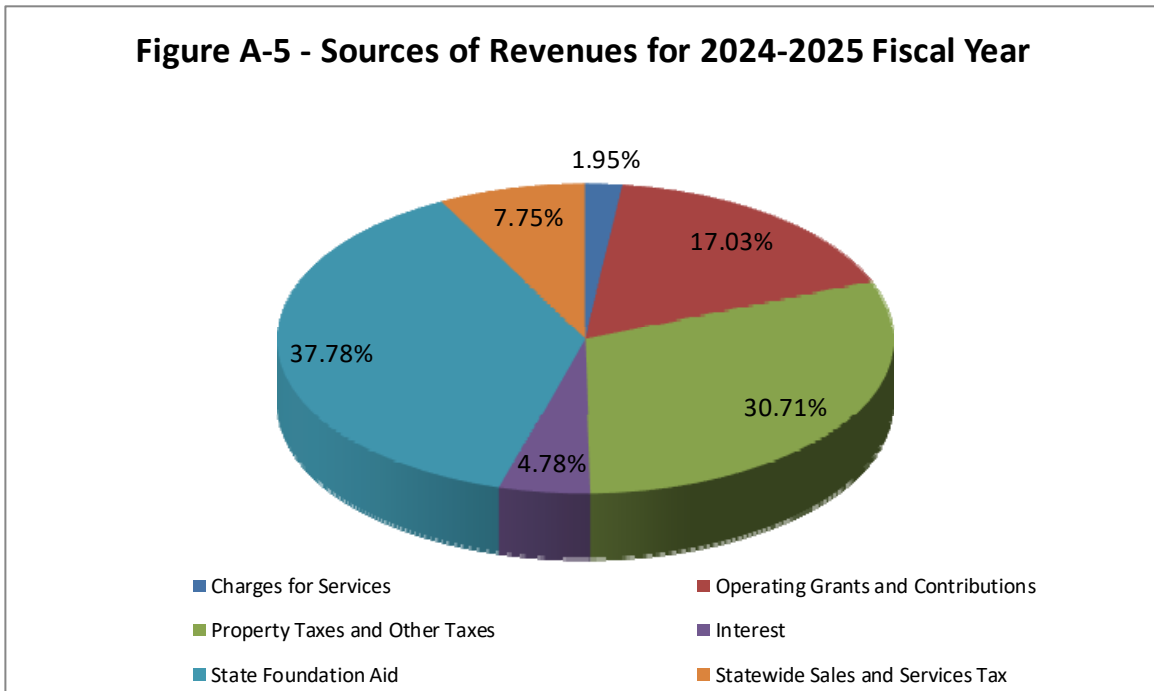

Total revenue for the District decreased by \$34,681,507 (12.3%) in the fiscal year ended June 30, 2025. The most significant revenue category changes were operating grants and contributions. Operating grants and capital contributions increased in the prior year due to COVID-19 Elementary and Secondary School Emergency Relief Funding. In addition, increasing interest rates increased interest and investment earnings by approximately \$2.8 million.

Davenport Community School District

**Management's Discussion and Analysis
Year Ended June 30, 2025**

Total District expenses decreased by \$12,864,007 (5.2%), primarily due to less spending related to the Education Stabilization Funds.

Figures A-5 and A-6, which follow, show charts reflecting sources of revenue and distribution of expenses for the 2024-25 fiscal year governmental activities.

Davenport Community School District

Management's Discussion and Analysis Year Ended June 30, 2025

Governmental Activities

Revenue for the District's governmental activities in 2024-25 decreased by \$34,852,692 (12.9%) from the previous year, while total expenses decreased by \$12,786,317 (5.4%). Governmental activities net position as of June 30, 2025 increased by \$12,420,524 (5.0%) over the June 30, 2024 balance.

Figure A-7 presents the total and net cost of the District's four major governmental activities: instruction, support services, noninstructional programs and other expenses, for the year ended June 30, 2025 compared to the year ended June 30, 2024.

Figure A-7 Net Cost of Governmental Activities

	Total Cost of Services		Percentage	Net Cost of Services		Percentage
	Not Restated		Change	Not Restated		Change
	June 30, 2025	June 30, 2024		June 30, 2025	June 30, 2024	
Instruction	\$ 133,831,146	\$ 146,184,005	-8.45%	\$ 96,479,108	\$ 76,369,096	26.3%

Other	9,526,568	8,080,720	17.89%	3,523,257	907,569	288.2%
Total	\$ 223,641,334	\$ 236,427,651	-5.41%	\$ 178,919,275	\$ 157,116,923	13.9%

For the year ended June 30, 2025:

- The cost financed by the users of the District's programs was \$4,603,075.
- Federal and state governments and some local grants subsidized certain programs with grants and contributions totaling \$40,118,984.
- The net cost of governmental activities was financed with \$68,212,318 in property taxes, \$2,685,170 in utility tax, \$1,373,341 in revenue in lieu of tax, \$89,002,390 of unrestricted state grants, \$18,234,760 in statewide sales and services tax revenue, \$85,763 in other taxes and \$11,261,948 in investment earnings.

For the year ended June 30, 2024:

- The cost financed by the users of the District's programs was \$5,505,444.
- Federal and state governments and some local grants subsidized certain programs with grants and contributions totaling \$73,805,284.
- The net cost of governmental activities was financed with \$71,858,628 in property taxes, \$2,888,271 in utility tax, \$1,459,972 in revenue in lieu of tax, \$87,705,881 of unrestricted state grants, \$18,659,770 in statewide sales and services tax revenue, \$88,882 in other taxes and \$8,458,309 in investment earnings.

Davenport Community School District

Management's Discussion and Analysis Year Ended June 30, 2025

Business-Type Activities

The District's business-type activities include the School Nutrition Fund and the Out of School Time Fund. Revenues of the District's business-type activities in 2024-25 were \$10,667,489; an increase of \$171,185 (1.6%) from 2023-24. The increase is primarily due to the increase in charges for services. Expenses were \$10,012,519, a decrease of \$77,690 (0.8%) from 2023-24, primarily due to the increased cost of food service operations and after school care in the current year.

Individual Fund Analysis

As previously noted, the Davenport Community School District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

As the District completed the year, its governmental funds reported combined fund balances of \$181,667,721 which reflects a decrease of \$36,513,830 from last year's ending fund balances of \$218,181,551. The primary reasons for the decrease in combined fund balances at the end of the 2024-25 fiscal year is \$52,214,687 in planned spending on capital projects.

Governmental Fund Highlights

- The fund balance in the District's General Fund decreased by \$5,505,136 (9.7%) from \$56,660,994, as of June 30, 2024 to \$51,155,858 as of June 30, 2025. The General Fund experienced increased interest revenue of \$1,110,190, and a decrease in federal sources of (\$32,818,852).
- The fund balance in the Capital Projects Fund decreased by \$33,142,188 (23.1%). Local tax generated from the physical plant and equipment levy was \$8,512,452 compared to the prior year \$8,201,452 which represents a \$311,000 (3.8%) increase from 2023-24. Total expenditures were \$58,976,315 in 2024-25 compared to \$38,390,605 in 2023-24.

Proprietary Fund Highlights

The District's proprietary funds were the nonmajor enterprise funds, the School Nutrition Fund, and the Out of School Time Fund as well as the District's Internal Service Fund. Significant changes of these funds are as follows:

- The net position of the School Nutrition Fund increased by \$187,353 (3.7%) during 2024-25 compared to an increase of \$375,084 in 2023-24. Charges for services increased \$468,846 while salaries and benefits costs increased \$117,920.
- The net position of the Out of School Time Fund decreased by \$16,492 (23.0%) during 2024-25.

Davenport Community School District

Management's Discussion and Analysis Year Ended June 30, 2025

Budgetary Highlights

A schedule showing the original and final budget amounts compared to the District's actual financial activity is included in the required supplementary information section of this report.

In accordance with the Code of Iowa, the Board of Education annually adopts a budget following required public notice and hearing for all funds, except internal service and custodial funds. Although the budget document presents functional area expenditures for expenses by fund, the legal level of control is at the aggregated functional level, not at the fund or fund type level. The budget may be amended during the year utilizing similar statutorily prescribed procedures. The District's budget is prepared on the GAAP basis. Over the course of the year the District amended its operating budget one time to reflect additional expenditures projected.

It is the District's practice to budget expenditures at the maximum authorized spending authority for the General Fund. The District then manages or controls General Fund spending through its line item budget. As a result, the District's certified budget should always exceed the actual expenditures during the year in total. Total revenues were less than budget by \$5,199,037 due to less state sources. Total expenditures were under budget \$21,230,644 primarily due to less expenditures for capital outlay than anticipated.

Capital Asset and Debt Administration

Capital Assets

By the end of the 2024-25 fiscal year, the District had invested \$430,221,292 (net of accumulated depreciation and amortization of \$212,623,584) in a broad range of assets, including school buildings, athletic facilities, computer and audio-visual equipment and administrative offices. (See Figure A-8). This amount represents a net increase of \$38,340,022 or 21.4% from last year. More detailed information about capital assets can be found in Note 4 to the financial statements. Total depreciation expense for the year was \$12,436,427.

Figure A-8 Capital Assets (Net of Depreciation)

Long-Term Liabilities

As of June 30, 2025, the District had \$169,094,920 in outstanding long-term obligations as reflected in Figure A-9 below. The District paid \$1,900,000 in revenue bond principal during fiscal year 2025 and \$159,289 in principal for lease and IT subscription obligations. More detailed information about the District's long-term liabilities is available in Note 5 to the financial statements.

