AP School Honor Roll

The AP School Honor Roll recognizes schools whose AP programs produce high results for students while broadening participation. Schools can earn this recognition annually based on criteria that reflect a commitment to increasing college-going culture, providing opportunities for students to earn college credit, and maximizing college readiness. The AP School Honor Roll offers four levels of distinction: Bronze, Silver, Gold, and Platinum. We are proud to announce that Liberty High School has achieved Gold Honor Roll Status by College Board.

Seventy-one percent of Liberty High School's Class of 2025 graduates took at least one AP Exam during high school. Fifty-one percent of seniors scored 3 or higher on at least one AP Exam, and 20% of seniors took five or more AP Exams! Liberty offers 25 AP courses, including 47 separate sections taught by 19 different teachers.

College Board's Advanced Placement® Program (AP®) enables students to pursue college-level studies—with the opportunity to earn college credit, advanced placement, or both—while still in high school. Through AP courses in 40 subjects, each culminating in a challenging exam, students learn to think critically, construct solid arguments, and see many sides of an issue—skills that prepare them for college and beyond. Taking AP courses demonstrates to college admissions officers that students have sought the most challenging curriculum available to them, and research indicates that students who score a 3 or higher on an AP Exam typically experience greater academic success in college and are more likely to earn a college degree than non-AP students. We are extremely proud of the accomplishments of our AP students and will continue to provide students with the opportunity to excel in these rigorous courses this year and in the coming years.
