- Accepts the report as fully compliant.
- Accepts the report as compliant with noted exceptions.
- Finds the district to be noncompliant.

Summary Statement/Motion of the Board

I really do appreciate all the things you do to communicate with the board, and especially 8.5 related to significant events that might make it into the media. Whether they do or don't, they're the issues that people will be talking about. If a parent contacts you, it's nice to be up to date on anything that might be hitting their waves as well. I really do appreciate those quick notes saying, hey, just so you know, this happened this morning at one of our schools.

It was moved by Ms. Preskey and seconded by Mrs. Peterson to accept the Monitoring Report for Operational Expectations Policy OE-8 *Communicating with the Board* as In Compliance. Motion carried.

Board President

Data Analysis

Indicators within OE-8 *Communicating with the Board* focus on the quality and effectiveness of communication between the Superintendent and the Board. Within the 16 indicators of compliance ranging from report compliance, keeping the Board informed, and the effectiveness of reporting Board results, all demonstrated compliance. Specifically, “Ensuring Board members received advance information about issues that received significant media attention” and “Being informed about the status of Board monitoring reports before the meeting,” were rated at 100% by Board members for this report.

OE-8 – Communicating with the Board
The Superintendent shall assure that the Board is fully and adequately informed about matters relating to Board work and significant district concern.
Interpretation: Communication is recognized as key to the School Board/superintendent success as a team. It is the superintendent’s responsibility for ensuring the board has information needed for the board to do its work. “Matters relating to the board’s work” means those issues such as strategic level work and/or operational issues which require board action that fall into the board’s area of responsibility for decision making. “Fully and adequately” means each board member receives enough information in a timely fashion to fulfill her or his responsibilities. While it is neither possible nor practical for the board to know everything about every matter and decision in the operation of the district, items of “significant district concern,” refers to the board’s expectation to be informed regarding operational level issues that represent significant change or are likely to prompt questions of board members from parents, staff, students, and other stakeholders. The superintendent is expected to judge in advance which of the myriad operational issues might come to the board’s attention yet because such hypothesis is fraught with uncertainty, the board’s expectations should center on the reasonable rather than the perfect, and the board holds joint responsibility for inquiring as needed.

Monitoring Report

The Superintendent Shall:

<p>8.1 Submit required monitoring data (see policy B/SR-5 Superintendent Accountability) in a thorough, accurate, and understandable fashion, according to the Board’s annual work plan schedule, and including both Superintendent interpretations and relevant data to substantiate compliance or reasonable progress.</p>	<p>In Compliance</p>
<p>Interpretation:</p> <ul style="list-style-type: none"> • Monitoring data shall mean evidence provided by the superintendent and her or his staff to support indicators of compliance and reasonable progress. • Annual work plan is the board’s calendar of reports. • Substantiate compliance or reasonable progress shall mean the determination of whether the superintendent/district has accomplished the measurable goals outlined in the OE and Results indicators.

<p>Evidence: All regular monitoring reports for Results and Operational Expectations were submitted to the Board for their review.</p>	

The Superintendent Shall:

The Superintendent Shall:

<p>8.5 Inform the Board of anticipated significant media coverage.</p>	<p>In Compliance</p>
<p>Interpretation: The Board should be the most informed laypersons in the community regarding the school district. The Superintendent works to alert the Board as soon as practicable about all important happenings in the district. While some happenings result in media coverage; others do not. However, when an event or issue appears likely to make the news, the superintendent will strive to err on the side of informing the board in the majority of cases where the board could say in hindsight that they needed more information.</p> <ul style="list-style-type: none"> • Anticipated shall mean reasonably predicted or probable. • Significant media coverage shall mean mainstream media reports, stories, or commentary that may appear in the <u>Bismarck Tribune</u> or major local television or radio news shows.

<p>8.6 Inform the Board, the Board President, or individual members if, in the Superintendent’s opinion, the Board or individual members have encroached into areas of responsibility assigned to the Superintendent or if the Board or its members are non-compliant with any Governance Culture or Board/Superintendent Relations policies.</p>	<p>In Compliance</p>
<p>Interpretation: The superintendent is tasked with and responsible for assisting the Board in the monitoring of GC and B/SR policies, and will provide input when he/she perceives significant non-compliance issues. The superintendent’s strategy when such issues occur will be to consult with the Board president and/or suggest policy revisions. In the event that the concern centers with the president, the superintendent will consult with the vice president. The role of the president/vice president should be to address the issue with the Board or individual Board member(s).</p> <ul style="list-style-type: none"> • Encroached into shall mean taking action, making requests of staff, or otherwise getting involved in the work of the superintendent/district as described by the CG policies or NDCC. • Non-compliant shall mean behavior or action that is contrary to the Board’s CG policies.