Payments of early retirement benefits are from the District's Management Fund. Payments of compensated absences are primarily from the District's General Fund.

Management's Discussion and Analysis Year Ended June 30, 2025

ECONOMIC FACTORS BEARING ON THE DISTRICT'S FUTURE

At the time of these financial statements were prepared and audited, the District was aware of several existing circumstances that could significantly affect its financial health in the future:

- The Iowa Legislature set the supplemental state aid percentage (formerly known as the allowable growth rate) at 2.5% for the 2024-25 fiscal year and 2.0% for the 2025-26 fiscal year. The district continues to face declining enrollment (1.6% in FY25). State aid is based on the number of students enrolled in the district. As the District's General Fund budget is comprised of approximately 80% salary and benefits, wage and salary adjustments arrived at through the District's formal negotiations process will have a significant impact on future budget decisions.
- The District's certified enrollment count on October 1, 2024, shows a decline in enrollment of 219 students. This equates to a decrease in state funding of approximately \$1,713,000. As a result, the district is on a budget guarantee for fiscal year 2024-25 and a partial budget guarantee in fiscal year 2025-26.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide the District's citizens, taxpayers, customers, and investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability of the money it receives. If you have questions about this report or need additional financial information, contact Kevin Posekany, Chief Financial Officer, Davenport Community School District, 1702 N. Main Street, Davenport, Iowa 52803

Davenport Community School District

**Reconciliation of the Total Governmental Fund Balances to
Net Position of Governmental Activities
June 30, 2025**

Total Governmental Fund Balances \$ 181,667,721

Amounts reported for Governmental Activities in the Statement of
Net Position are different because:

Capital assets used in governmental activities are not financial
resources and therefore, are not reported as assets in the
governmental funds:

Capital assets	426,693,536	
Accumulated depreciation	<u>(209,556,315)</u>	217,137,221

Receivables not collected within 60 days of year-end are not
available soon enough to pay for the current period's expenditures
and, therefore, are deferred inflows of resources in the funds:

Other grants and donations	568,084
----------------------------	---------

Internal Service Funds are used by the District's management
to charge the costs of the self-insurance program to the individual
funds. The assets and liabilities of the internal service fund are
included with the governmental activities.

22,474,313

Pension and OPEB related deferred outflows of resources and deferred inflows
of resources are not due and payable in the current year and,
therefore, are not reported in the governmental funds:

OPEB related deferred outflows of resources	3,872,829	
OPEB related deferred inflows of resources	(4,949,030)	
Pension related deferred outflows of resources	15,280,773	
Pension related deferred inflows of resources	<u>(6,685,889)</u>	7,518,683

Long-term liabilities are not due and payable in the current period
and therefore, are not reported as liabilities in the funds. Long-term
liabilities at year-end consist of:

Bonds payable	(74,000,000)	
Premium on bonds payable	(6,278,514)	
IT subscription obligation	(80,964)	
Lease obligation	(20,731)	
Compensated absences	(32,027,750)	
Accumulated termination pay	(419,657)	
Net pension liability	(44,627,024)	
Other post employment benefits obligation	<u>(9,078,442)</u>	(166,533,082)

Net Position of Governmental Activities	<u><u>\$ 262,832,940</u></u>
------------------------------------------------	-------------------------------------

See Notes to Basic Financial Statements.

Davenport Community School District

**Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities
Year Ended June 30, 2025**

Net Change in Fund Balances - Total Governmental Funds \$ (36,513,830)

Amounts reported for governmental activities in the Statement of Activities are different because:

Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures. However, for governmental activities, those costs are shown in the statement of net position and allocated over their estimated useful lives as annual depreciation expense in the statement of activities. This is the amount by which capital asset additions is less than depreciation in the period:

Capital outlay	50,666,312	
Depreciation expense	<u>(12,317,947)</u>	38,348,365
Loss on disposal of capital assets		(7,958)

Revenue in the statement of activities that do not provide current financial resources are not reported as revenues in the funds, change in unavailable revenues.

Operating grants and contributions, instruction	(1,702,773)	
Charges for services, instruction	<u>32,255</u>	(1,670,518)

The decrease in net position of the Internal Service Fund represents under funding by the governmental funds and is incorporated into the change in net position of governmental activities. (614,504)

The issuance of long-term debt provides current financial resources to governmental funds, while the repayments of the principal of long-term debt consumes the current financial resources of governmental funds. The issuance of debt increases liabilities in the Statement of Net Position, while the repayment of long-term debt reduces long-term liabilities. The following is the detail of the net effect of these differences in the treatment of long-term debt related items:

Issuance of IT subscription obligation	(63,136)	
Repayment of long-term debt	2,059,289	
Amortization of bond premium	<u>730,350</u>	2,726,503

Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds, as follows:

Compensated absences	129,656	
Accumulated termination pay	684,123	
Pension liability and related deferred inflows and outflows	9,520,500	
OPEB and related deferred inflows and outflows	<u>(181,813)</u>	10,152,466
Change in Net Position of Governmental Activities		<u><u>\$ 12,420,524</u></u>

See Notes to Basic Financial Statements.

Community Schools
G R O W I N G E X C E L L E N C E

Davenport Community School District

Notes to Basic Financial Statements

Note 1. Nature of Operations, Reporting Entity, Measurement Focus, Basis of Accounting and Financial Statement Presentation and Significant Accounting Policies

Nature of Operations

The Davenport Community School District (the District) is a political subdivision of the state of Iowa and operates public schools for children in grades pre-school through twelve. The geographic area served includes the cities of Davenport, Blue Grass, Walcott and Buffalo, Iowa, and portions of the agricultural territory in Scott and Muscatine Counties. The District is governed by a Board of Education whose members are elected on a nonpartisan basis.

The District is composed of four high schools, four intermediate schools, one K-8 school, 17 elementary schools and various off-campus alternative education programs. Student enrollment (pre-school through high school) for the 2024-2025 school year was approximately 15,300 regular and special education students. The District employs approximately 2,100 individuals.

Reporting Entity

For financial reporting purposes, the District has considered all potential component units for which it is financially accountable and other organizations for which the nature and significance of their relationship with the District are such that exclusion would cause the District's financial statements to be misleading or incomplete. The Governmental Accounting Standards Board (GASB) has set forth criteria to be considered in determining financial accountability. These criteria are: a) appointing a voting majority of an organization's governing board, and b) the ability of the District to impose its will on that organization or b) the potential for the organization to provide specific benefits to, or impose specific financial burdens on, the District; and c) fiscal dependency. The District has no component units which meet the GASB criteria.

Measurement Focus, Basis of Accounting and Financial Statement Presentation

These financial statements have been prepared in conformity with the accounting principles generally accepted in the United States of America (GAAP) that apply to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

The accounts of the District are organized and operated on the basis of funds. A fund is an independent fiscal and accounting entity with a self-balancing set of accounts. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions. The minimum number of funds are maintained consistent with legal and managerial requirements.

The District has the following fund types:

Governmental Funds – are used to account for the District's general governmental activities. Governmental fund types use the flow of current financial resources measurement focus and the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they are "measurable and available"). "Measurable" means that the amount of the transaction can be determined and "available" means collected within the current period or expected to be collected soon enough thereafter to pay liabilities of the current period. The District considers all revenues to be available if they are collected within 60 days after year-end.

Davenport Community School District

Notes to Basic Financial Statements

Note 1. Nature of Operations, Reporting Entity, Measurement Focus, Basis of Accounting and Financial Statement Presentation and Significant Accounting Policies (Continued)

Property taxes, sales taxes and service charges are susceptible to accrual. Other taxes collected and being held by the state or other levying authority at year-end on behalf of the District are recognized as revenue. Intergovernmental revenues are considered to be measurable and are recognized as revenue if available and when eligibility requirements have been met. Other receipts become measurable and available when cash is received by the District and are recognized as revenue at that time.

Expenditures are recorded when the related fund liability is incurred, except for certain long-term obligations including debt service principal and interest, compensated absences, and claims and judgments. Expenditures related to such liabilities are only recognized under modified accrual accounting when they mature (when due).

GASB Statement No. 34 sets forth the minimum criteria for the determination of major funds. If a fund's assets and deferred outflows of resources, liabilities and deferred inflows of resources, revenues or expenditures/expenses are at least 10 percent of those of its fund type and at least 5 percent of those of both governmental and enterprise fund types, then it must be a major fund.

The District reports the following major governmental funds:

General Fund: is the District's primary operating fund. It is used to account for and report all financial resources not accounted for and reported in another fund.

Capital Projects Fund: accounts for acquisition of capital assets or construction of major capital projects not being financed by proprietary or fiduciary funds.

The other governmental funds of the District are considered nonmajor and are as follows:

The **special revenue funds** account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects.

The **Debt Service Fund** is utilized to account for property tax and other revenues to be used for the payment of interest and principal on the District's general long-term debt.

Proprietary Funds – are accounted for using the flow of economic resources measurement focus and the full accrual basis of accounting. Under this method, revenues are recognized when earned and expenses are recognized at the time the liabilities are incurred. The District has two proprietary fund types, enterprise funds and an internal service fund.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principle ongoing operations. The principal operating revenues from the District's proprietary funds are charges to customers for sales and services. Operating expenses for the proprietary funds include cost of personnel services, contractual services, operating supplies, self-insurance claims and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Davenport Community School District

Notes to Basic Financial Statements

Note 1. Nature of Operations, Reporting Entity, Measurement Focus, Basis of Accounting and Financial Statement Presentation and Significant Accounting Policies (Continued)

The District reports the following nonmajor enterprise funds:

School Nutrition Fund – accounts for the activities of the District’s school lunch, breakfast and summer fund programs.

