

High School Vendor Presentation Questions

	McGraw Hill- Reveal	SAVVAS- enVision+
Is the curriculum flexible/adaptable (can we swap chapter order without affecting elements within the curriculum)?		
Do you have any evidence/feedback of this product used with students in the classroom? Have they shown growth/interest?		
Is there a lockdown browser for assessments and homework? Does it require an app to be installed on our district computers?		
Are lesson power points provided and are they editable?		
Do scores sync to Synergy/LMS Systems/Google Classroom?		

High School Vendor Presentation Questions

Are there editable and multiple forms of assessments? Are tests available that vary by rigor? Is a final exam or cumulative exam available? Pre assessments?		
Is there a large bank of problems to pull from for homework questions? Can these problems be randomized for students? Can we create our own problems?		
Can teacher-created materials be shared (and made available to edit) between teachers?		
Are there language options? Is there a translation feature?		
Does it align to SAT/ACT tests?		
Are there instructional videos available? How will students access these?