The Superintendent Shall:

<p>8.7 Present information in simple and concise form, indicating clearly whether the information is incidental, intended for decision preparation, or for formal monitoring.</p>	<p>In Compliance</p>
<p>Interpretation: Board members appreciate information in a format that simplifies, rather than complicates their decision making.</p> <ul style="list-style-type: none"> • Incidental information is meant to merely keep Board members in the loop or knowledgeable about the district. • Intended for decision preparation means information needed to inform a decision on an action item in either the consent or board action agenda. • Information for formal monitoring means the data or narrative in support of a decision regarding compliance with policies being monitored. 	

Indicator	Finding						
<p>Indicator 1: Aggregate data from an annual poll (December) of board members will indicate board members answer “yes” to the question, “Have you been presented information in a clear and concise form along with indication of whether the information is incidental, intended for decision making, or a product of formal monitoring?”</p>	<p>In Compliance</p>

The Superintendent Shall:

<p>8.8 Treat all members impartially and assure that all members have equal access to information.</p>	<p>In Compliance</p>
<p>Interpretation: All Board members need equal advantage relative to communication and information from the superintendent. The superintendent should view the Board as a body, and communicate with the entire body. However, this does not exclude incidental interactions with individual Board members, responses to questions, or sharing of requested information. If the superintendent judges that the question is one that other Board members might benefit from, he or she passes this information on by carbon copying all Board members, or by referencing the question and providing the information in a weekly update.</p> <ul style="list-style-type: none"> • Treat all members equally shall mean to communicate with every Board member in a professional and respectful manner necessary for each Board member to fulfill his or her CG responsibilities and Board-assigned duties. • Equal access to information shall mean that every Board member receive the same verbal and written communications regarding issues that are of a Board concern and upon which the Board makes decisions. The superintendent may communicate with the Board chair on preliminary work until the full Board receives the same information at a Board meeting or workshop. 	

Indicator	Finding

The Superintendent Shall:

<p>8.9 Inform the Board of any actual or anticipated noncompliance with any Board Operational Expectations policy or any anticipated failure to achieve reasonable progress toward any Results policy prior to the presentation of the monitoring report.</p>	<p>In Compliance</p>
<p>Interpretation: Board members need to be informed in advance of any likely non-compliance with any Operational Expectation and / or lack of reasonable progress on any Results policy.</p> <ul style="list-style-type: none"> • Prior to the presentation of the monitoring report shall mean no later than the date the agenda is relayed to the board. • Actual non-compliance or failure to achieve reasonable progress means the Board’s determination of failure to meet pre-identified indicators of compliance in Operational Expectations policies or reasonable progress in Results policies after the monitoring report presentation. • Anticipated non-compliance or failure to achieve reasonable progress means the superintendent’s determination from the data that compliance or reasonable progress is unlikely as demanded by the Operational Expectations or Results policies.

The Superintendent Shall:

<p>8.10 Provide for the Board adequate information about all administrative actions and decisions that are delegated to the Superintendent but required by law to be approved by the Board.</p>	<p>In Compliance</p>
<p>Interpretation: The board expects that the superintendent will monitor and advise the board regarding any policy changes or additions dictated by law. As legislation is passed that requires board approval of an administrative policy, the superintendent will bring the policy to the board for approval, after which it will be the responsibility of the administration to implement and monitor the policy.</p> <ul style="list-style-type: none"> • Adequate shall mean sufficient communication/information that allows the Board to fulfill its responsibilities under CG and NDCC. • Administrative actions and decisions shall mean the superintendent’s management of day-to-day-operations of the district and meeting of responsibilities as outlined in the OE policies. • Delegated to the superintendent shall mean specifically as assigned by the Board to the superintendent through CG polices, B/SRs, or administrative policy. 	

Indicator	Finding

<p>8.11 Inform the Board in a timely manner of the administrative disposition of complaints referred to the Superintendent by the Board.</p>	<p>In Compliance</p>
<ul style="list-style-type: none"> • Interpretation: The superintendent responds to each complaint directed his or her way in writing by the board with an explanation of how the complaint resolved through an update to the board. 	

Indicator	Finding
<p>Indicator 1: The superintendent shall maintain and share a running record of formal complaints, administrative disposition, and Board satisfaction of timeliness to be reviewed annually.</p>	<p>In Compliance</p>
<p>Evidence: The Superintendent has not received any written complaints from official board action.</p>	

The Superintendent Shall:

<p>8.12 Inform the Board in advance of any deletions of, additions to, or significant modifications of any instructional programs.</p>	<p>In Compliance</p>
<p>Interpretation: The instructional program is an element of the district’s day-to-day operation and typically not in the Board’s purview, yet the overall scope and depth of the instructional program may relate directly to the Results policies. Thus, the Board has an expectation that significant changes in the instructional program will be shared with the Board in advance of implementation. Examples of “significant” change include a change in the base materials, a change in the standards, or the elimination of a program. In addition, the Board approves new courses at the secondary level. Furthermore, as a part of the regular monitoring of the Desired Results Policies, Board members receive a thorough picture of the instructional program, including curricular materials and instructional strategies used.</p> <ul style="list-style-type: none"> • Deletions, additions, significant modifications shall mean changes that require considerable professional development or resources to implement. • Instructional programs shall mean the teaching practices.