Out of School Time Fund – accounts for before and after school programs.

Additionally, the internal service fund type consists of the Self-Insurance Fund, which accounts for the financing of services provided by one department or other departments of the District on a cost reimbursement basis. The District uses the fund for the purpose of providing self-insurance for medical, dental and vision claims.

Fiduciary Funds – account for assets held by the District in a custodial capacity for the benefit of others and cannot be used to support District activities. Fiduciary funds, use the economic resources measurement focus and the full accrual basis of accounting. The District reports custodial funds to account for assets held by the District as an agent for individuals, private organizations and other governments, which includes assets held for staff activities not funded by the District.

The basic financial statements include the government-wide financial statements (based on the District as a whole) and the fund financial statements. The government-wide statements present consolidated information from both the governmental and business-type activities using the economic resource measurement focus and the accrual basis of accounting. The government-wide statements are the statement of net position and the statement of activities.

The statement of activities presents, for each District activity, the extent to which direct expenses are being supported by program revenues or by general revenues. Direct expenses are those that are clearly identifiable with the specific activity (including depreciation). Program revenues are charges for services, grants, contributions, or other revenues that are either restricted for use or are directly associated with the particular activity. General revenues include interest, taxes and other revenues used to support the District’s operations that are not directly associated with a particular activity.

Governmental activities in the government-wide statements include the operations from the governmental funds: the General Fund, the special revenue funds, Debt Service Fund, and Capital Projects Fund adjusted from the modified accrual to the full accrual basis of accounting. Governmental activities also include the activities from the Internal Service Fund. Business-type activities in the government-wide statements are comprised of the enterprise funds. Fiduciary funds are not reported in the government-wide statements because these funds cannot be used to support District activities.

As a general rule, interfund activity has been eliminated from the government-wide statements. However, interfund services provided and used are not eliminated. Elimination of these changes would distort the direct costs and program revenues reported for the various functions concerned. In addition, certain indirect costs are included in program expenses reported for individual functions and activities.

Davenport Community School District

Notes to Basic Financial Statements

Note 1. Nature of Operations, Reporting Entity, Measurement Focus, Basis of Accounting and Financial Statement Presentation and Significant Accounting Policies (Continued)

The fund financial statements present the District's activities at the fund level rather than on a government-wide basis. The fund financial statements report the governmental funds using the modified accrual basis of accounting and proprietary funds using the full accrual basis of accounting. Fund financial statements also include a statement for the fiduciary funds. The fund financial statements for both the governmental and the proprietary funds report the major funds individually and the nonmajor funds combined. The Internal Service Fund is shown at the far right of the proprietary fund financial statements.

The modified accrual basis of accounting is employed by the governmental funds have numerous timing and treatment differences. Differences include the recording of long-term liabilities, the recording of capital asset purchases and disposals and the timing of recognized revenues. Reconciliations are provided for governmental funds to reconcile fund balance to net position and to reconcile the changes in fund balance to the changes in net position. These reconciliations are a part of the fund financial statements.

Significant Accounting Policies

Pass-Through Revenues – GASB Statement No. 24 establishes standards of accounting and financial reporting for pass-through grants, food stamps and on-behalf payments for fringe benefits and salaries. GASB Statement No. 24 requires that all cash pass-through grants received by a governmental entity be recognized as revenue and expenditures or expenses in a governmental, proprietary or trust fund. The District recorded the \$6,003,311 pass-through grant from the Area Education Agency in fiscal year 2024-2025 as revenue and a related expense/expenditure in the Governmental Activities and General Fund.

Cash and Investments – The cash balances of District funds are pooled and invested. Investment income from this internal pooling is allocated to the respective funds based upon the sources of funds invested. Investments are stated at fair value except for the investments in money market funds, which are valued at amortized cost under the Investment Company Act of 1940, and nonnegotiable certificates of deposits, which are stated at cost. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates.

The Iowa Schools Joint Investment is a "money market funds" that seek to maintain a stable net asset value of \$1.00 per share. The funds qualify as a legal investment for the District under Iowa law.

All short-term cash investments that are highly liquid are considered to be cash equivalents. Cash equivalents are readily convertible to known amounts of cash and, at the day of purchases, they have a maturity date no longer than three months.

Property Taxes Receivable – Property taxes in governmental funds are accounted for using the modified accrual basis of accounting. Property taxes receivable is recognized in these funds on the levy or lien date, which is the date that the tax asking is certified by the Board of Education to the County Board of Supervisors. The property taxes receivable includes current year delinquent property taxes receivable which represents unpaid taxes from the current year. The receivable also includes the succeeding year property tax receivable which represents taxes certified by the Board of Education to be collected in the next fiscal year for the purposes set out in the budget for the next fiscal year. By statute, the Board of Education is required to certify its budget to the County Auditor by April 15 of each year for the subsequent fiscal year. However, by the statute, the tax asking and budget certification for the following fiscal year becomes effective on the first day of that year. Although the succeeding year property tax receivable has been recorded, the related revenue is deferred and will not be recognized as revenue until the year for which it is levied and budgeted for.

Davenport Community School District

Notes to Basic Financial Statements

Note 1. Nature of Operations, Reporting Entity, Measurement Focus, Basis of Accounting and Financial Statement Presentation and Significant Accounting Policies (Continued)

Property tax revenue recognized in these funds became due and collectible in September and March of the fiscal year with a 1 ½ percent per month penalty for delinquent payment; is based on January 1, 2023 assessed property valuations; is for the tax accrual period July 1, 2024 through June 30, 2025; and reflects the tax asking contained in the budget certified to the County Board of Supervisors in April 2024.

Intergovernmental Receivables and Revenues: Federal and state grants are recorded as receivables and the revenue is recognized during the period in which the District fulfills the requirements for receiving the grant awards in the government-wide statements. In the governmental fund statements, the revenue must meet the measurable and available criteria. Following is a breakout of the components of the due from other governments balance:

	General	Capital Projects	School Nutrition
Due From Other Governments:			
Federal and state programs	\$ 4,471,147	\$ -	\$ 163,040
Sales, services and use tax	-	1,912,227	-
	<u>\$ 4,471,147</u>	<u>\$ 1,912,227</u>	<u>\$ 163,040</u>

Inventories: Inventories are valued at cost using the first-in, first-out method for purchased items and contributed value at standard prices furnished by the United States Department of Agriculture for government commodities. The costs of governmental fund type inventories are recorded as expenditures when consumed rather than when purchased.

Prepaid Items: Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid expenses in both government-wide and fund financial statements. Prepaid items are recorded as expenditures when the goods and services are consumed rather than when purchased.

Interfund Transactions: Transactions among District funds would be treated as revenues and expenditures or expenses if they involved organizations external to the District and are accounted for as revenues and expenditures or expenses in the funds involved.

Transactions which constitute reimbursements to a fund for expenditures initially made from it which are properly applicable to another fund are recorded as expenditures in the reimbursing fund and as reductions of expenditures in the reimbursed fund.

Transactions, which constitute the transfer of resources from a fund receiving revenues to a fund through which the revenues are to be expected, are separately reported in the respective fund's operating statements.

Activity between funds that are representative of lending/borrowing arrangements at the end of the fiscal year are referred to as "due to/from other funds" in the fund financial statements. Any residual balances outstanding are reported in the government-wide financial statements as "internal balances."

Capital Assets: Capital assets used in governmental and business-type activities of the District are recorded at cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at their acquisition value at the date of donation.

Davenport Community School District

Notes to Basic Financial Statements

Note 1. Nature of Operations, Reporting Entity, Measurement Focus, Basis of Accounting and Financial Statement Presentation and Significant Accounting Policies (Continued)

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend the asset's life are not capitalized. Major outlays for capital assets and improvements are capitalized as construction-in-progress as the projects are constructed.

All land is capitalized and is not depreciated. All other assets capitalized by the District must have a useful life of two years or more and have a cost that exceeds the following minimum thresholds:

Asset Class	Amount
Land	\$ 1
Buildings	25,000
Improvements other than buildings	25,000
Intangibles	100,000
Furniture and equipment:	
School Nutrition Fund equipment	300
Other furniture and equipment	2,500

Capital assets are depreciated using the straight-line method of depreciation/amortization over the following estimated useful lives:

Asset Class	Estimated Useful Lives
Buildings	20 - 40 years
Improvements other than buildings	15 - 40 years
Furniture and equipment	5 - 15 years
Intangibles	5 - 20 years

Capital assets are reported at the fund level for proprietary funds, but not for governmental funds.

The District's collection of library books and other similar assets are not capitalized. These collections are unencumbered, held for public exhibition and education, protected, cared for and preserved and subject to District policy that requires proceeds from the sale of these items, if any, to be used to acquire other collection items.

Deferred Outflows of Resources: Deferred outflows of resources represent a consumption of net assets that applies to a future period(s) and will not be recognized as an outflow of resources (expense/expenditure) until then. Deferred outflows of resources in the proprietary funds and government-wide statement of net position consist of unrecognized items not yet charged to pension expense, contributions from the employer after the measurement date but before the end of the employer's reporting period and other post employment benefit related deferred outflows.

