

Katie Bergmann

W290 N6224 Hawks Landing Hartland WI 53029

19 years in district, since July 2007

Bachelor's degree in nursing, 2002, Marquette University

Master's Business Administration, 2017, Capella University

Currently a stay-at-home parent to a Swallow afternoon 4k student and second grader, and junior at Arrowhead High School. Professional experience in Pediatric and Neonatal Intensive Care nursing, adult endoscopic sedation and ambulatory clinical supervision.

Member, Grant writer, and Committee Leader for Swallow Education Foundation, Special Olympics Health Promotion volunteer, Swallow school volunteer weekly in Lunchroom and classroom activity planning as a Room Parent, SERVE Foundation volunteer.

I have a strong commitment to the Swallow community and understand the needs and strengths of the school and its students. I will represent the vision and goals of the district from a historical standpoint of having had a child attend Kindergarten through eighth grade, as well as the future of the district moving forward from the perspective of a current parent of young children. I believe in having a fiscally conservative district, a transparent Board, and abundant parent involvement. My professional experience in critical care, healthcare, and clinical management has taught me how to prioritize and balance situations without personal objectives while maintaining sensitivity and neutrality. Additionally, I have experience with corporate compliance and risk management, which translates to oversight and policy setting, both critical functions of the School Board. I am proud to be a part of the Swallow community and would value the opportunity to be a liaison for the high achievement of the school. While Swallow does face significant funding and potential consolidation related challenges, my commitment to shared governance and district advocacy are assets to the Board. I would value the opportunity to make an impact on the Swallow School Board.
