## 5. Adding Priorities

As you add elective courses, you can add a priority number to indicate the course's importance to you. This allows schedulers to know which class to schedule you for in case of a conflict.

### To add a priority:

- Find the **Priority** column to the far right of the course you are selecting.
- Click and type in a number to indicate your priority.
  - Lower numbers = higher priorities
  - Seniors must use Priority 1 for their English course.
  - Use priority 2 or lower for all other courses.
  - **Any course incorrectly prioritized at 1 will have its priority removed.**
- Click **OK** to save.
- Repeat for each course request you make, but do not use the same priority number twice.

The screenshot shows a table with columns: Select, CourseNumber, CourseDescription, Number, Description, Academic level, Credit, Academic Hours, Prerequisite, Status, and Priority. The Priority column is circled in red. The first row is selected (checkbox checked) and has a priority of 0. The second row has a priority of 0.

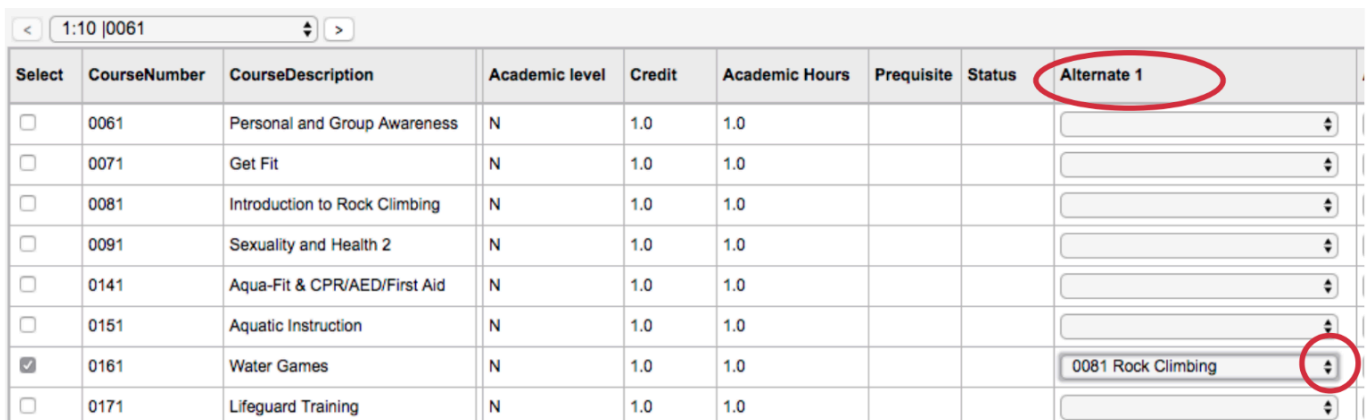

Select	CourseNumber	CourseDescription	Number	Description	Academic level	Credit	Academic Hours	Prerequisite	Status	Priority
<input checked="" type="checkbox"/>	7151	Photography Minor 1	7151	Photography Minor 1	N	1.25	1.0			0
<input type="checkbox"/>	7011	Art Minor 1	7011	Art Minor 1	N	2.5	2.0			0

## 6. Adding Direct Alternates

**You must have two direct alternates for every course you select.**

A direct alternate is a course that can be used as a substitute in your schedule if the original class that you have linked it to is not available.

You will be able to add a direct alternate for a class if you see a column labeled **Alternate 1** next to the course you requested in the previous step.

The screenshot shows a table with columns: Select, CourseNumber, CourseDescription, Academic level, Credit, Academic Hours, Prerequisite, Status, and Alternate 1. The Alternate 1 column is circled in red. The first row is selected (checkbox checked) and has '0081 Rock Climbing' in the Alternate 1 column. The other rows have empty Alternate 1 columns.

Select	CourseNumber	CourseDescription	Academic level	Credit	Academic Hours	Prerequisite	Status	Alternate 1
<input type="checkbox"/>	0061	Personal and Group Awareness	N	1.0	1.0			
<input type="checkbox"/>	0071	Get Fit	N	1.0	1.0			
<input type="checkbox"/>	0081	Introduction to Rock Climbing	N	1.0	1.0			
<input type="checkbox"/>	0091	Sexuality and Health 2	N	1.0	1.0			
<input type="checkbox"/>	0141	Aqua-Fit & CPR/AED/First Aid	N	1.0	1.0			
<input type="checkbox"/>	0151	Aquatic Instruction	N	1.0	1.0			
<input checked="" type="checkbox"/>	0161	Water Games	N	1.0	1.0			0081 Rock Climbing
<input type="checkbox"/>	0171	Lifeguard Training	N	1.0	1.0			

### To add a direct alternate:

- Next to the course that you are requesting, click the arrows to view drop down menu of courses in the **Alternate 1** column.
- Choose the class that you would like as an alternate for your original course request.
- You may choose to add a 2nd and 3rd direct alternate for your original course request.
- Click **OK** to save your choices.

## 7. Adding General Alternates

A general alternate class can be used as a substitute to any of your original class requests if needed.

To add a general alternate:

- Look for the table labeled **Alternate requests**
- Click on **Select...**

Alternate requests									
	Subject area	SchoolCourse > CrsNo	SchoolCourse > Description	SecType	Alternate?	Priority	Alt 1 > CrsNo	Alt 2 > CrsNo	Credit
	Alternates								

- Choose the course(s) that you would like as general alternates by checking the check box. Remember that you can navigate to other pages by using the right and left arrows.
- Prioritize your general alternates. These priorities are different from the priorities that you assigned to your course requests. Put a 1 in the **Priority** column next to the alternate that you would prefer, 2 next to your second choice and 3 next to your third choice.
