2024-2025 School Accountability Report Card (Published During the 2025-2026 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

Admission Requirements for the University of California (UC)	Admission requirements for the UC follow guidelines set forth in the Master Plan, which requires that the top one-eighth of the state's high school graduates, as well as those transfer students who have successfully completed specified college course work, be eligible for admission to the UC. These requirements are designed to ensure that all eligible students are adequately prepared for University-level work. For general admissions requirements, please visit the UC Admissions Information website at https://admission.universityofcalifornia.edu/ .
Admission Requirements for the California State University (CSU)	Eligibility for admission to the CSU is determined by three factors: (1) Specific high school courses, (2) Grades in specified courses and test scores, and (3) Graduation from high school. Some campuses have higher standards for particular majors or students who live outside the local campus area. Because of the number of students who apply, a few campuses have higher standards (supplementary admission criteria) for all applicants. Most CSU campuses have local admission guarantee policies for students who graduate or transfer from high schools and colleges that are historically served by a CSU campus in that region. For admission, application, and fee information, see the CSU website at https://www2.calstate.edu/ .

2025-26 School Description and Mission Statement

Glen Edwards Middle School (GEMS) is one of two middle schools within the Western Placer Unified School District boundaries, serving approximately 840 students, grades sixth through eighth. Glen Edwards is located in the city of Lincoln, a changing semi-rural community situated in Placer County at the base of the Sierra Nevada Mountains. Students are our number one priority and our staff is dedicated to the shared mission of creating a respectful, success-oriented, cooperative community that challenges all students to develop a curiosity for learning and to pursue academic excellence. In addition to a robust core academic program, Glen Edwards is proud of the excellent electives we offer our students. Students have the opportunity to participate in Art, Broadcasting, Yearbook, Journalism, Music/Band, Digital Audio, Movies & Novels, AVID, Leadership, Drama, Sports Literature and Ceramics. Glen Edwards completed campus renovations in 2021 which provided

2025-26 School Description and Mission Statement

state-of-the-art classrooms, a new gymnasium, and a new administration office.

This year our teachers are working very hard to meet the social-emotional needs of our students. In addition, we have set up supports such as After School Tutoring, before-school designated Math and ELA tutoring to support academics, and a Wellness Center to support our social-emotional needs. All Glen Edwards Middle School students can access these various supports as needed. Teachers have also implemented these supports as part of our learning model. Additionally students can be involved in after school athletics or clubs.

The mission statement for Glen Edwards: Glen Edwards Middle School (GEMS) exists to create a positive environment of high expectations that provides opportunities for all to grow academically, emotionally, and socially.

A. Conditions of Learning **State Priority: Basic**

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

College and Career Ready

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

ELA and mathematics test results include the Smarter Balanced Summative Assessments and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

Subject	School 2023-24	School 2024-25	District 2023-24	District 2024-25	State 2023-24	State 2024-25

2024-25 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus

the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

CAASPP Test Results in Science for All Students

This table displays the percentage of all students grades five, eight, and High School meeting or exceeding the State Standard.

Science test results include the CAST and the CAA for Science. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the CAST plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA for Science divided by the total number of students who participated in a science assessment.

B. Pupil Outcomes

State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

2024-25 California Physical Fitness Test Participation Rates

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. The administration of the PFT requires only participation results for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2025-26 Opportunities for Parental Involvement

Parents and family members are strongly encouraged to actively participate in various aspects of school life. There are multiple avenues for involvement, such as engaging with the School Site Council (SSC), English Language Advisory Committee (ELAC), and the Association of Parents, Teachers, and Students (APTS). Additionally, opportunities include volunteering in different classrooms/programs, attending classroom visitations, participating in parent information nights and events, and contributing to fundraising efforts for specific programs.

In our ongoing efforts to enhance parental engagement, we are developing opportunities for parents to visit the school after hours. This initiative aims to provide parents with insights into their child's learning experience and offer hands-on activities for them to enjoy together. For instance, this academic year, we will host numerous parent informational nights on different topics to support their student and themselves.

2025-26 School Safety Plan

Component I: School Culture/Climate

Goal:
Create a positive, productive and professional environment amongst students and staff through the use of Positive Behavior Interventions and Supports (PBIS).

