

The Doggy Times  
Thursday, January 15, 2026

Dear Parents,

On Monday, we began our study of the universe. We learned so many facts about our solar system. We learned about the sun and all the planets. We learned the order of the planets and interesting facts about each one of them!

We made space helmets, rockets and a space book. We also made astronauts with our pictures in them, and we hung them from the ceiling. We hung individual blow-ups of the sun and the planets. Our room has been transformed into a giant solar system! The children have enjoyed our space unit very much. They have become experts about our solar system.

We also learned about the United States map. We talked about some of our favorite states and found them on the map. We were able to identify our great state of Louisiana and many others!

**-Reminders:**

- Tomorrow - Preschool closed/Conferences
- Monday, January 19<sup>th</sup> - No School/MLK Holiday
- Tuesday - Library books due
- Show and Tell - Children's choice

We are looking forward to meeting with you at our parent/teacher conferences tomorrow. If for any reason you cannot attend, we can schedule another time to meet.

Have a great weekend,  
Cathy and Libby
