Purpose of Collection Development Policy

A school library collection development plan serves as a roadmap to guide library materials' selection, acquisition, and maintenance. It ensures the collection aligns with Florida statutes, the District's Strategic Plan Goals and Guardrails, the school's curriculum and student needs by providing a framework for choosing resources that best support student learning across different subjects, and interests, while also addressing diversity and appropriate content levels.

A Collection Development Plan Serves Several Important Purposes:

Statutory Compliance: A Collection Development Plan establishes the framework for adhering to the mandatory state statute, requiring each district school board to adopt procedures for developing library media center collections and to post these procedures on each school's website.
District Alignment: Aligns with Broward County Public Schools 2022-2027 Strategic Plan Goals and Guardrails.
Supporting curriculum: The plan should directly connect library materials to the school's curriculum, ensuring students access relevant study resources.
Student needs assessment: It considers students' diverse needs, including reading levels, interests, and learning styles, to select materials that cater to a wide range of abilities.
Selection criteria: The plan outlines clear criteria for choosing materials, such as quality, accuracy, relevance, and alignment with school values.
Budget management: It helps allocate library funds effectively by prioritizing purchase needs based on identified gaps in the collection.
Collection maintenance: The plan includes procedures for discarding outdated or damaged materials and replacing them with current resources.
Community engagement: It involves collaboration with students, teachers, administrators, and parents to gather input on collection needs.

A thorough analysis of the current media center collection at Coral Springs indicates that the average age of the collection is 2010 and the number of books per student is 15.2. The American Library Association has established a criteria for a highly effective media center that includes a ratio of 10 books available per student in the collection.

Currently Coral Springs Elementary does meet the recommended standards for the number of books per student and has also reached the currently established goal for the age of collection being 2010. This was achieved through the adding of new books, and the consistent weeding of old books from the database during the first quarter of this school year. The age of collection have therefore gone down by three years, moving from 2007 in November 2024 to 2010 by November 2025. Despite this achievement however, there are still many gaps to be filled in terms of replacing books that have been weeded out, with more current, age and content appropriate titles.

Library Program

In general the library consist of a fixed schedule. All students are rotated through this schedule during a one month period. Each class has Media for five days in each rotation, one of which is designated as a book check out day. Students and teachers are also accommodated to do quick check outs at other times as the need arises.

Our Library opens at 8:00 am. To 3:30 pm. From 8:00 to 8:30 am all Pre-K students are accommodated to engage with puzzles, block building and books, with supervision.

Seven classes are rotated for 30 minutes each throughout the school day. Some classes are done through collaborative efforts, while others are done through media initiatives to infuse relevant information literacy skills to compliment regular classroom learning.

The media specialist also tries to keep abreast of ELA standards that students work on through Benchmark Advanced, and will review content, or teach lessons to help students reinforce their learning.

Through Media students are taught how to use different online databases for reading or research. They are also provided with information about Reading Across Broward and given opportunities to log reading time in Bean stack using Media computers.

Once or twice per year as part of our reading motivation program a Book Fair is hosted to help students to get their own books to read as well as to get more books for the library through the fund raiser component.

School Analysis

The school analysis provides an overview of the school's enrollment, demographics, and special programs.

Scope of the Collection

The Media Collection Includes Non-Fiction books, spanning all Dewey classes. It includes Fiction which incorporates different genres that students like to read. There is a general growing readership for graphic novels among the older students. These books are kept integrated with red " Graphic Novel " spine labels so they can be easily identified.
Books are kept integrated to allow students to continue to see other books which are also worthy of being chosen.
The library collection also includes Biographies to support learning about people from all walks of life. Present also is a collection of Easy Readers, and Reference. Professional books, which teachers can use to supplement their curriculum needs are housed in the backoffice. This collection currently is limited, due to a number of aged books being weeded out.

Concerning current technology, the Media Center now has a cart with 30 student computers which can be accessed by students from all classes. The Media Center also has a Promethean Board which is being utilized for teaching and learning, and is a source of engagement for all.

The district provides online resources to ensure equitable access to information for teaching and learning, to improve student performance and achievement. Students and teachers can use Clever or Canvas to access age-appropriate materials that support educational and social-emotional needs through the following online resources: Follett Destiny Online Library Catalog, Gale Online Databases and eBooks, Pebble Go Next and National Geographic For Kids, Beanstack, and Sora.

School media centers provide access to library media materials that eliminate educational barriers based on gender, race/ethnicity, national origin, color, religion, disability, age, sexual orientation, gender identity, expression, or other protected group status and that are free of bias, stereotypes, distortions, and prejudices. This includes the ability to obtain information in a variety of formats -electronic as well as print, without fear of censorship or reprisal.

Collection Development

Collection Development is the process of providing quality materials and equipment for the library media center. The goal of collection development is to ensure the collection has information sources in adequate quantity and variety to support student's academic and personal interest needs. The media specialist is charged with leading this process with the input of teachers, students, and parents. Resources are selected according to principles of intellectual freedom and provide all learners with access to information representing diverse points of view.

