1. Review of Current or Approved District-Wide Projects

Snyder reviewed all current projects and capital purchases both current and moving forward in the near future. Concerns were shared about the projected cost of renovations only. It appears a bigger question may be what does the larger scale look like.

2. Continued Discussion on PGASD Feasibility Study

Frew also expressed concerns with cost and the fact that it will still be an old school. His quote was “are we putting lip stick on a pig?” The members present appeared to generally support further conversation about the what the future needs to look like.

3. Executive Session for Personnel; will not return

Meeting adjourned at 7:22pm by Stump, seconded by Brown.
