Southeast Sportsplex is looking to start an after school Middle School Pickleball League or program based on interest.

Pickleball has rapidly grown from a backyard pastime into one of the fastest-growing sports in the world, and now it's finding a new home in schools and youth programs. Administrators, teachers, and coaches are recognizing the unique advantages the game brings to students—accessibility, inclusivity, fitness, and fun. Whether used in elementary PE classes or adopted by high school athletic programs, pickleball is proving to be far more than just a trendy activity. It's becoming a tool for physical education, personal development, and long-term community engagement.