Davenport Community School District

Notes to Basic Financial Statements

Note 1. Nature of Operations, Reporting Entity, Measurement Focus, Basis of Accounting and Financial Statement Presentation and Significant Accounting Policies (Continued)

Salaries and Benefits Payable: Payroll and related expenditures for teachers, principals and administrators with annual contracts corresponding to the current school year, which are payable in July, August and September 2025, have been accrued as liabilities as of June 30, 2025.

Health Claims and Administrative Costs Payable: Health care costs for claims with dates of service incurred prior to year-end which were paid subsequent to year-end have been estimated and accrued as liabilities as of June 30, 2025.

Compensated Absences: District employees accumulate a limited amount of earned but unused vacation, sick leave, and personal leave hours for subsequent use or for payment upon termination, death or retirement. A liability is recorded when each of the following have occurred: the leave is attributable to services already rendered, the leave accumulates and carries forward from one reporting period to the next and the leave is more likely than not to be used for time off or otherwise paid in cash or settled through noncash means.

The District estimates the compensated absences liability for leave benefits that are more likely than not to be used or otherwise paid or settled based on historical information on employees use or payment of the benefits provided. The liability is measured using the pay rates in effect at year-end, the measurement date, and includes salary-related payments that are directly and incrementally associated with the leave liability measurement.

Leases: The District recognizes a lease liability and an intangible right-to-use lease asset in the proprietary fund statements and the government-wide financial statements.

At the commencement of a lease, the District initially measures the lease liability at the present value of payments expected to be made during the lease term. Subsequently, the lease liability is reduced by the principal portion of the lease payments made. The lease asset is initially measured as the initial amount of the lease liability, adjusted for lease payments made at or before the lease commencement date, plus certain initial costs to place the asset in service. Subsequently, the lease asset is amortized on a straight-line basis over the life of the lease.

Key estimates and judgments related to leases include how the District determines (1) the discount rate it uses to discount the expected lease payments to present value, (2) lease term, and (3) lease payments.

The District uses the interest rate charged by the lessor as the discount rate. When the interest rate charged by the lessor is not provided, the District generally uses its estimated incremental borrowing rate as the discount rate for leases.

The lease term includes the noncancellable period of the lease. Lease payments included in the measurement of the lease liability are composed of fixed payments and purchase option price that the District is reasonably certain to exercise.

The District monitors changes in circumstances that would require a remeasurement of its lease and will remeasure the lease asset and liability if certain changes occur that are expected to significantly affect the amount of the lease liability.

Lease assets are reported with other capital assets and lease liabilities are reported with long-term debt on the statement of net position.

Davenport Community School District

Notes to Basic Financial Statements

Note 1. Nature of Operations, Reporting Entity, Measurement Focus, Basis of Accounting and Financial Statement Presentation and Significant Accounting Policies (Continued)

Subscription-Based Information Technology Arrangements (SBITA) – The District has entered into a contract that conveys control of the right to use information technology software. The District has recognized an IT subscription liability and an intangible right-to-use IT subscription asset in the government-wide financial statements.

At the commencement of the IT subscription term, the District initially measures the subscription liability at the present value of payments expected to be made during the subscription term. Subsequently, the IT subscription liability is reduced by the principal portion of payments made. The right-to-use an IT subscription asset is initially measured as the sum of the initial IT subscription liability, adjusted for payments made at or before the commencement date, plus capitalization implementation costs less any incentives received from the SBITA vendor at or before the commencement of the subscription term. Subsequently, the right-to-use IT subscription asset is amortized on a straight-line basis over its useful life.

Key estimates and judgments related to IT subscription arrangements include how the District determines the discount rate it uses to discount the expected payments to present value, term and payments.

The District uses the interest rate charged by the IT subscription vendor as the discount rate. When the interest rate charged by the vendor is not provided, the District generally uses its estimated incremental borrowing rate as the discount rate.

The IT subscription term includes the noncancellable period of the subscription. Payments included in the measurement of the liability are composed of fixed payments.

The District monitors changes in circumstances that would require a remeasurement of its IT subscription and will remeasure the right-to-use IT subscription asset and liability if certain changes occur that are expected to significantly affect the amount of the subscription liability.

Right-to-use IT subscription assets are reported with other capital assets and IT subscription liabilities are reported with long-term debt on the statement of net position.

Unearned revenue: Proprietary funds defer revenue recognition in connection with resources that have been received, but not earned. Unearned revenue in governmental funds arises when assets are recognized before revenue recognition criteria have been satisfied. Grants and entitlements received before the eligibility requirements are met are also recorded as unearned revenue. Unearned revenue consists primarily of grant awards received but not yet expended and meal revenues and fees collected for the programs and services in the next school year.

Long-Term Obligations: In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities or proprietary fund type statement of net position.

Pensions: For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Iowa Public Employees' Retirement System (IPERS) and additions to/deductions from IPERS' fiduciary net position have been determined on the same basis as they are reported by IPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Davenport Community School District

Notes to Basic Financial Statements

Note 1. Nature of Operations, Reporting Entity, Measurement Focus, Basis of Accounting and Financial Statement Presentation and Significant Accounting Policies (Continued)

Total OPEB Liability: For purposes of measuring total OPEB liability, deferred outflows of resources related to OPEB and OPEB expense, information has been determined based on the District's actuary report. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. The total OPEB liability attributable to the governmental activities will be paid primarily by the General Fund and the Enterprise Funds.

Deferred Inflows of Resources: Deferred inflows of resources represents an acquisition of net assets that applies to a future period(s) and will not recognized as an inflow of resources (revenue) until that time. Available means collected within the current year or expected to be collected soon enough thereafter to be used to pay liabilities of the current year. Deferred inflows of resources in the governmental fund financial statements represent the amount of assets that have been recognized, but the related revenue has not been recognized since the assets are not collected within the current year or expected to be collected soon enough thereafter to be used to pay liabilities of the current year. Deferred inflows of resources consist of property tax receivable and other receivables not collected within sixty days after year end.

Deferred inflows of resources in the Statement of Net Position consist of succeeding year property tax receivables that will not be recognized until the year for which it is levied and other unrecognized items not yet credited to pension expense and other post-employment benefit expense.

Net Position: Net position represents the difference between assets, deferred outflows of resources, liabilities and deferred inflows of resources. Net investment in capital assets consists of capital assets, net of accumulated depreciation. Net position is reported as restricted when there are limitations imposed on their use either through enabling legislation or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. When an expense is incurred for purposes for which both restricted net position is available, the District first applies restricted resources. Net investment in capital assets excludes unspent bond proceeds of \$42,776,696.

Net position restricted through enabling legislation include \$4,867,602 for categorical funding, \$12,365,502 for management levy, \$18,196,438 for physical plant and equipment, \$54,782,101 for school infrastructure, and \$6,645,788 for debt service. Net position restricted by donations and fundraising are student activities of \$972,997.

The Out of School Time Fund, a nonmajor enterprise fund, has a deficit net position of (\$88,337). The deficit will be resolved through future charges for services.

Fund Balance: In the governmental fund financial statements, fund balances are classified as follows:

Nonspendable: Amounts which cannot be spent either because they are in a nonspendable form or because they are legally or contractually required to be maintained intact.

Restricted: Amounts restricted to specific purposes when constraints placed on the use of the resources are either externally imposed by creditors, grantors or state or federal laws or imposed by law through constitutional provisions or enabling legislation.

Committed: Amounts which can be used only for specific purposes pursuant to constraints formally imposed by the Board of Education through resolution approved prior to year-end. Those committed amounts cannot be used for any other purpose unless the Board of Education removes or changes the specified use by taking the same action it employed to commit those amounts.

Davenport Community School District

Notes to Basic Financial Statements

Note 1. Nature of Operations, Reporting Entity, Measurement Focus, Basis of Accounting and Financial Statement Presentation and Significant Accounting Policies (Continued)

Assigned: Amounts constrained by the District's intent to use them for a specific purpose. Intent can be expressed by the Board of Education or by an official or body to which the Board delegates the authority. The authority to assign fund balances has been delegated by the Board to the Superintendent or Chief Financial Officer.

Unassigned: All amounts not included in other spendable classifications. The General Fund is the only fund that would report a positive amount in unassigned fund balance. Residual deficit amounts of other governmental funds would also be reported as unassigned.

When an expenditure is incurred in governmental funds which can be paid using either restricted or unrestricted resources, the District's policy is to pay the expenditure from restricted fund balance and then from less-restrictive classifications – committed, assigned and then unassigned fund balances.

Budgets and Budgetary Accounting: As allowed by GASB Statement No. 41, *Budgetary Comparison Schedules – Perspective Differences*, the District presents budgetary comparison schedules as required supplementary information based on the program structure of four functional areas as required by state statute for its legally adopted budget.

Note 2. Cash and Pooled Investments

The District is authorized by state statute to invest public funds in obligations of the United States government, its agencies and instrumentalities; certificates of deposit or other evidences of deposit at federally insured depository institutions approved by the Board of Education; prime eligible bankers acceptances; certain high rated commercial paper; perfected repurchase agreements; certain registered open-end management investment companies; certain joint investment trusts; and warrants or improvement certificates of a drainage district.

As of June 30, 2025, the book balance of the District's bank deposits and petty cash totaled \$85,528,752 (including \$1,068,337 custodial funds) and the bank balances totaled \$89,073,370.

