Central PA
Health Care Quality Unit

What is the Health Care Quality Unit (HCQU)

The HCQU provides healthcare management services for adults with intellectual and developmental disabilities (IDD) across 13 counties in central Pennsylvania.

Our goal is to help those living in the communities, regardless of ability, to be as healthy as possible, and participate in community life.

The HCQU provides free health-related trainings to caregivers and individuals focusing on improving individual outcomes and enhancing physical and behavioral health.

What we Offer

- **Training and Resources** to support individuals and caregivers by promoting safe and healthy lifestyles.
- **Technical assistance** such as conducting record, medication, and fall risk reviews, or finding community resources, and more.
- **Free online courses** on our website that allow you to receive credit towards your annual human services training requirement.
