****Possible 45+ college credit hours available**

Career Tech Ed @ GHS

Bulldog Business Academy

* Marketing and Business Management

- Two year program (can earn 12 college credits through Stark State)
- Provides students opportunities to gain valuable experience through a variety of hands on activities and courses.
- Skills developed revolve around leadership, teamwork, responsibility and communication.
- Students in the program will eventually run and operate an actual business from within the school. This business will sell to students, staff, and community members.

Career Tech Ed @ GHS

GHS Teacher Academy

- Two year program with opportunities to earn college credits.
- Students explore the foundations of teaching and learning through coursework in educational psychology, instructional strategies, classroom management, child and adolescent development, and equity in education.
- The program emphasizes both theory and practical application, allowing students to develop communication, leadership, collaboration, and problem-solving skills essential for success in educational careers.
- Through hands-on learning experiences, including classroom observations, peer teaching, lesson design, and supervised field experiences, students gain authentic exposure to the teaching profession.
- Participants may intern with elementary, middle, or high school classrooms, as well as early childhood or special education settings.
