Annual Notification of Asbestos Management Plan Availability

Somers Central School District
25/26 School Year

September 1, 2025

Annual Asbestos Notification

In accordance with the Federal Environmental Protection Agency's (EPA) Asbestos Hazard Emergency Response Act (AHERA) of 1987 (40CFR Part 763), this notice is to inform parents, guardians, staff, and building occupants that the School District maintains an Asbestos Management Plan (AMP) for each school building.

The Asbestos Management Plan documents the District's efforts to identify, manage, and minimize the risk of exposure to asbestos-containing materials (ACM) in school facilities.

The AMP includes:

- The location and condition of known or assumed asbestos-containing materials (ACM)
- Required inspections and periodic re-inspections
- Ongoing operations and maintenance (O&M) procedures
- Response actions taken or planned to prevent asbestos exposure

Any asbestos-related response actions taken or planned are documented in the District's Asbestos Management Plan, which is available for review at Somers Intermediate School District, Facilities Department, 240 Route 202, Somers, NY 10589. Members of the public may review the plans by scheduling an appointment at the Facilities office, Somers Intermediate School, 240 Route 202 Somers, NY 10589.

Questions regarding the Asbestos Management Plan may be directed to Chris McCartney, Director of Facilities III, who serves as the District's AHERA Designated Person, by phone at (914) 277-2441 or by email at cmccartney@somersschools.org
