Purpose of Collection Development Policy

A school library collection development plan serves as a roadmap to guide library materials' selection, acquisition, and maintenance. It ensures the collection aligns with Florida statutes, the District's Strategic Plan Goals and Guardrails, the school's curriculum, and student needs

by providing a framework for choosing resources that best support student learning across different subjects and interests while also addressing diversity and appropriate content levels.

A Collection Development Plan Serves Several Important Purposes:

Statutory Compliance: A Collection Development Plan establishes the framework for adhering to the mandatory state statute, requiring each district school board to adopt procedures for developing library media center collections and to post these procedures on each school's website.

District Alignment: Aligns with Broward County Public Schools 2022-2027 Strategic Plan Goals and Guardrails.

Supporting curriculum: The plan should directly connect library materials to the school's curriculum, ensuring students access relevant study resources.

Student needs assessment: It considers students' diverse needs, including reading levels, interests, and learning styles, to select materials that cater to a wide range of abilities.

Selection criteria: The plan outlines clear criteria for choosing materials, such as quality, accuracy, relevance, and alignment with school values.

Budget management: It helps allocate library funds effectively by prioritizing purchase needs based on identified gaps in the collection.

Collection maintenance: The plan includes procedures for discarding outdated or damaged materials and replacing them with current resources.

Community engagement: It involves collaboration with students, teachers, administrators, and parents to gather input on collection needs.

A thorough analysis of the current media center collection at Sunrise Middle School indicates that the average age of the collection is 2004 and the number of books per student is 9.2. The [American Library Association](#) has established a criteria for a highly effective media center that includes a ratio of 10 books available per student in the collection.

Currently, Sunrise Middle School does not meet the recommended standards for the number of books per student.

Library Program

The library program at Sunrise Middle School is on a flexible schedule. Teachers are able to sign up to bring their classes. Teachers and students are encouraged to log all books read in Beanstack. They receive a lesson on how to log their books.

Teachers also may sign their classes up to receive instruction on how to research.

School media centers provide access to library media materials that eliminate educational barriers based on gender, race/ethnicity, national origin, color, religion, disability, age, sexual orientation, gender identity, expression, or other protected group status and that are free of bias, stereotypes, distortions, and prejudices. This includes the ability to obtain information in a variety of formats -electronic as well as print, without fear of censorship or reprisal.

Collection Development

Collection Development is the process of providing quality materials and equipment for the library media center. The goal of collection development is to ensure the collection has information sources in adequate quantity and variety to support student's academic and personal interest needs. The media specialist is charged with leading this process with the input of teachers, students, and parents. Resources are selected according to principles of intellectual freedom and provide all learners with access to information representing diverse points of view.

Selection and Evaluation Criteria (Drawn from BCPS Policy 4120)

Selection of Materials

Funded by the state, district, and school, the media collection will contain a wide range of appropriate materials on varying levels of difficulty in various existing and emerging formats. It will focus on materials that address different learning styles and levels.

Responsibility

The School Board of Broward County is legally responsible for all matters relating to the operation of Broward County Schools. The professionally trained media specialist is responsible for coordinating the selection of instructional materials for the School Media Center, consulting with the principal, teachers, and students.

***In the event there is not a school library media specialist,** the Principal and/or Administrative Designee will assume the responsibility for identifying and selecting an instructional staff member(s) to engage in the selection process to ensure materials support the needs of the school community.

NOTE: Clerical personnel should NOT be responsible for library material collection development and/or resource management and selection of materials.

Criteria for Selection of Print and Non-Print Materials

1. Materials are selected to support the mission of Sunrise Middle School.
2. Materials are selected to enrich and support the curriculum and the educational, emotional, and recreational needs of the users.
3. Materials shall be appropriate for the age, emotional development, ability levels, learning styles, and social development of the students.
4. Materials shall represent differing viewpoints of controversial issues so that users may be motivated to engage in critical analysis of such issues, to explore their own beliefs, attitudes, and behavior, and to make informed choices in their lives.