Objectives:
Continue to increase consistency among staff related to discipline, and procedures; thus, reducing the amount of time students are out of the classroom (missing instruction) for discipline/consequences.
Continue to increase courtesy and mutual respect among our students and staff.
Continue to increase student ownership and pride of their environment and behavior.
Continue to increase staff ownership and pride of their environment.
Continue to hold SST meetings and establish tier-two intervention plans for students who are struggling academically.

Component II: Physical Environment

Goal:
To create and foster a positive, safe, and caring learning environment in which all students can feel safe and experience success.

Objectives:
Evaluate the overall safety of the physical structure and prioritize the list for necessary improvements.
Continue looking for more ways to minimize unsafe actions and injuries on campus during all times of the day.
Increase student interest in campus cleanliness: promote recycling, litter removal, and restroom maintenance.
Increase student involvement/participation in campus safety.
Continue to add security cameras (based on the availability of funds).

Completion Date and Budget:
12 additional cameras installed throughout campus for 23/24 school year. Budget: Safety money, Site Plan, and District level facilities

Resources Needed:
Additional cameras

Evaluation of the Objective:
Evaluation will be monitored for compliance as needed
We have identified our areas of need and will be looking to add more cameras.

Fiscal Year 2024-25 Types of Services Funded

We take great pride in the ongoing professional development opportunities we provide for our staff. Every Monday, our staff has the chance to collaborate within their Peer Learning Committees (PLC teams). On these designated PLC Mondays, we offer specialized training sessions to support teachers, including Co-teacher training. To ensure accessibility, we compensate teachers for staying later or working during their prep periods to engage in professional development.

Fiscal Year 2024-25 Types of Services Funded

Furthermore, we allocate resources to fund substitute teachers, allowing for professional development sessions during regular school hours. These sessions cover essential areas such as AVID, ELD training, and collaborative curriculum planning for Math, English Language Arts, and Science departments. Conducted throughout the school year, these full-day trainings involve a comprehensive review of academic data and discussions on enhancing instructional practices.

In line with our commitment to continuous improvement, we encourage our teachers to attend conferences and seek professional development opportunities beyond the district (WPUSD). This approach contributes to the enrichment of their teaching practices and overall professional growth.

Professional Development

Western Placer Unified School District initiates a District Staff Development day at the commencement of each school year. Furthermore, numerous opportunities exist for staff to earn development credits, both during regular school hours and after-hours for Staff Development Buyback credit. In the summer, teachers and administrators have actively participated in AVID training, with the strategies acquired being implemented throughout the school year.

Attendance at various events includes the California Association of Student Body Officers, the California Association of Bilingual Educators training, and the National Science Teacher Association conference. English and Math teachers participated in two one-day training sessions to discuss essential standards for the remainder of the academic year. They also analyze ALEKS and iReady data to assess student progress against these standards.

The Placer County Office of Education provides professional development in Common Core strategies for core subjects, attended by our teachers. The PBIS Committee engages in continuous PBIS training offered through PCOE. Administrators undergo Solution Tree Training, Crisis Response Training, and an EL Roadmap training from Educational Services. The administration actively participates in multiple Solution Tree trainings surrounding Professional Learning Communities (PLCs) and collaborates individually with coaches to mentor and implement policies at the site.

Administration and Special Education staff jointly attended a co-teaching conference to enhance understanding and implementation of the co-teaching model. District-wide, there is ongoing training and implementation of the Youth Development Institute (YDI) program. The administration attended updates on Student Discipline, Special Education Discipline, Expulsions and readmissions, and Title IX by Dora Dome Law.

Professional Development

Counselors engage in professional development through the California Association of School Counselors (CASC) conferences, covering training in College to Career programs, data-informed school counseling programming, and Social-Emotional Learning (SEL) development and implementation. They also attended California Student Aid Commission Training for financial aid.

Various teachers attend AVID Training throughout the school year and integrate those teaching practices into their classrooms. The administration and the Student Leadership teacher attended The California Activities Director Association conference (CADA). The ELD teacher received district Guided Language Acquisition and Design (GLAD) training, along with a full eight-day training by GLAD. Additionally, the ELD teacher regularly meets with the district ELD TOSA for continued coaching and strategy implementation.

In addition, the district is actively working to support PLC's across our campus. This includes administration being trained in the leading and coaching of PLC's. The development of a Guaranteed and Viable Curriculum, common assessments, and data collection to monitor and meet the needs of all learners. Solution tree has worked directly with our PLC's to support the development and learning across our campus.