Selection and Evaluation Criteria (Drawn from BCPS Policy 4120)

Selection of Materials

Funded by the state, district, and school, the media collection will contain a wide range of appropriate materials on varying levels of difficulty in various existing and emerging formats. It will focus on materials that address different learning styles and levels.

Responsibility

The School Board of Broward County is legally responsible for all matters relating to the operation of the Broward County Schools. The professionally trained media specialist is responsible for coordinating the selection of instructional materials for the School Media Center, consulting with the principal, teachers, and students.

***In the event there is not a school library media specialist,** the Principal and/or Administrative Designee will assume the responsibility for identifying and selecting an instructional staff member(s) to engage in the selection process to ensure materials support the needs of the school community.

NOTE: *Clerical personnel should NOT be responsible for library material collection development and/or resource management and selection of materials.*

Criteria for Selection of Print and Non-Print Materials

1. Materials are selected to support the mission of Coral Springs Elementary.
2. Materials are selected to enrich and support the curriculum and the educational, emotional, and recreational needs of the users.

3. Materials shall be appropriate for the age, emotional development, ability levels, learning styles, and social development of the students.
4. Materials shall represent differing viewpoints of controversial issues so that users may be motivated to engage in critical analysis of such issues, to explore their own beliefs, attitudes, and behavior, and to make informed choices in their lives.

In keeping with the ***Library Bill of Rights,*** materials will be considered based on the following:

- Needs of the curriculum, learning/teaching styles of students, faculty, and staff
- Possible use of material (including small or large group instruction, in-depth study)
- Level of physical, artistic, and literary quality
- Representation of multiple viewpoints
- Treatment of subject and lack of cultural bias

Gifts and Donations

Any gifted or donated items must meet the same selection criteria as all other materials—the criteria listed in Florida Statute 1006.28 and Broward County School Board Policy 4120.

Collection Maintenance

Removing materials from a library collection that are no longer educationally appropriate is as an equally important process as selecting new items of high quality. The library media specialist and/or instructional staff should have an ongoing process to evaluate the library media collection and to keep the collection relevant to the changing needs of the curriculum, personal interests, and needs of students. Evaluation of items under consideration for removal from the Library Media Center should be based on criteria related to the educational value of the resources. The removal (weeding) of library materials from the collection is the responsibility of a skilled professional library media specialist. Weeded items should not be disposed of or discarded at the school site. Weeded items should be boxed and identified as DISCARDED or WITHDRAWN and scheduled for pick up by Procurement and Warehousing Services by completing the enclosed Warehouse Assistance Request Form.

Reconsideration of Materials

Inquiries regarding the appropriateness of particular library and supplemental instructional materials are a normal part of the process of providing a wide variety of resources for student use.

The analysis of the collection also revealed the following areas of **strengths** and **concerns**:

Strengths

- From the data which is presented, it would seem that the easy readers collection is the strongest in terms of numbers, but having an average collection age of 2007,is an indication that there is still much weeding to be done.
- The general Fiction area on the other hand seems the strongest at this time, with an average age of 2014 - More books are still needed however as his is where students in the upper grades get most of their reading materials
  from.
- The collection in general is in compliance as it relates to reaching the goal for 2010.
- Currently only 38% of the collection is fifteen years or older. This has moved down from 48% in June 2025.

Focus Areas

- All areas with very low numbers of titles.
- All areas with age of collection below 2010.
- All areas which shows that the actual percentage of the collection falls below the recommended percentage.

Strategic Focus

This page lists the priorities for weeding and purchasing for each school year and includes the actions, updates, and outcomes. This is subject to change due to funding and time constraints.

Library Bill of Rights

The American Library Association affirms that all libraries are forums for information and ideas, and that the following basic policies should guide their services.

I. Books and other library resources should be provided for the interest, information, and enlightenment of all people of the community the library serves. Materials should not be excluded because of the origin, background, or views of those contributing to their creation.

II. Libraries should provide materials and information presenting all points of view on current and historical issues. Materials should not be proscribed or removed because of partisan or doctrinal disapproval.

III. Libraries should challenge censorship in the fulfillment of their responsibility to provide information and enlightenment.

IV. Libraries should cooperate with all persons and groups concerned with resisting abridgment of free expression and free access to ideas.

V. A person's right to use a library should not be denied or abridged because of origin, age, background, or views.

VI. Libraries which make exhibit spaces and meeting rooms available to the public they serve should make such facilities available on an equitable basis, regardless of the beliefs or affiliations of individuals or groups requesting their use.

VII. All people, regardless of origin, age, background, or views, possess a right to privacy and confidentiality in their library use. Libraries should advocate for, educate about, and protect people's privacy, safeguarding all library use data, including personally identifiable information.

Adopted June 19, 1939, by the ALA Council; amended October 14, 1944; June 18, 1948; February 2, 1961; June 27, 1967; January 23, 1980; January 29, 2019.

Inclusion of "age" reaffirmed January 23, 1996.

Although the Articles of the Library Bill of Rights are unambiguous statements of basic principles that should govern the service of all libraries, questions do arise concerning application of these principles to specific library practices. See the documents designated by the Intellectual Freedom Committee as Interpretations of the Library Bill of Rights.
