# Superintendent's Budget Message

The FY 2027 budget represents a 3% increase over the current operating budget. This budget reflects compensation increases to support the recruitment and retention of highly qualified teachers, support staff, and administrators. The third year of the career ladder will be in place, in alignment with the requirements of the Blueprint for Maryland's Future. Finally, this budget reflects the continued support of our bus operations, recognizing our partnership with small local businesses and their daily support to our students.

Education is an essential investment and determines the future success of our students, our community, our state, and our nation. The deep commitment of the Commissioners of St. Mary's County to our students' education and educational experiences beyond those recognized within the Blueprint is exhibited in their continued support of funding over the legal requirement of both local share and maintenance of effort.

St. Mary's County Public Schools (SMCPS) is large enough to offer a wide variety of academic programs and services and small enough to maintain an atmosphere of friendliness, helpfulness, and personalized services. As a school system, we are focused on student achievement and ensuring that our students meet rigorous standards; at SMCPS all children can learn. Our goal is to focus our efforts to create a total community committed to learning and safety for all children.

# Budget Explanation

## **Current Expense Fund**

The term “current expense” includes all funds from the unrestricted and designated sources that are used in support of educational programming.

**Unrestricted Revenue** is received from the state, the federal government, the local Commissioners of St. Mary’s County (CSMC), and from other school system sources.

**State:** This level of state funding is determined by formula, incorporating factors for enrollment and county wealth. Funding for FY 2027 is based on enrollment as of September 30, 2025. As the state provides most of its unrestricted funding on a per pupil basis, any change in enrollment and/or county wealth will impact state revenues. Most of these funds can be allocated by the Board of Education (Board) to any category in the budget, but remain in the category once the budget is approved. All categorical transfers must be approved by the Board and the CSMC. However, targeted funding sets the minimum level of expenditures. For example, the state funding for transportation must be spent only on transportation. The same is true of “designated” revenues received from the state for special education, limited English proficiency, and compensatory programs.

**Federal:** This revenue (Impact Aid) represents an appropriation provided to school systems impacted by federal facilities within their districts. Appropriation amounts are set as part of the federal budget process and allocated on the basis of enrollment and local cost factors.

**Local:** This funding consists primarily of tax revenues allocated by the CSMC for use by the Board. Another source to local revenues comes from the SMCPs prior year’s fund balance, if available.

**Restricted Program Fund:** The restricted funds received from the state or federal agencies, as well as private grants, that are used to implement approved projects, principally instructional, instructional support, and student services. These projects and activities, which are detailed, are dependent on the grants that support them. If these grants are not received by the Board, the projects or activities for which the funds were requested are usually canceled.

However, where the services provided are required by state or federal statute, local funds must be allocated to continue the programs. These expenditures are included as part of the Restricted Program Fund.

In addition to the Current Expense and Restricted Program Funds, this budget document includes expenditure and revenue budgets for:

**Revolving Fund:** The Revolving Fund includes the Food and Nutrition Services program, and any other programs that are operated independently of other school system funds. These programs are self-supported through federal and state aid, as well as student and adult purchases.

**Capital Improvements Fund:** The Capital Improvements Fund include current construction and major repairs for schools that are funded by state and county resources raised through financing, as well as designated county operating funds.

The Appendix section contains trend data and other reference information.

## **Description of Funds**

The Board accounts for its financial activities through the use of “fund accounting.” This is a principle wherein resources and expenditures for governmental operations are accounted for with a separate set of self-balancing accounts for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations. Activities of the funds and accounts group established by the Board are described below:

**Unrestricted Fund:** The unrestricted fund is the basic budgetary fund of the Board. It accounts for all operating revenues and expenditures for the educational and support programs including funding support of the Chesapeake Public Charter School (CPCS).

**Revolving Fund:** The revolving fund accounts for all revenues and expenditures related to activities which rely heavily on payments from participants or other third parties. This includes the school food and nutrition services program.

**Restricted Program Fund:** The restricted program fund accounts for all revenues and expenditures which must be used in a categorical or for a specific purpose, as defined by the entity awarding the funds.

# Budget Explanation

**Capital Improvements Fund:** The capital improvements fund is the capital project fund for the Board and accounts for all costs of acquisition and improvement of sites, the construction of additional schools, alterations, and additions to existing schools, and purchase of original equipment.

## **Description of Revenues**

**Local Revenue:** Money received from funds set aside by the CSMC. Commissioners and other local sources of funds, including use of fund balance, investment income, fees for services, and rental of facilities.

**State Revenue:** Revenue from the State of Maryland received as the state's share of the cost for K-12 education. Generally, these appropriations are based on enrollment and wealth.

**Federal Revenue:** Federal Aid received for unrestricted or restricted purposes, as defined by the Federal Government.

**Incoming Transfer Maryland LEA:** Revenue from other school systems for students from their jurisdiction who are attending St. Mary's County Public Schools.

## **Description of Expenditures**

**Administration:** Activities associated with the general regulations, direction, and control of the SMCPS. Generally, this includes any expenditure made to formulate or to execute educational or financial policy, and which affects or benefits the system as a whole.

**Mid-Level Administration:** Activities which are designed to support district-wide, as well as school level instructional program activities. This includes the school-based Office of the Principal, as well as the Instructional Administration and Supervision, which along with the Deputy Superintendent includes the Departments for Career and Technology; Supplemental School Programs; Teaching, Learning, and Professional Development; Learning Management Systems, and Information Technology (Administration/Instructional).

**Instructional Salaries and Wages:** Activities which are school-based and are directly or supportively associated with teaching students. Staff included in this category are those who spend time in the classroom working directly with students, as well as media specialists, guidance counselors, and psychologists. Staff development for instructional personnel is included in the Instruction category.

**Instructional Textbooks and Supplies:** Costs incurred to provide instructional materials and supplies to the student centered instructional program.

**Other Instructional Costs:** Costs of activities which are school-based and support the delivery of the instructional program, other than textbooks and supplies, which are a separate category.

**Special Education:** Activities which directly or supportively deal with providing educational opportunities to students with physical, emotional, intellectual, or other special needs. In addition to instruction and special needs staff, this includes office staff or special facilities.

**Student Personnel Services:** Activities designed to improve pupil attendance at school and prevent or solve pupil problems in the home, school, and the community.

**Health Services:** This category's activities provide students with appropriate physical and mental health services.

**Student Transportation:** Activities concerned with the conveyance of students between home and school and for school activities, including vehicle operation services, monitoring services, vehicle servicing, and maintenance services.

**Operation of Plant:** Activities concerned with keeping the physical plant open, comfortable, and safe for use.

**Maintenance of Plant:** Activities concerned with keeping the grounds, buildings, and equipment in their original condition of completeness or efficiency through repair or replacement of property.

**Fixed Charges:** This category contains charges of a generally recurring nature which are not readily allocable to other categories, such as local school board contributions to employee retirement, social security, other employee benefits insurance (life, medical, dental, prescription drug, and vision), post-employment health/life, judgments, and tuition reimbursement.

**Capital Outlay:** Activities concerned with directing and managing the acquisition, construction, and renovation of land, buildings, and built-in equipment. Only current expense activities are included here. Expenditures funded through the capital program are reflected in the Capital Improvement Fund.
