

# PINK PINEAPPLE

## DID YOU KNOW?

- Pineapples are the only plant in the Bromeliaceae family with edible fruit.
- Pineapples have firm, waxy, and textured skin, comprised of hexagonal sections with variegated yellow, orange, and green hues, and when cut, you will find bright pink flesh inside!
- Pink Pineapple has a juicier and sweeter flavor compared to traditional pineapple.
- Pineapple is an excellent source of vitamin C which helps support and maintain a healthy immune system.

## FUN FACT!

The crowns are removed before consumer purchase to reuse for planting.