Interest Rate Risk: The District's investment policy, which is accordance with the Code of Iowa, limits the investments of operating funds (funds expected to be expended in the current budget year or within 15 months of receipt) in instructions that mature within 397 days. Funds not identified as operating funds may be invested in instruments with maturities longer than 397 days, but the maturities shall be consistent with the needs and use of the District. The District did not hold any instruments with a maturity greater than 397 days during the year.

Davenport Community School District

Notes to Basic Financial Statements

Note 2. Cash and Pooled Investments (Continued)

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. As of June 30, 2025, the District's investments were as follows:

	Investment Maturities (in Years)					Level Input	Rating	
	Fair Value	Less than 1	1-5	6-10	>10		Standard & Poor	Fitch
Investment Pools,								
Iowa Schools Joint								
Investment Trust:								
Money Marker Funds	\$ 130,032,885	\$ 130,032,885	\$ -	\$ -	\$ -	N/A	AAAm	AAA
Certificates of Deposits	33,985,066	27,227,399	-	-	-	N/A	N/A	N/A
	<u>\$ 164,017,951</u>	<u>\$ 157,260,284</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ -</u>			

At June 30, 2025, the District had investments in the Iowa Schools Joint Investment Trust (ISJIT) Diversified Fund money market funds and certificates of deposit which are valued at amortized cost of \$164,017,951 pursuant to Rule 2a-7 under the investment Company Act of 2040. There were no limitations or restrictions on withdrawals of the ISJIT investments

Credit Risk: Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of rating by a nationally recognized statistical rating organization. The District has no formal investment policy that would limit its investment choices to items other than those allowed by Iowa law. The credit ratings related to the Iowa Schools Joint Investment Trust and Treasury Bills are disclosed in the chart above.

Concentration of Credit Risk: The District's investment policy does not allow for a prime bankers' acceptance or commercial paper and other corporate debt balances to be greater than 10 percent of its total deposits and investments. The policy also limits the amount that can be invested in a single issue to 5 percent of its total deposits and investments. The District did not hold any commercial paper or other corporate debt at June 30, 2025.

Custodial Credit Risk Deposits: In the case of deposits, this is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District's deposits are entirely covered by federal depository insurance or by the State Sinking Fund in accordance with Chapter 12C of the Code of Iowa. This chapter provides for additional assessments against the depositories to ensure there will be no loss of public funds.

Custodial Credit Risk Investments: For an investment, this is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The District had no custodial credit risk with regards to investments as all investments were held by the District or its agent in the District's name.

Net pension liability	1,636,820	-	351,268	1,285,552	-
OPEB liability	260,215	13,667	-	273,882	15,337
Total	<u>\$ 2,905,823</u>	<u>\$ 45,327</u>	<u>\$ 389,312</u>	<u>\$ 2,561,838</u>	<u>\$ 820,199</u>

Davenport Community School District

Notes to Basic Financial Statements

Note 5. Long-Term Liabilities (Continued)

For governmental activities, early retirement obligations are generally liquidated by the Management Fund and compensated absences and pension and OPEB liabilities are generally liquidated by the General Fund and Enterprise Funds.

Revenue Bonds -Governmental Activities:

On April 11, 2024, the District issued School Infrastructure Sales, Services and Use Tax Revenue Bonds Series 2024. The revenue bonds bear interest at rates ranging from 5.00% to 7.00% per annum and mature in varying annual amounts, ranging from \$1,900,000 to \$5,895,000, with the final maturity due in the year ending June 30, 2043. The bonds were issued for the purpose of providing funds for school infrastructure projects; including to construct, build, furnish and equip new middle school buildings and improve the sites; to repair, remodel, improve, furnish and equip North High School building and improve the site; and to install, equip and furnish turf fields for the existing high school athletic facilities.

During the fiscal year ended June 30, 2025, the District had sales, services, and use tax revenue of \$18,234,760 and the amount of principal and interest paid was \$6,132,168. Total principal and interest remain to be paid on the bonds as of June 30, 2025 was \$110,382,200. The bonds are not general obligations of the District. Annual principal and interest on the bonds are expected to require 20% of the pledged revenue over the life of the bonds.

The resolution providing for the issuance of the revenue bonds included a reserve requirement. The District is required to maintain a sinking fund. The required amount to be deposited in the sinking fund in any month shall be the equal monthly amount necessary to pay in full the installments of interest coming due on the next interest payment date on the then outstanding Bonds and Parity Bonds plus the equal monthly amount necessary to pay in full the installment of principal coming due on such bonds on the next succeeding principal payment date until the full amount of such installment is on hand. The reserve fund requirement is defined as the lesser of a) the maximum annual amount of the principal and interest coming due on the bonds and parity bonds in any year, or b) 10% of the stated principal amount of the bonds and parity bonds, or c) 125% of the average annual principal and interest coming due on the bonds. The District has \$6,645,788 of cash and investments in the Debt Service Fund to comply with the sinking fund and reserve requirement.

Davenport Community School District

Notes to Basic Financial Statements

Note 5. Long-Term Liabilities (Continued)

The details of the revenue bonds are as follows:

Year ending June 30:	Governmental Activities School Infrastructure Sales, Services, and Use Tax Revenue Bonds		
	Principal	Interest	Total
2026	\$ 2,550,000	\$ 3,583,050	\$ 6,133,050
2027	2,730,000	3,404,550	6,134,550
2028	2,920,000	3,213,450	6,133,450
2029	3,065,000	3,067,450	6,132,450
2030	3,220,000	2,914,200	6,134,200
2031-2035	18,670,000	11,989,500	30,659,500
2036-2040	23,830,000	6,831,000	30,661,000
2041-2043	17,015,000	1,379,000	18,394,000
	<u>\$ 74,000,000</u>	<u>\$ 36,382,200</u>	<u>\$ 110,382,200</u>

Leases: The District has entered into several leases for equipment. The leases expire June 30, 2027. The details of the leases are as follows:

Year ending June 30:	Leases		
	Principal	Interest	Total
2026	\$ 16,814	\$ 327	\$ 17,141
2027	3,917	87	4,004
Totals	<u>\$ 20,731</u>	<u>\$ 414</u>	<u>\$ 21,145</u>

Subscription-Based Information Technology Arrangements (SBITA): The District has entered into several subscription based information technology arrangements (SBITA). The arrangements expire between June 30, 2026 and June 30, 2027. The details of the arrangements are as follows:

Year ending June 30:	SBITA- Governmental Activities		
	Principal	Interest	Total

2027	40,754	1,426	42,180
Totals	<u>\$ 80,129</u>	<u>\$ 4,231</u>	<u>\$ 84,360</u>

Davenport Community School District

Notes to Basic Financial Statements

Note 5. Long-Term Liabilities (Continued)

Early Retirement: The District may provide early retirement incentives for certain employees who meet certain qualifications as established by the Board of Education. The cost of the incentives is borne by the District in whole. Eligible participants cannot, and do not, contribute to the incentive program. The early retirement liability as of June 30, 2025 of \$419,657 is the remaining liability for Early Retirement Incentive Plans issued in 2021.

The early retirement benefit for this plan year ranged from \$25,000 to \$50,000 divided over a five-year period paid into a retiree health reimbursement account or a 403(b) special plan.

Early retirement benefits are paid evenly over five years. As of June 30, 2025, 51 District retirees participate in the plan. The District has recorded the liability at the net present value of the future payments. During the year ended June 30, 2025, the District paid \$717,237 of early retirement benefits.

Legal Debt Margin: As of June 30, 2025, the District did not hold any outstanding general obligation debt and therefore did not exceed the statutory debt limit.

Note 6. Other Postemployment Benefits (OPEB)

Plan description: The District's defined benefit OPEB plan, Davenport Community School District Postemployment Plan Other Than Pensions (the Plan), provides postemployment benefits for eligible participants enrolled in its plans. The Plan is a single employer defined benefit OPEB plan administered by the District. Under Chapter 509A.13 of the Code of Iowa, "Group Insurance for Public Employees," if a governing body has procured insurance for its employees, the governing body shall allow its employees who retired before the age of sixty-five years of age to continue participation in the group plan at the employee's own expense until the employee attains sixty-five years of age. No assets are accumulated in a trust that meets the criteria in paragraph 4 of Statement No. 75.

Benefits provided: The Plan provides healthcare benefits including medical and prescription drug benefits for retirees and their dependents. Retiree health care coverage is available to pre-age 65 eligible retirees. All employees are required to contribute the full premium in order to continue coverage at retirement. The full monthly premium rates as of July 1, 2024 for each plan are as shown below:

	Rate Tier	Medical
Single		\$ 707
Family		1,714

Employees covered by benefit terms: As of July 1, 2024, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefit payments	57
Inactive employees entitled to but not yet receiving benefit payments	-
Active employees	2,109
	<u>2,166</u>

Total OPEB Liability

The District's total OPEB liability of \$9,352,324 was measured as of June 30, 2025 and was determined by an actuarial valuation as of July 1, 2024.

Davenport Community School District

Notes to Basic Financial Statements

Note 6. Other Postemployment Benefits (OPEB) (Continued)

Actuarial assumptions and other inputs: The total OPEB liability in the actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement unless otherwise specified:

Inflation	3.00% per annum
Salary increases	4.00% per annum
Discount rate	4.81% per annum
Retirees' share of benefit-related costs	100%
Health care cost trend rate	6.00%
	The trend rate is reduced each year until reaching the ultimate trend rate of 4.50%

The discount rate reflects the index rate for 20-year, tax exempt general obligation municipal bonds with an average rating of AA/Aa or higher as of the measurement date. Mortality rates were based on the PubT.H-2010 mortality table with mortality improvement using scale MP-2020. The actuarial assumptions used in the June 30, 2025 valuation were based on the results of an actuarial experience study for the period 2010– 2020.

