

REQUEST FOR PROPOSAL
Grandview School District
Network Switches

Addendum #1

This addendum is hereby incorporated into the bidding documents for Grandview School District RFP for Network Switches bidding February 4, 2026, at 11:15 a.m. The corrections, clarifications, changes and approvals herein shall become an integral and binding part of the contract entered between the District and the Supplier.

Section 1: INTRODUCTION (pg.13)

ADD:

Alternative Network Design Proposals

Vendors may propose alternative network designs or architectures that differ from the specifications outlined in this Request for Proposals (RFP), provided that such alternatives meet or exceed the District's functional, performance, scalability, security, and reliability requirements.

Any proposed alternative design must be clearly identified. Vendors are required to provide detailed written justification for each alternative, including, at a minimum:

- A clear description of how the alternative design meets or exceeds the intent of the stated requirements
- Technical rational and architectural diagrams, as applicable
- Identification of any deviations from the base specifications
- An explanation of the operational, performance, security, or cost benefits to the District
- Any potential risks or tradeoffs associated with the alternative design

The District reserves the right, at its sole discretion, to accept or reject any alternative design proposal. Failure to adequately justify an alternative design may result in the proposal being deemed non-responsive.

MODIFICATION :

Section 4: SOLUTION REQUIREMENTS (pg.14)

4.1 Switch Hardware

Core

-Minimum ASIC: UADP 3.0 or equivalent
