

PIERCE SCHOOL WEEKLY UPDATE, 01/16/26

THIS WEEK (January 12-16)

- Geothermal drilling/grouting ongoing
- Steel detailing Bldg B
- Concrete pour, Level 3 Building A
- Ext. foundation work ongoing at Historic Bldg
- Underground (UG) elect. conduit install ongoing
- UG plumbing ongoing Bldg A, Hist. Bldg

PROJECT TRACKING:

- Slab on Deck: 60%

ANTICIPATING NEXT WEEK (January 19-23)

- Complete steel detailing at Bldg B
- Pour slab on deck (SOD) L2 courtyard, Bldg A
- Continue with foundation work, Hist. Bldg
- MEP underground work in garage ongoing
- Geothermal well drilling/grouting continues

MILESTONES:

- Drill geothermal wells: 12/15/25 – 02/13/26
- Slab On Deck Bldg A: 12/22/25 – 03/16/26
- Slab On Deck Bldg B: 02/11/26 – 04/07/26

Narrative:

In Pierce Park, geothermal well drilling and grouting was ongoing, with approximately 24 of the 80 wells drilled. Water management for this operation is steady, and another round of water sampling will occur as scheduled.

Other sitework: backfilling along Building B in two locations, one at the SOE close to the Historic Building, and also at the perimeter drainage along 15 line under the Green Ramp. The site team also continues to support the underground plumbing and electrical conduit installation in the garage, which had successful inspections this week. Much of that pipe and conduit is now being backfilled. There has also been prep at the back of the Historic Building for the new foundation wall and underground drainage.

The concrete team hit another major milestone this week with concrete placements on L3 of Building A. L2 is complete except for the courtyard which is scheduled for next week. This team is currently working at the Historic Building, preparing for a concrete pour along the front foundation, for future waterproofing.

Steel detailing at Building B will be completed next week with concrete prep and MEP work to follow. Tarping of Building B is anticipated to begin next week as well.