Changes in the Total OPEB Liability:

	Increase (Decrease)
	Total OPEB Liability
	(a)
Balance at July 1, 2024	\$ 8,864,220
Changes for the year:	
Service cost	539,715
Interest	313,547
Changes of benefit terms	-
Differences between expected and actual experience	(339,938)
Changes in assumptions or other inputs	522,559
Benefit payments	(547,779)
Net changes	488,104
Balance at June 30, 2025	<u>\$ 9,352,324</u>

There were no changes as a result of changes in benefit terms.

Differences between expected and actual experience was due to differences in actual experience in the retirees, terminations, claim experience, and plan options than expected. Changes in assumptions or other inputs reflect a change in the discount rate from 3.65% per annum in 2024 to 4.81% per annum in 2025.

Sensitivity of the total OPEB liability to changes in the discount rate: The following presents the total OPEB liability of the District, as well as what the District's total OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower or 1 percentage point higher than the current discount rate:

	1% Decrease	Discount Rate	1% Increase
	3.81%	4.81%	5.81%
Total OPEB liability	\$ 10,061,105	\$ 9,352,324	\$ 8,692,855

Davenport Community School District

Notes to Basic Financial Statements

Note 6. Other Postemployment Benefits (OPEB) (Continued)

Sensitivity of the total OPEB liability to changes in the healthcare cost trend rates: The following presents that total OPEB liability of the District, as well as what the District's total OPEB liability would be if it were calculated using healthcare cost trend rates that are 1 percentage point lower or 1-percentage point higher than the current healthcare cost trend rates.

	Healthcare Cost		
	1% Decrease	Trend Rates	1% Increase
	5.00%	6.00%	7.00%
Total OPEB liability	\$ 8,400,756	\$ 9,352,324	\$ 10,477,245

For the year ended June 30, 2025, the District recognized OPEB expense of \$734,830. At June 30, 2025, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ -	\$ (2,339,592)
Changes of assumptions or other inputs	3,989,573	(2,753,040)
Net difference between projected and actual investments	-	-
Total	\$ 3,989,573	\$ (5,092,632)

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year ended June 30:	
2026	\$ (118,431)
2027	(118,431)
2028	(118,431)
2029	(118,431)
2030	(118,431)
Thereafter	(510,904)
	\$ (1,103,059)

Note 7. Pension and Retirement Benefits

Plan Description: IPERS membership is mandatory for employees of the District, except for those covered by another retirement system. Employees of the District are provided with pensions through a cost-sharing multiple employer defined benefit pension plan administered by Iowa Public Employees' Retirement System (IPERS). IPERS issues a stand-alone financial report which is available to the public by mail at 7401 Register Drive P.O. Box 9117, Des Moines, Iowa 50306-9117 or at www.ipers.org.

IPERS benefits are established under Iowa Code chapter 97B and the administrative rules thereunder. Chapter 97B and the administrative rules are the official plan documents. The following brief description is provided for general informational purposes only. Refer to the plan documents for more information.

Davenport Community School District

Notes to Basic Financial Statements

Note 7. Pension and Retirement Benefits (Continued)

Pension Benefits: A regular member may retire at normal retirement age and receive monthly benefits without an early-retirement reduction. Normal retirement age is age 65, any time after reaching age 62 with 20 or more years of covered employment, or when the member's years of service plus the member's age at the last birthday equals or exceeds 88, whichever comes first. These qualifications must be met on the member's first month of entitlement to benefits. Members cannot begin receiving retirement benefits before age 55.

The formula used to calculate a Regular member's monthly IPERS benefit includes:

- A multiplier (based on years of service).
- The member's highest five-year average salary, except members with service before June 30, 2012 will use the highest three-year average salary if it is greater than the highest five-year average salary.

If a member retires before normal retirement age, the member's monthly retirement benefit will be permanently reduced by an early-retirement reduction. The early-retirement reduction is calculated differently for service earned before and after July 1, 2012. For service earned before July 1, 2012, the reduction is 0.25 percent for each month that the member receives benefits before the member's earliest normal retirement age. For service earned starting July 1, 2012, the reduction is 0.50 percent for each month that the member receives benefits before age 65.

Generally, once a member selects a benefit option, a monthly benefit is calculated and remains the same for the rest of the member's lifetime. However, to combat the effects of inflation, retirees who began receiving benefits prior to July 1990 receive a guaranteed dividend with their regular November benefit payments.

Disability and Death Benefits: A vested member who is awarded federal Social Security disability or Railroad Retirement disability benefits is eligible to claim IPERS benefits regardless of age. Disability benefits are not reduced for early retirement. If a member dies before retirement, the member's beneficiary will receive a lifetime annuity or a lump-sum payment equal to the present actuarial value of the member's accrued benefit or calculated with a set formula, whichever is greater. When a member dies after retirement, death benefits depend on the benefit option the member selected at retirement.

Contributions: Contribution rates are established by IPERS following the annual actuarial valuation, which applies IPERS' Contribution Rate Funding Policy and Actuarial Amortization Method. State statute limits the amount rates can increase or decrease each year to 1 percentage point. IPERS Contribution Rate Funding Policy requires that the actuarial contribution rate be determined using the "entry age normal" actuarial cost method and the actuarial assumptions and methods approved by the IPERS Investment Board. The actuarial contribution rate covers normal cost plus the unfunded actuarial liability payment based on a 30-year amortization period. The payment to amortize the unfunded actuarial liability is determined as a level percentage of payroll, based on the Actuarial Amortization Method adopted by the Investment Board.

In fiscal year 2025, pursuant to the required rate, regular members contributed 6.29 percent of covered payroll and the District contributed 9.44 percent of covered payroll for a total rate of 15.73 percent.

The District's contributions to IPERS for the year ended June 30, 2025 were \$11,493,444.

Davenport Community School District

Notes to Basic Financial Statements

Note 7. Pension and Retirement Benefits (Continued)

Net Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions: At June 30, 2025, the District reported a liability of \$45,912,576 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2024, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the District's share of contributions to the pension plan relative to the contributions of all IPERS participating employers. At June 30, 2024, the District's proportion was 1.260816 percent, which was a decrease of 0.037560 percent from its proportion measured as of June 30, 2023.

For the year ended June 30, 2025, the District recognized pension expense of \$1,702,066. At June 30, 2025, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 3,653,303	\$ (28,521)
Changes of assumptions	-	(642)
Net difference between projected and actual earnings on pension plan investments	574,213	-
Changes in proportion and differences between District contributions and proportionate share of contributions	-	(6,849,323)
District contributions subsequent to the measurement date	11,493,444	-
Total	<u>\$ 15,720,960</u>	<u>\$ (6,878,486)</u>

\$11,493,444 reported as deferred outflows of resources related to pensions resulting from the District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2026. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ended June 30,	
2026	\$ (9,004,827)
2027	9,169,532
2028	(774,661)
2029	(1,979,408)
2030	(61,606)
Thereafter	-
Total	<u>\$ (2,650,970)</u>

There were no non-employer contributing entities at IPERS.

Davenport Community School District

Notes to Basic Financial Statements

Note 7. Pension and Retirement Benefits (Continued)

Actuarial Assumptions: The total pension liability in the June 30, 2024 actuarial valuation was determined using the following actuarial assumptions, applied to all period included in the measurement:

Rate of Inflation (effective June 30, 2017)	2.60 percent per annum
Salary Increases (effective June 30, 2017)	3.25 percent to 16.25 percent average, including inflation. Rates vary by membership group.
Investment rate of return (effective June 30, 2017)	7.00 percent, compounded annually, net of investment expense, including inflation.
Wage growth (effective June 30, 2017)	3.25 percent per annum, based on 2.60 percent inflation and .65 percent real wage inflation

The actuarial assumptions used in the June 30, 2024 valuation were based on the results of a quadrennial experience study covering the period of July 1, 2017 through June 30, 2021. Mortality rates used in the 2024 valuation were based on the PubG-2010 mortality tables with future mortality improvements modeled using Scale MP-2021.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Asset Allocation	Long-Term Expected Real Rate of Return
Domestic equity	21.0%	3.52%
International equity	13.0%	5.18%
Global smart beta equity	5.0%	4.12%
Core plus fixed income	25.5%	3.04%
Public credit	3.0%	4.53%
Cash	1.0%	1.69%
Private equity	17.0%	8.89%
Private real assets	9.0%	4.25%
Private credit	5.5%	6.62%
Total	100%	

Davenport Community School District

Notes to Basic Financial Statements

Note 7. Pension and Retirement Benefits (Continued)

Discount Rate: The discount rate used to measure the total pension liability was 7.0 percent. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the contractually required rate and that contributions from the District will be made at contractually required rates, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate: The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.0 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.0 percent) or 1-percentage-point higher (8.0 percent) than the current rate.

	1% Decrease (6.0%)	Discount Rate (7.0%)	1% Increase (8.0%)
District's proportionate share of the net pension liability (asset)	\$ 112,668,640	\$ 45,912,576	\$ (9,995,978)

Pension Plan Fiduciary Net Position: Detailed information about the pension plan's fiduciary net position is available in the separately issued IPERS financial report which is available on IPERS' website at www.ipers.org.

