Dear Parent/Carer,

Unfortunately, we have identified the need to temporarily close the student toilets in the Main Block. This measure is being taken as a health and safety measure. During a routine inspection, mould was identified in the student toilet facilities in the Main Block. Temporary toilet facilities are being brought on site, before school tomorrow, to replace the toilets which are closed. We will allow additional time for breaktime tomorrow so that students can familiarise themselves with the new facilities. Toilets in other blocks, including single use cubicles are in use as normal.

It will take several weeks to identify the specific type of mould and determine the appropriate remedial actions. In the meantime, we have arranged for temporary toilet facilities to remain on-site so that students continue to have access to safe and hygienic amenities.

We will keep you updated as soon as we have more information and a timeline for reopening the permanent facilities. Thank you for your understanding and support as we prioritise the safety of our school community.

Yours sincerely

Miss Mason  
Headteacher
