Dec 12, 2025, 01:41 PM				1		Please do more to ensure clean feeder patters from elementary through high-school. The current maps have too many divisions from elementary to middle school, and too many divisions from middle to high school. This makes it difficult for students to maintain friendships, which discourages attendance and worsens student mental health.
Dec 10, 2025, 07:09 PM				1		If you do have to adjust the boundaries for other schools such as Montclair students going to the new Raleigh park, please consider letting the students already enrolled in Montclair finish their education at Montclair and filter in the new kindergarten classes to Raleigh park as necessary. Each school would have a smaller population for some time but I think it would be more considerate for families already enrolled in the school, altogether slightly more logistically difficult, it would be worth the effort. Thank you. If you do not have to shut down any elementary schools that would be great as well.