Payables to the Pension Plan: At June 30, 2025, the District reported payables to IPERS of \$883,421 for legally required District contributions and \$588,636 for legally required employee contributions withheld from employee wages which had not yet been remitted to IPERS.

Note 8. Risk Management

The District is exposed to various risks of loss related to torts; thefts; damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. These risks are covered by the purchase of commercial insurance. There were no reductions in coverage from the prior year.

The District has established an administrative service insurance plan for its employees' accident, medical and dental insurance coverage. The plan is primarily funded through employer contributions. Self-insurance is in effect up to an individual stop loss amount of \$300,000 and an annual aggregate stop loss for the excess of 125 percent of estimated claims.

Coverage from a private insurance company is maintained for losses in excess of the stop loss amounts. Such coverage is activated based on claims actually paid during the policy year. All claims-handling procedures are performed by an independent claims administrator. There was no reduction in insurance coverage from the prior year.

The District's estimated liability for health, dental and vision claims and related administrative costs incurred prior to year-end but not paid is accrued. The estimated liability is based on a combination of known claims filed after year-end and an estimate of incurred but not reported claims based on prior years' payment history. The estimated liability does not include any allocated or unallocated claims adjustment expense.

Davenport Community School District

Notes to Basic Financial Statements

Note 8. Risk Management (Continued)

Changes in the accrual balance for the years ended June 30, 2025 and 2024 are as follows:

	2025	2024
Balance, beginning of year	\$ 3,500,000	\$ 3,500,000
Incurred claims and claim adjustments	26,782,932	25,295,689
Payment of claims	26,782,932	25,295,689
Balance, end of year	<u>\$ 3,500,000</u>	<u>\$ 3,500,000</u>

Settled claims have not exceeded commercial coverage in any of the last three fiscal years.

Note 9. Restricted Categorical Funding

The District's fund balance restricted for categorical funding as of June 30, 2025 is comprised of the following programs:

Program:	Amount
Four year old preschool	\$ 1,335,601
Teacher leadership	2,758,315
Success for early readers	116,852
Gifted and talented	502,644
Home school assistance program	154,190
Total	<u>\$ 4,867,602</u>

Note 10. Commitments and Contingencies

The District has entered into various construction and remodel contracts for projects throughout the District. As of June 30, 2025, these contracts totaled \$123,284,683. Work done and payments of \$48,041,099 have been made leaving the portion of these contracts which has not been completed or paid or accrued as a liability of \$75,243,584.

The District is a defendant in various lawsuits which have arisen in the normal course of business. Total damages claimed are substantial; however, it has been District's experience that such actions are settled for amounts substantially less than those claimed. In addition, most claims are covered by insurance. In the opinion of District officials and legal counsel, the ultimate liability, if any, resulting from such litigation will not materially affect the financial statements of the District.

Davenport Community School District

Notes to Basic Financial Statements

Note 11. Tax Abatements

Governmental Accounting Standards Board Statement No. 77 defines tax abatements as a reduction in tax revenues that results from an agreement between one or more governments and an individual or entity in which (a) one or more governments promise to forgo tax revenues to which they are entitled and (b) the individual or entity promises to take a specific action after the agreement has been entered into that contributes to economic development or otherwise benefits the governments or the citizens of those governments. Property tax revenues of the District were reduced by the following amounts for the year ended June 30, 2025 under tax abatement agreements of other entities:

Entity	Tax Abatement Program	Amount of Tax Abated
City of Davenport, Iowa	Urban renewal and economic development projects	\$ 739,700
City of Blue Grass, Iowa	Urban renewal and economic development projects	8,614
City of Walcott, Iowa	Urban renewal and economic development projects	26,846

The State of Iowa reimburses the District an amount equivalent to the increment of valuation on which property tax is divided times \$5.40 per \$1,000 of taxable valuation. For the year ended June 30, 2025, this reimbursement amounted to \$395,165.

Note 12. New Governmental Accounting Standards Board (GASB) Statements

The District adopted the following statements during the year ended June 30, 2025:

GASB Statement No. 101, *Compensated Absences*, issued June 2022. The objective of this Statement is to better meet the information needs of financial statement users by updating the recognition and measurement guidance for compensated absences. That objective is achieved by aligning the recognition and measurement guidance under a unified model and by amending certain previously required disclosures. This Statement requires that liabilities for compensated absences be recognized for (1) leave that has not been used and (2) leave that has been used but not yet paid in cash or settled through noncash means. A liability should be recognized for leave that has not been used if (a) the leave is attributable to services already rendered, (b) the leave accumulates, and (c) the leave is more likely than not to be used for time off or otherwise paid in cash or settled through noncash means. With respect to financial statements prepared using the current financial resources measurement focus, this Statement requires that expenditures be recognized for the amount that normally would be liquidated with expendable available financial resources. This Statement amends the existing requirements to disclose the gross increases and decreases in a liability for compensated absences to allow governments to disclose only the net change in the liability (As long as they identify it as a net change). In addition, governments are no longer required to disclose which governmental funds typically have been used to liquidate the liability for compensated absences.

Davenport Community School District

Notes to Basic Financial Statements

Note 12. New Governmental Accounting Standards Board (GASB) Statements (Continued)

GASB Statement No. 102, *Certain Risk Disclosures*, issued December 2023. The objective of this Statement is to provide users of government financial statements with information about risks related to a government's vulnerabilities due to certain concentrations or constraints that is essential to their analyses for making decisions or assessing accountability. A government should provide information in sufficient detail to enable users of financial statements to understand the nature of the circumstances disclosed and the government's vulnerability to the risk of a substantial impact associated with the concentration or constraint. The disclosures should include descriptions of the following: (a) The concentration or constraint (b) Each event associated with the concentration or constraint that could cause a substantial impact if the event had occurred or had begun to occur prior to the issuance of the financial statements (c) Actions taken by the government prior to the issuance of the financial statements to mitigate the risk.

The above statements did not have a significant impact to the District except for GASB Statement No. 101 required the District to restate beginning net position of the governmental activities, business-type activities, and nonmajor enterprise funds School Nutrition Fund and Out of School Time Fund.

As of June 30, 2025, GASB had issued several statements not yet required to be implemented by the District. The Statements which might impact the District are as follows:

GASB Statement No. 103, *Financial Reporting Model Improvements*, issued April 2024, will be effective for the District beginning with its fiscal year ending June 30, 2026. The objective of this statement is to improve key components of the financial reporting model to enhance its effectiveness in providing information that is essential for decision making and assessing a government's accountability. This statement also addresses certain application issues.

GASB Statement No. 104, *Disclosure of Certain Capital Assets*, issued September 2024, will be effective for the District beginning with its fiscal year ending June 30, 2026. The objective of this statement is to provide users of government financial statements with essential information about certain types of capital assets. This Statement requires certain types of capital assets to be disclosed separately in the capital assets note disclosures required by Statement 34. Lease assets recognized in accordance with Statement No. 87, *Leases*, and intangible right-to-use assets recognized in accordance with Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements*, should be disclosed separately by major class of underlying asset in the capital assets note disclosures. Subscription assets recognized in accordance with Statement No. 96, *Subscription-Based Information Technology Arrangements*, also should be separately disclosed. In addition, this Statement requires intangible assets other than those three types to be disclosed separately by major class. This Statement also requires additional disclosures for capital assets held for sale.

The District's management has not yet determined the effect these Statements will have on the District's financial statements.

Davenport Community School District

Notes to Basic Financial Statements

Note 13. Restatement

The District implemented GASB Statement No. 101, *Compensated Absences*, which required the District to restate net position as of June 30, 2024, as follows:

	Governmental Activities	Business-type Activities	Nutrition Fund	Nonmajor Out of School Time Fund
Net position June 30, 2024, as previously reported	\$ 281,702,173	\$ 5,862,756	\$ 5,872,584	\$ (9,828)
Compensated absences previously reported	867,649	26,765	9,016	17,749
Compensated absences liability, change in accounting principle	(32,157,406)	(890,615)	(810,849)	(79,766)
Net position June 30, 2024, as restated	<u>\$ 250,412,416</u>	<u>\$ 4,998,906</u>	<u>\$ 5,070,751</u>	<u>\$ (71,845)</u>

Notes to Schedule:

Changes of benefit terms:

There were no changes as a result of changes in benefit terms.

Differences between expected and actual experience:

Differences between expected and actual experience was due to differences in actual experience in retirees, terminations, claim experience, and plan option than expected.

Changes of assumption:

Changes in assumptions were as follows:

Salary increases	4.00%	2.50%
Discount rate	4.81%	3.65%
Health care cost trend rate	6.00%	5.50%

No assets are accumulated in a trust that meets the criteria in paragraph 4 of Statement No. 75

Note: The schedule is intended to present information for ten years. Information prior to 2018 is not available.

Notes to Required Supplementary Information

Note 1. Budgets and Budgetary Information

This budgetary comparison is presented as Required Supplementary Information in accordance with Governmental Accounting Standards Board Statement No. 41 for governments with significant budgetary perspective differences resulting from not being able to present budgetary comparisons for the General Fund and each major special revenue fund.

In accordance with the Code of Iowa, the Board of Education annually adopts a budget following required public notice and hearing for all funds except internal service, and custodial funds. The budget may be amended during the year utilizing similar statutorily prescribed procedures. The District's budget is prepared on a basis consistent with accounting principles generally accepted in the United States of America.

