- New students are also charged a security deposit of ¥ 50,000, which is held by the school to offset the cost of potential damages or outstanding charges while the student is enrolled at CA. This amount is refunded to the family, net of any deductions, upon the student's departure from the school.
- In cases where CA is sponsoring the student's visa to enter and study in Japan in order to attend the school, the student is required to live in the dormitory for the duration of their enrollment at Canadian Academy.

Student Support Services

English as an Additional Language (EAL)

- At the time of application, for students entering Grade 1 or above, the school will reach a determination as to whether the student requires EAL services. This determination is reached at the sole discretion of the school and is a condition of enrollment.
- The school does not charge additional fees for EAL services.

Tiered Learning Support Model

- Any student who in the determination of the school requires significant one-on-one learning support from a Learning Support teacher and/or assistant will be assessed a fee of up to ¥ 3,500,000 for participation in the Learning Support program.
- This determination can be made during the enrollment process or at any point during the student's tenure. In specific circumstances, upon review of the application made to the school, a student's acceptance to CA will be contingent on enrollment into the program.
- The fee for participation in the Learning Support program may be pro-rated depending on the school's assessment of the student's level of need.
- The Learning Support fee helps to subsidize the staffing costs associated with the Learning Support program, and is in addition to the standard tuition fee.
- The family will be invited to participate in discussion regarding the need for a student's ongoing participation in the program in advance of each new school year. However, the final decision regarding program participation remains at the sole discretion of the school.

- The school's food services provider is Cezar's Kitchen. All students will be assigned a Cezar's Kitchen account during their enrollment at CA. Families are responsible for topping up their children's accounts throughout the year. Cezar's Kitchen manages account balances directly without the school's involvement.
- Families are advised that, in order to facilitate student sign-up to the service, CA will provide basic demographic information to Cezar's Kitchen on an annual basis, and Cezar's Kitchen will create accounts on their platform using this information.
- The school's after school activities and extra-curricular programs may carry additional costs depending on the number and nature of activities selected. Further details are communicated to families via the Activities Office and are shared during enrollment.
