

COMMUNITY RELATIONS

Use of School Board Equipment

Equipment owned or under the care, custody, or control of the School Board shall not be loaned or rented to any individual or outside organization without the consent of the Superintendent or designee.

The Superintendent or designee may approve the loan or rental of School Board equipment only when: such actions will not interfere with the instructional program or the operations of the School Division; the requestor/user does not have reasonable access to other similar equipment; the equipment will not be used for commercial purposes; necessary to address an emergency, disaster or similar event; or when otherwise determined appropriate by the Superintendent or designee. All equipment to be loaned or rented shall be covered by an agreement whereby the requestor/user guarantees to return such equipment in the same or reasonably similar condition as when it was loaned or rented, and under such other terms and conditions as, in the judgment of the Superintendent or designee, are necessary to protect the School Board's interest and/or are required by law.
