In compliance with federal laws, Guilford County Schools administers all educational programs, employment activities and admissions without discrimination because of race, religion, national or ethnic origin, color, age, military service, disability or gender, except where exemption is appropriate and allowed by law. Refer to the Board of Education's Discrimination Free Environment Policy AC for a complete statement. Inquiries or complaints should be directed to the Guilford County Schools Compliance Officer, 120 Franklin Boulevard, Greensboro, NC 27401

EGMS Sixth Grade Encore Courses

Vocal Ensemble This is a course which is open to all interested sixth graders. Students begin a more in-depth study of vocal technique and choral literature. Students are encouraged to participate in local, regional, and statewide festivals. Groups are involved in performance-related activities throughout the school year. **Course meets every day**.

Band This course is open to all sixth-grade students with strong interest. Students receive instruction on fundamentals through group and individualized instruction. The groups are involved with performances throughout the school year. Except for large and/or expensive instruments, parents must secure instruments for their children. **Course meets every day**.

Visual Art This course is open to sixth grade students interested in exploring basic art techniques and media. Elements and principles of design are emphasized along with opportunities for enhancing critical thinking and writing skills. **Semester course**

Music Appreciation Designed as a survey course in the fundamentals of theatre/drama: acting, improvisations, termination, history, and philosophy of theatre. There will be some play production. Open to sixth grade students at schools with theatre programs. **Semester**

Exploring Careers and Employment College and Career Ready Labs (CCRL) are completely focused on creating a career experience that helps students decide where their interests and aptitudes align with a career pathway. Throughout the year, students will experience various learning designed to bring to life authentic experience. **Semester course**

Computers Science Discoveries Students will learn keyboarding skills focusing on technique, accuracy, and speed. They will learn to create computer programs that will help them collaborate with others, develop problem-solving skills, and persist through difficult tasks. The course teaches the foundational concepts of programming. **Semester course**

Introduction to Spanish This 6th grade course is designed to introduce students to basic Spanish vocabulary and structures. They will develop an awareness of the Spanish language patterns and sounds. **Semester course**

Engineering: Exploring Technology I Students will apply the design process to solve problems and understand the influence of creativity and innovation in their lives. Students will work in teams to design a playground and furniture, capturing research and ideas in their engineering notebooks. Using industry design software, students create a virtual image of their designs and produce a portfolio to showcase their innovative solutions. **Semester course**

Exploring Nutrition and Wellness Students will have an opportunity to learn more about making healthy food choices, understand the basic foundations of good nutrition, and develop knowledge and skills using classroom kitchens as they work to prepare healthy foods. **Semester course**

Math and ELA Classes determined by the level received on EOGs.
