2024-2025 School Accountability Report Card

(Published During the 2025-2026 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

Admission Requirements for the University of California (UC)

Admission requirements for the UC follow guidelines set forth in the Master Plan, which requires that the top one-eighth of the state's high school graduates, as well as those transfer students who have successfully completed specified college course work, be eligible for admission to the UC. These requirements are designed to ensure that all eligible students are adequately prepared for University-level work. For general admissions requirements, please visit the UC Admissions Information website at <https://admission.universityofcalifornia.edu/>.

Admission Requirements for the California State University (CSU)

Eligibility for admission to the CSU is determined by three factors: (1) Specific high school courses, (2) Grades in specified courses and test scores, and (3) Graduation from high school. Some campuses have higher standards for particular majors or students who live outside the local campus area. Because of the number of students who apply, a few campuses have higher standards (supplementary admission criteria) for all applicants. Most CSU campuses have local admission guarantee policies for students who graduate or transfer from high schools and colleges that are historically served by a CSU campus in that region. For admission, application, and fee information, see the CSU website at <https://www2.calstate.edu/>.

2025-26 School Description and Mission Statement

Kings Lake Education Center is an alternative education site for high school students who are behind in credits, allowing them the opportunity to complete their high school education and graduate with a diploma in an innovative setting. Kings Lake Continuation High School serves students in grades ten through twelve. Kings Lake Continuation High School employs two teachers. The class runs Monday to Friday, 8:00 am - 3:10 pm, and each session is a full day. All subjects at Kings Lake Education Center Continuation High School are academic and are administered via computer using the Edgenuity program. Edgenuity is a state-approved, comprehensive curriculum designed to help students who are behind in credits catch up. Students are offered a supplemental program (Mypath) to deepen their understanding of the state standards. As of the start of the 2024-2025 school year, Kings Lake has added two periods of direct instruction to the schedule. Utilizing the ERWC

2025-26 School Description and Mission Statement

curriculum for English 12 and the math curriculum for Integrated Math 1, continuation teachers now teach Math 1 and English 12 daily. Kings Lake also utilizes “PAPER” to assist students after hours with their work. PAPER is customized, state-aligned, high-impact tutoring with detailed reporting designed for impactful academic results. Students can choose to engage with PAPER or with the tutoring offered by both Kings Lake Continuation teachers on Mondays, Tuesdays, and Wednesdays after school from 3:15 to 4:15.

The mission of Kings Lake Continuation High School is to help students who are deficient in credits and give them an opportunity to succeed academically and earn a high school diploma. We aim to enable students to recapture credits more effectively, complete their graduation requirements, and leave our school with a high school diploma and a plan for post-secondary educational and vocational opportunities.

A. Conditions of Learning State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair.

School Facility Conditions and Planned Improvements

Corcoran Unified School District receives funds from the Williams Settlement, so district personnel are required to conduct an extensive facilities inspection. The condition of the facilities and grounds is important. The Director of Maintenance, Operations, and Transportation and the Chief Business Official provided the necessary information in preparation for this report. The chart below shows the site's general condition. Good repair is defined as maintaining clean, safe, and functional schools.

Mission Community Day School (MCDS) facilities remain in good repair, and incremental progress has been made on the planned site enhancements at Kings Lake Education Center. Over the past year, minimal construction has been completed on a new food-preparation facility. In addition, the former food-preparation structure and its surrounding area are still cleared and ready for the next phase of development.

At this time, however, further progress remains contingent on the removal of a PG&E-owned guy wire within the new building's planned footprint. The removal of this utility component can only be performed by PG&E. Although the district has provided notification and requested action, we are currently subject to PG&E's scheduling and operational timelines. Consequently,

School Facility Conditions and Planned Improvements

temporary front fencing remains in place, the former shack area remains open dirt, and the campus is not yet fully secured due to an opening created during the removal of fencing behind the previous structure.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

- 1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
- 2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
- 3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

College and Career Ready

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

ELA and mathematics test results include the Smarter Balanced Summative Assessments and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

2024-25 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus

the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2025-26 Opportunities for Parental Involvement

Kings Lake Education Center communicates with parents through campus events, written notices, phone calls, emails, the parent square message system, district and school websites, and newsletters. We have an open-door policy and welcome parents at any time. Due to the nature of instruction at Kings Lake Education Center, parents are encouraged to participate in their child’s education. We ask parents to ensure that students complete their assignments and arrive at school and classes regularly and on time as scheduled. Teachers are encouraged to contact parents regularly, using multiple channels, to provide updates on their students’ academic progress, attendance, and behavior. Teachers make regular calls to their students’ parents to provide updates on their children. Parents are also invited to our back-to-school night, where students can showcase their progress and growth. Events on campus also provide opportunities for parent involvement at Kings Lake. Kings Lake prides itself on offering cultural events that reflect the student body. These events provide chances for parents to volunteer, speak, or supervise. Additionally, the Parental Advisory committee keeps parents abreast of the Single Plan for Student Achievement (SPSA), goals, priorities, and strategies to improve student outcomes, including instructional methods and support services, and provides input on Title I funding, state/local funding, and other school-related items.

