General Monitoring of School-Issued Devices:

The Keystone Local School District, either directly or through a technology provider, is electing to generally monitor all school-issued devices (as that term is defined by R.C. 3319.325). The monitoring will include the following features: location tracking and student interactions with school-issued devices (e.g., keystrokes and web-browsing activity). The Keystone Local School District generally monitors these features for the noncommercial education purpose of instruction, technical support, and/or exam proctoring.

Additionally, these features are generally monitored as a necessary precaution for preventing and/or responding to health concerns, and threats to life or safety. The Keystone Local School District uses Blocks i as a monitoring filter.

Sincerely,
Zach Weagley
Superintendent
