

NTI

Day 4

4th grade NTI Day 4 Kentucky Academic Standards

Reading RI.4.10 By the end of the year, flexibly use a variety of comprehension strategies (i.e., questioning, monitoring, visualizing, inferencing, summarizing, synthesizing, using prior knowledge, determining importance) to read, comprehend and analyze grade-level appropriate, complex informational texts independently and proficiently.

Math KY.4.NBT.4 Fluently add and subtract multi-digit whole numbers using an algorithm.

4th grade Reading Day 4

1. Look at these details from a paragraph about the same topic:
 - To train for a race, sled dogs run for many hours each day.
 - Sled dogs practice pulling a heavy sled so they get used to the weight.
 - Sled dogs also practice running on different kinds of ground.

Choose the main, or central, idea that ties all the details together.

Pulling a sled is an important part of sled-dog training.

Dog sled races can take up to two weeks to complete.

Sled dogs work hard to prepare for a race.

2. Look at these details from a paragraph about the same topic:

- Seven is thought of as a lucky number in many countries.
- Some people think their birth date is a lucky number.
- To some people, a favorite athlete's shirt number can be lucky.

Choose the main, or central, idea that ties all the details together.

Some people think certain numbers bring good luck.

Some people think seven is a lucky number.

Some people think that finding a four-leaf clover is good luck.

3. Look at these details from a paragraph about the same topic:

- Chickpeas are used in Greek salads and wraps.
- A soup known as *revithada* is a popular Greek dish made of baked chickpeas.
- Chickpea fritters are a popular Greek dish.

Choose the main, or central, idea that ties all the details together.

Feta cheese is used in many Greek dishes.

Chickpeas are common in Greek foods.

A popular Greek soup is made with chickpeas.

Subtract within 10,000.
