

TSIA Sign up Process and Intervention Expectations

2025-2026

There are two ways to sign up for a TSIA test.

Option 1: Sign up for testing during school

Students may sign up for TSIA testing during the school day using the form posted around the school. The form asks students the following questions:

- How did you prepare for the exam (after school tutorials, IXL, [practic.accuplacer.org](https://www.practic.accuplacer.org), etc.)?
- Are there dual credit classes we need to schedule around?
- Have you completed the PAA (have to submit the certificate)?
- Are there any accommodations we need to verify?

Testing is available most every week in the Fall. In the Spring, it's limited to the last Wednesday and Thursday of every month.

Option 2: Testing with a administrator-selected group

Taking a TSIA test this way traditionally happens when an entire course needs to test (English II for TSIA ELAR; Algebra II for TSIA Math) or when the school/district administration would like to test a group (ex. students who scored Meets or Masters on English I STAAR may be selected to take the TSIA English test). This form of testing occurs throughout the semester at the determination of the school administration.