Formal and legal budgetary control for the certified budget is based upon four major classes or expenditures known as functional areas, not by fund or fund type. These four functional areas are instruction, support services, noninstructional programs and other expenditures. Although the budget document presents functional expenditures or expenses by fund, the legal level of control is at the aggregated functional area level, not at the fund or fund type level. The Code of Iowa also provides that District expenditures in the General Fund may not exceed the amount authorized by the school finance formula.

The District follows these procedures in establishing budgetary data:

1. The Administration submits to the Board of Education a proposed operating budget for the year commencing July 1. The operating budget includes proposed expenditures and the means of financing them.
2. Public hearings are conducted and the proposed budget is available for inspection to obtain taxpayer comments. The proposed budget is readily available at least 30 days prior to final action by the Board.
3. Prior to April 15, the budget is legally adopted through passage of a resolution which is filed with the County Auditor to obtain tax revenues.
4. The Board of Education may amend the budget after it is approved using the same procedures required to approve the original budget.
5. All annual appropriations lapse at fiscal year-end.

Davenport Community School District

Notes to Required Supplementary Information

Note 2. Iowa Public Employees' Retirement System Pension Liability

Changes of benefit terms:

There are no significant changes in benefit terms.

Changes of assumptions:

The 2022 valuation incorporated the following refinements after a quadrennial experience study:

- Changed mortality assumptions to the PubG-2010 mortality tables with mortality improvements modeled using Scale MP-2021.
- Adjusted retirement rates for Regular members.
- Lowered disability rates for Regular members.
- Adjusted termination rates for all membership groups.

The 2018 valuation implemented the following refinements as a result of a demographic assumption study dated June 28, 2018:

- Changed mortality assumptions to the RP-2014 mortality tables with mortality improvements modeled using Scale MP-2017
- Adjusted retirement rates
- Lowered disability rates
- Adjusted the probability of a vested regular member electing to receive a deferred benefit
- Adjusted the merit component of the salary increase assumption

The 2017 valuation implemented the following refinements as a result of an experience study dated March 24, 2017:

- Decreased the inflations assumption from 3.00% to 2.60%
- Decreased the assumed rate of interest on member accounts from 3.75% to 3.50% per year.
- Decreased the discount rate from 7.50% to 7.00%
- Decreased the wage growth assumption from 4.00% to 3.25%
- Decreased the payroll growth assumption from 4.00% to 3.25%

Nonmajor Governmental Funds

The other governmental funds of the District are considered nonmajor and are as follows:

The special revenue funds account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects. A brief description of each of the District's special revenue funds follows:

Management Fund – This fund accounts for tort liability insurance premiums, unemployment compensation insurance claims and early retirement incentive payments.

Student Activity Fund – This fund accounts for money held by the District on behalf of the students who have raised these funds and are responsible for their disposition for co-curricular or extracurricular activities of the District.

Debt Service – This fund accounts for the accumulation of resources for the payment of general long-term debt principal, interest and related costs.

Fiduciary Funds

Fiduciary funds focus on net position and changes in net position. The District's fiduciary funds include custodial funds.

The custodial funds account for assets held by the District as an agent for individuals, private organizations, and other governments, which includes assets held for staff activities not funded by the District. The District has the following custodial funds.

Teacher and Paraeducator Registered Apprenticeship Program – To operate the Teacher and Paraeducator Registered Apprenticeship program from Iowa Workforce Development. The District operates as the fiscal agent for Districts in the Mississippi Valley School District Consortium.

Staff Activities – Includes assets held for staff activities not funded by the District.

Davenport Community School District

Statistical Section Contents

The statistical section of the District's annual comprehensive financial report presents detailed information as a context for understanding what the information presented in the financial statements, note disclosures and required supplementary information say about the District's overall financial health.

Contents	Page
Financial Trends These schedules contain trend information to help the reader understand how the District's financial performance and well being have changed over time.	81
Revenue Capacity These schedules contain information to help the reader assess the District's most significant local revenue sources, the property tax (or sales tax).	91
Debt Capacity These schedules present information to help the reader assess the affordability of the District's current level of outstanding debt and the District's ability to issue additional debt in the future.	96
Demographic and Economic Information These schedules offer demographic and economic indicators to help the reader understand the environment within which the District's financial activities take place.	101
Operating Information These schedules contain service and infrastructure data to help the reader understand how the information in the District's financial report relates to the services the District provides and the activities it performs.	103

Sources: Unless otherwise noted, the information in these schedules is derived from the annual comprehensive financial report for the relevant year.

* The County does not provide the delinquent tax collection levy year in order to determine the year the collection pertains to for computing the percentage of levy. Therefore, the District collects approximately 100% of the levy.

Note: Taxes levied for the fiscal year excludes the commercial and industrial backfill of property taxes provided by the state.

Subtotal, overlapping debt			244,250,277
District direct debt			80,380,209
Total direct and overlapping debt			\$ 324,630,486

Source: Scott County Treasurer's Office and Muscatine County Treasurer's Office

The outstanding debt amounts are obtained directly from the debt issuing entity.

Notes:

Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the District. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the District. This process recognizes that, when considering the District's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account.

The percentage of overlapping debt applicable is estimated using taxable property values. Applicable percentages were estimated by determining the portion of another governmental unit's taxable value that is within the District's boundaries and dividing it by each unit's total taxable value.

**Independent Auditor’s Report on Internal Control Over
Financial Reporting and on Compliance and Other Matters
Based on an Audit of Financial Statements Performed in
Accordance With *Government Auditing Standards***

To the Board of Education
Davenport Community School District
Davenport, Iowa

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*), the financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of Davenport Community School District (the District) as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the District’s basic financial statements and have issued our report thereon dated November 24, 2025.

Our report includes an emphasis of matter paragraph for the implementation of Governmental Accounting Standards Board Statement No. 101.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District’s internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District’s internal control. Accordingly, we do not express an opinion on the effectiveness of Davenport Community School District’s internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the District’s financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that have not been identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that is required to be reported under *Government Auditing Standards*.

We noted certain immaterial instances of noncompliance or other matters which are described in Part II of the accompanying Schedule of Findings and Responses.

Comments involving statutory and other legal matters about the District's operations for the year ended June 30, 2025 are based exclusively on knowledge obtained from procedures performed during our audit of the financial statements of the District. Since our audit was based on tests and samples, not all transactions that might have had an impact on the comments were necessarily audited. The comments involving statutory and other legal matters are not intended to constitute legal interpretations of those statutes.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Bohnsack & Frommelt LLP

Moline, Illinois
November 24, 2025

Davenport Community School District

**Schedule of Findings and Responses
Year Ended June 30, 2025**

Part I: Findings Related to the Basic Financial Statements

Internal control deficiencies:

None

Instances of noncompliance:

None

Part II: Other Findings Related to Statutory Reporting

II-A-25

Certified Budget- Expenditures for the year ended June 30, 2025 did not exceed the amounts budgeted.

II-B-25

Questionable Expenditures – No expenditures were noted that we believe may not meet the requirements of public purpose as defined in an Attorney General’s opinion dated April 25, 1979.

II-C-25

Travel Expense – No expenditures of District money for travel expenses of spouses of District officials or employees were noted. No travel advances to District officials or employees were noted.

II-D-25

Business Transactions – No business transactions between the District and District officials or employees were noted.

II-E-25

Restricted Donor Activity- No transactions were noted between the District, District officials or employees were noted.

II-F-25

Bond Coverage – Surety bond coverage of District officials and employees is in accordance with statutory provisions. The amount of coverage should be reviewed annually to insure that the coverage is adequate for current operations.

II-G-25

Board Minutes- No transactions requiring Board approval which had not been approved by the Board were noted except as follows:

II-H-25

Certified Enrollment –

Finding: The District identified variances in certified enrollment submitted to the state in October 2024.

Recommendation: We recommend the District review certified enrollment data for accuracy prior to submission to the state.

Response and Corrective Action Plan: The District will continue to review data prior to submission.

Conclusion: Response accepted.

(Continued)

Davenport Community School District

**Schedule of Findings and Responses
Year Ended June 30, 2025**

II-I-25

Supplementary Weighting – No variances regarding the supplementary weighting certified to the Iowa Department of Education were noted.

II-J-25

Deposits and Investments – No instances of non-compliance with the deposit and investment provision of Chapter 12B and Chapter 12C of the Code of Iowa and the District's investment policy were noted.

II-K-25

Certified Annual Report – The Certified Annual Report was certified to the Iowa Department of Education timely.

II-L-25

Categorical Funding – No instances were noted of categorical funding being used to supplant rather than supplement other funds.

II-M-25

Statewide Sales and Services Tax – No instances of noncompliance with the use of the statewide sales and services tax revenue provisions of Chapter 423F.3 of the Code of Iowa were noted.

Pursuant to Chapter 423F.5 of the Code of Iowa, the annual audit is required to include certain reporting elements related to the statewide sales and services tax revenue. Districts are required to include these reporting elements in the Certified Annual Report (CAR) submitted to the Iowa Department of Education. For the year ended June 30, 2025, the District reported the following information regarding the statewide sales and services tax revenue in the District's Statewide Sales, Services and Use Tax account of the Capital Projects Fund:

Beginning balance	\$ 49,064,928
Revenue / transfers in:	
Statewide sales and services tax revenue	18,234,760
