

# 2026 MakerSpace Summer Camps @Schuylkill IU29

Half-Day Summer Camps - Attend 2 half-day sessions at a discounted rate.  
(for students entering the designated grades for the 2026-2027 school year)

## Literacy and STEM

June 8-11, 2026 9:00-10:30 AM Grades K-2

Campers will listen to stories from their favorite picture book, and then complete daily STEM design challenges that accompany the stories. Using their creativity and design skills, campers will collaborate with peers to increase their problem-solving skills in this hands-on camp.

## Holiday Math Explorers

June 8-11, 2026 10:30 AM-12:00 PM Grades K-2

Join our K-2 Holiday Math Camp for hands-on, festive fun with patterns, shapes, counting, and more! Each day celebrates a different holiday with games, crafts, and activities that make learning math exciting and memorable.

## LEGO Legends Lab: Spike Prime

June 15-18, 2026 8:30-11:30 AM Grades 3-5

Gear up for innovation and discovery with LEGO Spike Prime! Perfect for aspiring engineers and tech enthusiasts, this camp combines LEGO building with advanced robotics and coding. Campers will tackle exciting challenges, build dynamic robots, and program their creations using Spike Prime's intuitive platform. Hands-on projects inspire creativity, collaboration, and problem-solving while preparing students for real-world STEM careers.

## Media Makers Studio

June 15-18, 2026 12:00-3:00 PM Grades 3-5

Lights, camera, action! Campers will explore digital storytelling through video production, audio creation, and visual design. Using green screens, digital editing tools, and creative technology, they'll produce their own content—from short films and podcasts to digital art and animations. Whether your child dreams of being a YouTuber, filmmaker, or digital artist, this camp brings their creative vision to screens.

## Hummingbird Robotics Engineering

June 22-25, 2026 8:30-11:30 AM Grades 6-8

Design, build, and program robots that light up, move, and sense their environment using Hummingbird robotics kits. Campers will tackle engineering challenges that combine creativity with coding as they bring their robotic inventions to life. From dancing robots to obstacle-avoiding machines, young engineers will learn how technology and design work together to solve real problems.

## Game Design Studio

June 22-25, 2026 12:00-3:00 PM Grades 6-8

Ever wanted to create your own game? Campers will explore game design from every angle—digital games, board games, and carnival-style challenges. Using design thinking and prototyping skills, they'll create playable games from scratch, develop game mechanics, and test their creations with peers. Campers will even integrate technology like Hummingbird robotics kits to design interactive tabletop games with lights, sounds, and moving parts. Whether designing strategy board games, arcade-style challenges, or tech-enhanced game experiences, campers will leave with games they built and the skills to keep inventing.

All sessions are held at Schuylkill Intermediate Unit 29 Maple Avenue Campus MakerSpace.

17 Maple Avenue  
Mar Lin, PA 17951

**Lunch is not provided.**  
Students may bring their own lunch, if staying for 2 sessions.
