2024-2025 School Accountability Report Card

(Published During the 2025-2026 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

Admission Requirements for the University of California (UC)

Admission requirements for the UC follow guidelines set forth in the Master Plan, which requires that the top one-eighth of the state's high school graduates, as well as those transfer students who have successfully completed specified college course work, be eligible for admission to the UC. These requirements are designed to ensure that all eligible students are adequately prepared for University-level work. For general admissions requirements, please visit the UC Admissions Information website at <https://admission.universityofcalifornia.edu/>.

Admission Requirements for the California State University (CSU)

Eligibility for admission to the CSU is determined by three factors: (1) Specific high school courses, (2) Grades in specified courses and test scores, and (3) Graduation from high school. Some campuses have higher standards for particular majors or students who live outside the local campus area. Because of the number of students who apply, a few campuses have higher standards (supplementary admission criteria) for all applicants. Most CSU campuses have local admission guarantee policies for students who graduate or transfer from high schools and colleges that are historically served by a CSU campus in that region. For admission, application, and fee information, see the CSU website at <https://www2.calstate.edu/>.

2025-26 School Description and Mission Statement

The Lucile Packard Children's Hospital School Program is a unique collaboration between the Palo Alto Unified School District (PAUSD) and Lucile Packard Children's Hospital (LPCH), serving hospitalized children since 1924. The program ensures that critically and chronically ill students continue to receive high-quality instruction during hospitalization, combining core academics with enrichment opportunities such as art and music.

The program also includes a classroom at the Ronald McDonald House (RMH), providing additional support for students with medical needs who are unable to attend their traditional schools. Hospital School teachers work closely with students' home schools to maintain curriculum continuity, facilitate school re-entry, and provide transcripts or progress reports as needed,

A. Conditions of Learning

State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair.

Note: The data in this table is based on full-time equivalent (FTE) status. One FTE equals one staff member working full-time; one FTE could also represent two staff members who each work 50 percent of full-time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

School Facility Conditions and Planned Improvements				
The Hospital School is located within facilities managed and maintained by Lucile Packard Children’s Hospital (LPCH) and Ronald McDonald House (RMH). Both organizations uphold high standards for cleanliness, safety, and functionality to ensure a supportive and health-conscious environment for students receiving instruction during hospitalization or extended care stays. Because the Hospital School operates within these healthcare facilities, all building maintenance, custodial services, and safety inspections are conducted by LPCH and RMH facility management teams. Repairs or maintenance needs can be communicated and addressed promptly through established hospital protocols, ensuring that instructional spaces remain safe, clean, and in good working order. Based on the most recent review and ongoing facility oversight, the Hospital School is in good condition, with all essential systems functioning properly and no deficiencies noted that would impact the safety or learning environment of students.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

College and Career Ready

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

ELA and mathematics test results include the Smarter Balanced Summative Assessments and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

2024-25 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

2024-25 California Physical Fitness Test Participation Rates

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. The administration of the PFT requires only participation results for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2025-26 Opportunities for Parental Involvement

Due to the Hospital School's unique setting, most parents are focused on the medical care and recovery of their children and are not typically able to participate in traditional school-based activities. As a result, the school does not have a Parent Teacher Association (PTA) or formalized protocols for parent involvement in school events.

Parents are kept informed of their child's educational progress through regular communication with Hospital School teachers, including updates on assignments, academic progress, and individualized support plans. Teachers work closely with parents and caregivers to address any questions or concerns and to ensure continuity of learning during hospitalization or treatment.

For parents or community members interested in broader engagement, volunteer opportunities supporting the Hospital School are available through Lucile Packard Children's Hospital (LPCH). Interested individuals may learn more and apply by visiting the LPCH volunteer website: <https://www.stanfordchildrens.org/en/volunteer/prospective.html>.

C. Engagement

State Priority: Pupil Engagement

The SARC provides the following information relevant to the State priority: Pupil Engagement (Priority 5):

- High school Graduation Rates; and
- Chronic Absenteeism

2025-26 School Safety Plan

The Hospital School follows the comprehensive safety protocols established and maintained by Lucile Packard Children’s Hospital (LPCH) and Ronald McDonald House (RMH). All emergency procedures, including evacuation, lockdown, and medical emergency response, are directed by hospital staff and integrated into the school’s operations.

School staff are trained to adhere to these protocols to ensure the safety of students and staff at all times. Because the school operates entirely within hospital-managed facilities, safety procedures are continuously monitored and maintained by LPCH and RMH personnel, ensuring a secure and health-conscious learning environment.

Key elements of these protocols include emergency preparedness, crisis response, staff safety training, and maintaining a safe and supportive environment for students receiving medical care. The Hospital School’s role is to implement these measures consistently, supporting hospital safety standards while delivering educational services.

Fiscal Year 2024-25 Types of Services Funded

The Hospital School receives funding through a combination of district, state, and federal sources, as well as direct support from Lucile Packard Children’s Hospital (LPCH). Funding from LPCH helps sustain the educational program within the hospital setting by supporting staffing, instructional materials, and technology that enable continuity of education for students receiving medical care.

The District also relies on federal categorical funding under Title I, Title II, Title III, and Title IV of the Every Student Succeeds Act (ESSA). These funds are used to close educational gaps, provide professional development, and enhance instructional resources across the district, including at the Hospital School. Examples include the use of Title funds for instructional materials, support for English learners, and access to professional learning opportunities for teachers.

Because of its unique setting and fluctuating student population, the Hospital School’s funding priorities focus on individualized instruction, coordination with home districts, and the integration of hospital and school supports to maintain academic progress during hospitalization.

Fiscal Year 2024-25 Types of Services Funded

For a detailed description of how categorical funds are used districtwide, refer to the Local Control and Accountability Plan (LCAP) webpage: <https://www.pausd.org/about-us/lcap>.
