

Fifth Grade

Academic Performance Key

(PR) Proficient:	The student is meeting expectations in these standards by consistently demonstrating understanding and is able to apply these standards in various contexts.
(DE) Developing:	The student is making progress toward understanding these standards and is able to demonstrate them in some contexts.
(EM) Emerging:	The student is just beginning to understand these standards.
(NA) Not Assessed:	These standards were not in focus this semester and therefore not assessed.

English Language Arts

READING
Literature & Informational Text <i>Key Ideas & Details</i> Use quotes from a text to explain ideas and make inferences Identify two or more main ideas in a text and summarize using key details <i>Craft & Structure</i> Compare how different texts organize events, ideas, and information <i>Integration of Knowledge and Ideas</i> Explain how authors use reasons and evidence to support ideas Combine information from multiple texts to write or talk about a topic

WRITING

Text Types and Purposes

Opinion Writing

Write opinions on topics or books and support them with facts and reasons

Informational Writing

Write to explain a topic clearly using facts and details

Narrative Writing

Write stories with clear events, descriptive details, and a logical sequence

Writing Process and Research

Write clear, organized multi-paragraph pieces for different purposes

Research a topic using multiple sources to build knowledge

LANGUAGE CONVENTIONS

Grammar and Conventions

Use correct grammar when speaking and writing which includes for writing: correct capitalization, punctuation, and spelling.

Vocabulary Skills

Use strategies to figure out the meaning of new and multiple-meaning words

Understand figurative language and word relationships

LISTENING AND SPEAKING

Comprehension & Collaboration

Participate in group discussions by sharing ideas and building on others' thoughts

Summarize information from texts, presentations, and media

MATH

Operations and Algebraic Thinking

Use parentheses, brackets, and braces in math expressions

Recognize and analyze number patterns

Break down whole numbers into prime factors

Number and Operations in Base Ten

Understand place value in large numbers and decimals
Add, subtract, multiply, and divide multi-digit numbers and decimals

Number and Operation in Fractions

Add and subtract fractions using equivalent fractions
Multiply and divide fractions to solve problems

Measurement and Data

Convert measurement units
Understand volume and how it relates to multiplication and addition

Geometry

Graph points on a coordinate plane to solve problems
Classify shapes based on their properties

MATHEMATICAL PRACTICES

Mathematical Practices

Explain their math thinking
Use tools, drawings and modeling to solve math problems and to represent conceptual understanding
Recognize patterns and structures in numbers

HISTORY/ SOCIAL SCIENCES

Land and people before Columbus
Cooperation and conflict in North America between American Indians and Settlers
Settling the colonies
The American Revolution
The development and significance of the U.S. Constitution

SCIENCE

Matter, Organisms & Ecosystems

Explore the properties of matter and how it changes
Understand how living things get energy and interact in ecosystems

Gravitational Force & Patterns in the Sky

Learn how gravity affects objects on Earth and in space
Observe patterns of the sun, moon, and stars over time

Earth's Systems & Changes

Explore how land, water, air, and living things interact

Understand how natural events shape Earth and how humans impact the environment
