PROJECT PROGRESS REPORT

December 2025 Update

Preliminary Rendering of Urban on the New West Entry

WHAT'S NEW?

Over the past month, phasing and constructability during the school year(s) have been the main topic of conversation. These discussions are critical as the design nears completion, ensuring engineering drawings accurately reflect how construction can proceed while school is in

session. Phasing at the Farnsworth site is relatively straightforward; however, Urban Middle School presents additional complexity due to portions of the existing building being removed and added on.

PLANNING & DESIGN UPDATE

At both Farnsworth and Urban Middle Schools, the design teams are now concentrating on developing fully constructible details, whether integrating new construction at Farnsworth or carefully working within the existing structure at Urban.

The bidding schedule has been adjusted so that Urban Middle School is bid first, allowing the market to respond before Farnsworth Middle School follows about one month later. While phasing discussions remain ongoing, the anticipated timeline calls for construction at Farnsworth to begin in June 2026. At Urban, some site demolition may begin in the spring, though the majority of construction activity is also expected to start in June 2026. Additional information regarding phasing and scheduling will be shared with families in the months ahead.

Preliminary Rendering of Farnsworth Middle School Exterior Main Entry

NEXT STEPS

- Continued engineering coordination
- Ongoing construction phasing discussions
- Submission of City of Sheboygan Conditional Use Permit and Site Plan Review applications
