

EVERCRISP APPLE

DID YOU KNOW?

- Evercrisp apples were created to be an improved variety of a Fuji and Honeycrisp blend.
- Evercrisp apples are medium to large in diameter, showcasing a green to golden yellow coloring, almost entirely covered in a muted, dark red, rose, to maroon-colored blush.
- Evercrisp apples have a sweet, juicy flavor.
- Evercrisp apples are a source of vitamin C.

FUN FACT!

The Evercrisp apple was developed in Ohio in 1998.