In keeping with the **Library Bill of Rights**, materials will be considered based on the following:

- Needs of the curriculum, learning/teaching styles of students, faculty, and staff
- Possible use of material (including small or large group instruction, in-depth study)
- Level of physical, artistic, and literary quality
- Representation of multiple viewpoints
- Treatment of subject and lack of cultural bias
- Accuracy and currency of information
- Scope of coverage
- Support of inquiry and critical thinking skills
- Relationship of the material to the overall collection
- Cost, packaging, and documentation

Selection Tools

The following professional resources are available to assist the media specialist in the selection process. However, selection is not limited to the use of these tools.

Follett Titlewave: Titlewave is a collection development and curriculum support tool for school libraries, librarians, and educators, featuring professionally curated content from Follett library services and support tools that help you find the most relevant materials.

Mackin: Mackin uses highly acclaimed review sources (AudioFile, Booklist, Horn Book Magazine, Kirkus Reviews, Library Media Connection, Publishers Weekly, and School Library Journal). It places them in one convenient location to make the best selections for school libraries and students.

Periodicals: School Library Journal, Kirkus Reviews, Booklist, Horn Book, Library Media Connection, Journal of Adolescent and Adult Literacy, Young Adult Library Services, Knowledge Quest.

Books: Children's & YA Book Lists: Best Books, Best Books for Young Adult Readers; Books for You: An Annotated Booklist for Senior High Students; Outstanding Books for the College Bound: Choices for a Generation; and Senior High School Library Catalog.

Note: Common Sense Media, Amazon, Goodreads, The Manga Critic and Reviews from paid reviewing sources **may be used** in conjunction with professional reviewing sources.

Gifts and Donations

Any gifted or donated items must meet the same selection criteria as all other materials—the criteria listed in Florida Statute 1006.28 and Broward County School Board Policy 4120.

Collection Maintenance

Removing materials from a library collection that are no longer educationally appropriate is as an equally important process as selecting new items of high quality. The library media specialist and/or instructional staff should have an ongoing process to evaluate the library media collection and to keep the collection relevant to the changing needs of the curriculum, personal interests, and needs of students. Evaluation of items under consideration for removal from the Library Media Center should be based on criteria related to the educational value of the resources. The removal (weeding) of library materials from the collection is the responsibility of a skilled professional library media specialist. Weeded items should not be disposed of or discarded at the school site. Weeded items should be boxed and identified as DISCARDED or WITHDRAWN and scheduled for pick up by Procurement and Warehousing Services by completing the enclosed Warehouse Assistance Request Form.

Reconsideration of Materials

Inquiries regarding the appropriateness of particular library and supplemental instructional materials are a normal part of the process of providing a wide variety of resources for student use.

Opt-Out Form

Parents may submit their request to limit their student's access to materials in the school or classroom library by submitting a completed Opt-Out Form to the school principal.

Library Bill of Rights

The American Library Association affirms that all libraries are forums for information and ideas, and that the following basic policies should guide their services.

I. Books and other library resources should be provided for the interest, information, and enlightenment of all people of the community the library serves. Materials should not be excluded because of the origin, background, or views of those contributing to their creation.

II. Libraries should provide materials and information presenting all points of view on current and historical issues. Materials should not be proscribed or removed because of partisan or doctrinal disapproval.

III. Libraries should challenge censorship in the fulfillment of their responsibility to provide information and enlightenment.

IV. Libraries should cooperate with all persons and groups concerned with resisting abridgment of free expression and free access to ideas.

V. A person's right to use a library should not be denied or abridged because of origin, age, background, or views.

VI. Libraries which make exhibit spaces and meeting rooms available to the public they serve should make such facilities available on an equitable basis, regardless of the beliefs or affiliations of individuals or groups requesting their use.

VII. All people, regardless of origin, age, background, or views, possess a right to privacy and confidentiality in their library use. Libraries should advocate for, educate about, and protect people's privacy, safeguarding all library use data, including personally identifiable information.

Adopted June 19, 1939, by the ALA Council; amended October 14, 1944; June 18, 1948; February 2, 1961; June 27, 1967; January 23, 1980; January 29, 2019.

Inclusion of "age" reaffirmed January 23, 1996.

Although the Articles of the Library Bill of Rights are unambiguous statements of basic principles that should govern the service of all libraries, questions do arise concerning application of these principles to specific library practices. See the documents designated by the Intellectual Freedom Committee as Interpretations of the Library Bill of Rights.
