

KEYSTONE LOCAL SCHOOL DISTRICT

Food Services Department

Policy Update for Children with Food Allergies or Intolerance

Keystone Families,

Per the USDA guidelines, Keystone Local School District has elected to provide Lactaid, a nutritionally comparable milk substitute, to accommodate children with allergies or intolerances. This offering is made to students who have a documented allergy and who have submitted a physician's note to the school nurse or Food Service Supervisor. If you are unsure if your child qualifies for this food allergy/intolerance, please contact the Food Services Supervisor, Jody White at (440)355-2389 or jody.white@keystoneschools.org.

If your child has any food related allergies that you would like to discuss please reach out to Jody White as soon as possible. The school nurse, Food Service Supervisor, Head Cook and your child's teacher can all discuss the best plan for your child. You will need to bring the physician's documentation and substitution list if applicable.

Sincerely,

Jody White

Keystone Food Service Supervisor
