

Student Welfare and Wellness

The health and safety of pupils shall be a priority consideration in all Board decisions.

The Board is committed to providing school environments that promote and protect student health, well-being, and ability to learn by supporting healthy eating and physical activity. To this end, the Board supports school efforts to implement the following:

- To the maximum extent practicable, schools will participate in available federal school meal programs.
- Schools will provide and promote nutrition education and physical education to foster lifelong habits of healthy eating and physical activity and will establish linkages between health education, school meal programs, and related community services.
- Each school council of a school containing grades K-5 or any combination thereof, or if there is no school council, the Principal, shall develop and implement an individual school wellness policy that includes moderate to vigorous physical activity each day and encourages healthy choices among students consistent with KRS 160.345 and Board Policy 02.4241.
- The policy may permit physical activity to be considered part of the instructional day, (not to exceed thirty (30) minutes/day or 150 minutes/week) and also in compliance with the school calendar regulation, 702 KAR 007:140 and Board Policy 08.1346.
