WEEK 4 - June 15-19: SCIENCE / STEM

STEM is a great way to learn about Science, Technology, Engineering and Mathematics in a fun way. Through hands on learning, campers will work on problem solving, critical thinking and creativity both as individuals as well as working in groups.

WEEK 5- June 22- June 26: BOARD GAMES

Games give kids the opportunity to have fun and learn that games have rules that need to be followed as well as giving them a chance to learn that sometimes they win and sometimes they don't. Learning how to loose gracefully and trying again is an important life skill we will practice with board games, paper games and gym games.

WEEK 6 - June 29 - July 3: UN-VIDEO GAMES

Based on kids video games, without the digital component, we will have some non-electronics fun with Pokemon, Minecraft, Sonic and Mario activities.
