PROGRAM OVERVIEW

The Central Office Leaders Program is a two-year leadership development program designed to support and develop high-impact central office leaders who advance district priorities, strengthen school support systems, and drive equitable outcomes for all students.

Year 1: Foundations of Central Office Leadership

Year 1 supports leaders who are new to central office roles or transitioning into expanded leadership responsibilities. Participants engage in targeted professional development with an emphasis placed on aligning work with district philosophies and practices including the LBUSD leadership domains and the Adult Portrait elements.

Year 2: Strategic Systems Leadership

Year 2 deepens leadership capacity with a focus on strategic influence, systems alignment, and sustained impact. Participants engage in advanced professional development designed to strengthen their ability to lead district initiatives and drive continuous improvement. Learning centers on strategic planning, initiative coherence, data-informed decision-making, and the ability to coach, influence, and collaborate across roles and departments in service of excellence and equity.

In addition, the Central Office Leaders Program embeds a clear administrative credential pathway for participants who need to clear their preliminary administrative credential.