2025-26 School Safety Plan

Maintaining a safe and secure learning environment is a top priority for Kings Lake Education Center. The Comprehensive School Site Safety Plan was developed for Kings Lake Education Center in collaboration with local agencies and the district office to meet the requirements of Senate Bill 187.

Our plan is updated annually and includes procedures for emergencies, exit routes, and inventories of emergency supplies. Local law enforcement has a copy of our School Safety Plan and a school map. Safe school routes have been identified and included in the Comprehensive School Safety Plan, in coordination with local law enforcement, the fire department, and city officials. All staff members review the School Safety Plan during Kings Lake Education Center staff meetings at the beginning of the school year.

Students and staff participate in monthly drills, and staff are debriefed after each drill to improve our safety procedures. Kings Lake Continuation students participate annually in Digital Citizenship Safety Training. A perimeter fence surrounds our school, and all visitors must check in at the office upon arrival. All volunteers must complete a district application and receive the appropriate clearances before volunteering or chaperoning at a school site or during a school trip. Parents and volunteers also have their IDs scanned by the RAPTOR security system upon entering the campus and while interacting with students.

A copy of the Comprehensive School Safety Plan is available in the school office for parent review upon request with the site administrator.

The Comprehensive School Safety Plan was last reviewed, updated, and discussed with the school faculty on September 18, 2025.

Fiscal Year 2024-25 Types of Services Funded

Kings Lake Education Center utilizes Edgenuity, an online curriculum aligned with each student's enrolled grade level. The Edgenuity platform expands the school's access to A–G approved coursework and supports a comprehensive range of academic pathways.

Fiscal Year 2024-25 Types of Services Funded

Kings Lake Education Center is committed to providing elementary and high school students with individualized attention in a safe, supportive, and cooperative learning environment that honors student diversity and addresses unique educational needs. Staff recognize that each student is unique, and are dedicated to helping students realize their full potential, achieve their academic goals, engage meaningfully in their community, value lifelong learning, explore future career, college, and personal aspirations, and prepare for success in their postsecondary endeavors. Counseling services—including academic, career, social-emotional, and special education support—are available to all students.

Collectively, staff and administration strive to provide a safe, supportive, and conducive learning environment that fosters academic success. Beginning with the 2024–2025 school year, Kings Lake Education Center added two periods of direct instruction to its daily schedule. Using the ERWC curriculum for English 12 and Integrated Math I for mathematics, continuation teachers now provide daily direct instruction in both subject areas.

To further support student achievement, Kings Lake Education Center also uses PAPER, a customized, state-aligned, high-impact tutoring service that provides detailed reporting to promote strong academic outcomes. Students may access PAPER after hours or participate in on-site tutoring offered by continuation teachers on Mondays, Tuesdays, and Wednesdays from 3:15 p.m. to 4:15 p.m.

Professional Development

Professional development at Kings Lake Education Center is ongoing to ensure that staff remain current with effective instructional strategies, innovative teaching practices, and applied educational technology. At the start of each school year, teachers participate in a four-day staff development institute, including training with the Guiding Coalition to support the districtwide implementation of Professional Learning Communities (PLCs). PLC teams meet on Wednesdays to review instructional planning, analyze student data, and determine next instructional steps. Additional mandatory training includes sexual harassment prevention, mandated reporter requirements, and district safety protocols and procedures.

Administration also engages in targeted professional learning to enhance school climate and student support systems, including restorative justice practices and Multi-Tiered Systems of Support (MTSS). Professional growth is further supported through site visits to campuses within and outside the district, collaboration with county offices of education, participation in coaching cycles, teacher-principal meetings, student performance reviews, and attendance at conferences. Administrators and teachers participate in ongoing development aligned with credentialing requirements, including NTI mentor meetings for probationary teachers and support for the internship program, ensuring new teachers receive regular monitoring and guidance.

Professional Development

Training on attendance accounting systems, laws, and operational procedures—such as Parsec—is also provided.

Support staff receive extensive training as well. Community Contacts participate in professional development related to attendance accounting, family outreach, parent engagement, customer service, home visit procedures, SIS data entry, and Topspro reporting through CASAS. Paraprofessionals receive training addressing students' social-emotional needs, small-group instructional support, EL programs such as iLit, and strategies for working with challenging student behaviors. Teachers and paraprofessionals also engage in training on newly adopted curricula to ensure effective implementation and support student learning.
