Alternate Course		1st Choice			2nd choice		
Alternate Course		3rd choice			4th choice		

Circle your selection: CP12: ONLINE Computer Science Y N

*Online courses provide students with an opportunity to learn in a nearly exclusive online environment, and thus, very different from regular courses. Curriculum is organized online around units known as modules. Students will have some flexibility with time to complete each module but are still expected to meet deadlines. Students will engage with the instructor and other students in a collaborative environment while completing each online course. Class format includes independent reading, individual assignments, discussion boards, individual/group projects/authentic activities, and other multimedia tools to engage students in an online mode. Students must attend an orientation session for online courses to enroll.

- **Core courses (English, math, science, social studies, and world language) must be signed by your current teacher.**
- A maximum of one study hall per semester is allowed.
- Alternate courses **MUST** be included on all registration forms. Students will be enrolled in alternate selections if other courses are not available. If alternates are not listed and needed, students will be placed in open courses where prerequisites are met.
- **STUDENTS MUST PASS A MINIMUM OF 5 MARK-POINT EARNING COURSES BOTH SEMESTERS TO BE ELIGIBLE FOR *LAUDE* GRADUATION RECOGNITION.**

Student signature (required)	Parent signature (required)
