<b>Mid March 2026</b>	Official notification of acceptance or waitlist status will be generated, and students and parents/guardians will be notified.

Phase I:

At the end of grade 9, students interested in taking *Health Professions I: Introduction to Health Professions* will:

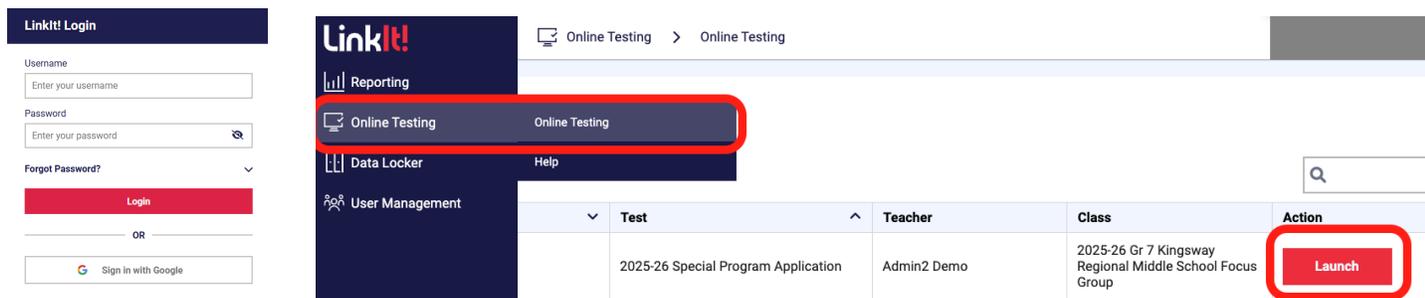

1. \*Submit interest via a Google Form (sent to the students at the end of January) - [Interest Form](#) for students interested in taking the course in September 2025
2. Choose the course as a 10th-grade elective
3. Meet with the school counselor during the scheduling process and be scheduled for the course. If scheduling conflicts occur, the school counselor will reach out to the student so that he or she may decide if he or she is still interested in the course.

\*This is not an official application process for the School of Health Professions but rather a chance to gauge student interest and use it as a conversation point during the scheduling process. The official application process occurs during Phase II and is outlined below.

### Phase II:

Toward the end of Semester I of *Health Professions I: Introduction to Health Professions* (during their 10th-grade year), students interested in officially entering the *School of Health Professions* will complete an admissions process to continue into Phase II of the program in their junior/senior year. This admissions process will take into account multiple measures including:

- **Online application** | Complete the application form and indicate two teacher names for recommendations [via Kingsway LinkIt! Student Portal \(linked here\)](#).
  - ❑ Click Sign in with Google to log in with your Kingsway Google Credentials.
  - ❑ Click Online Testing, then click the Red Launch button next to 25-26 Special Programs Application. See image below.

- **Teacher recommendations (two)**
  - Students are responsible for requesting two teacher recommendations. Students must inform teachers of the program for which they are applying.
  - Directions will be provided to Kingsway teachers on how to submit special program recommendations via the Kingsway LinkIt! Portal.
  - If necessary, the committee will follow up with the teachers to ensure recommendations are completed; the student is not penalized for late recommendations.
- Interview - A sign-up spreadsheet will be shared after the application deadline.

Please note: Performance in students' current Health Professions course as well as behavior and attendance may also be considered for entry into the program. Phase II also requires that students remain in good standing throughout (academics, behavior, attendance) so that they may successfully transition into *Health Professions III: Seminar and Practicum* during their senior year.
