Jeanne Pilgrim
Audit Administration Specialist
Melissa Weekley
Senior Internal Auditor
Sara Heuer
Audit Intern

Preface

The Office of Internal Auditing serves to improve the fiscal accountability and enhance the public's perception of the management and operations of the Escambia County School District. This engagement strives to meet those objectives and align with the District's strategic goals by ensuring effective stewardship of internal funds.

Audits, reviews, and other engagements are determined through a District-wide risk assessment process and are incorporated into the annual work plan of the Office of Internal Auditing, as approved by the Audit Committee. Other assignments are also undertaken at the request of District management.

This engagement was conducted with the full cooperation of Pine Forest High School staff and other District personnel.

Any recommendations included in this engagement are designed to improve operations and serve as the basis for informed discussions related to policies and procedures.

This engagement was conducted in accordance with the 2024 Global Internal Audit Standards issued by the Institute of Internal Auditors, which establish the principles and expectations for the professional practice of internal auditing.

We thank the principals, assistant principals, bookkeepers, secretaries, and various support personnel throughout the District for their cooperation and commitment.

Executive Summary

Pine Forest received a full audit for the 2024-2025 fiscal year.

Our office audits the internal accounts of the District's schools annually. The authority to conduct these audits is granted by the School Board of Escambia County in the Charter for the Office of Internal Auditing.

These audits are conducted on a rotating basis with a sample of schools receiving "full" audits each year, and the other schools receiving "limited" audits. For each full audit, extensive testing procedures are applied to internal funds accounts. Limited audits include cash procedures and reconciliation to independent bank confirmations. For the 2024-2025 fiscal year, Pine Forest High School (Pine Forest) received a full audit. This report documents the results of the audit.

The purpose of our audit was to determine whether the financial information reported in the internal accounts reconciles with bank statements and corresponding independent bank confirmations, and to determine compliance of transactions included in those same internal accounts with the governing provisions of Florida Statutes, State Board of Education rules, and policies and procedures of the School Board. We also sought to determine whether any instances of non-compliance were severe enough to render the financial information reported by the school unreliable. We believe our audit provides a reasonable basis for our conclusion, findings, and recommendations. This engagement adds value by promoting sound financial management, supporting compliance with policies and laws, and strengthening accountability at the school level.

Five adjusting journal entries were recommended.

Our audit procedures indicated matters that required adjustment of the school's records. five journal entries were necessary:

- To correct the improper posting of a boys' basketball expense.
- To correct the improper posting of a boys' basketball expense.
- To correct the improper posting of Florida Orchestra Association Membership.
- To correct the improper postings of vending commissions.
- To transfer the remaining balance of the Senior account to the General Fund.

These journal entries were processed by the bookkeeper in the following school year.

Minor instances of non-compliance are documented in the audit field notes.

We noted some minor instances of violation of Board Policies and Florida Statutes. These matters were documented and provided to the principal and bookkeeper.

Our testing resulted in four audit findings.

Our testing resulted in four audit findings:

- Monthly Log Report was not used properly.
- Purchases were made without prior written approval.
- Request for Purchase forms (RFPs) were not properly completed.
- There was no evidence of receipt of goods verification on items shipped to the school.

The school's overall fund balance as of June 30, 2025 was \$178,275.18.

The overall fund balance reported by the school at June 30, 2025 was \$178,275.18. We have determined that the financial information reported by the school reconciles with bank statements and independent bank confirmations.

The majority of transactions included in the school's internal accounts were processed in accordance with applicable policies and procedures.

We concluded that the majority of transactions included in the school's internal accounts were processed in accordance with all applicable Florida Statutes, State Board of Education rules, and policies and procedures of the School Board.

We have also determined that the instances of non-compliance noted above and elsewhere in this report do not have a material effect and are not severe enough to render the financial information unreliable.

This report contains recommendations. The Executive Summary is intended to highlight the various aspects of the report. The full report should be read to understand the basis of our recommendations. We will follow-up on these recommendations approximately 90 days after the school's exit conference.

Background

Each year, our office audits the District's schools' internal accounts. The authority to conduct these audits is granted by the School Board of Escambia County in the Charter for the Office of Internal Auditing.

School internal funds are defined in the Internal Funds Policy Manual (the Manual) as "all monies collected and disbursed by school personnel within a school, for the benefit of the school, or a school sponsored activity." As further explained in the Manual, "School internal funds shall be used to supplement activities approved by the school board when the District budgetary funds are not available or have been exhausted." More plainly, internal funds include everything from

Outside support organizations are not included in this report and are not audited by our office.

money found on campus to collections from ticket sales for athletic events.

Each year, District schools receive either a “full” audit (including all procedures listed in the Methodology section below), or a “limited” audit, where only certain procedures are performed (such as obtaining third-party confirmation for all cash and investment accounts and reconciliation of bank statements and confirmations). For the 2024-2025 fiscal year, Pine Forest received a full audit.

Outside support organizations (school booster clubs and parent teacher associations) affiliated with this school that operate independent of a school’s internal accounts **are not included** in this report and **are not audited** by the Office of Internal Auditing.

Pine Forest last received a full audit in the 2023 fiscal year. There were six matters that rose to the level of audit findings. There were findings relating to obtaining prior written approval before making purchases, proper documentation of evidence of receipt of goods, proper utilization of the credit card log, proper handling of gift card purchases, proper completion of the fundraiser reconciliation form, and exceeding the number of exemption days relating to fundraiser that include food, which were determined to addressed adequately during a subsequent follow-up audit.

The bookkeeper transferred schools in July 2025, and was subsequently replaced during the next school year.

The school’s previous bookkeeper transferred schools in July 2025, and was subsequently replaced during the next school year.

Objective

The purpose of our audit was to evaluate the accuracy, reliability, and compliance of the internal funds maintained by the school for the fiscal year ended June 30, 2025. Specifically, our objectives were to determine whether the financial information reported in the school’s internal accounts reconciled with corresponding bank statements and independent bank confirmations; whether transactions were processed in accordance with applicable Florida Statutes, State Board of Education Rules, and School Board policies and procedures; and whether any instances of non-compliance or internal control weaknesses were significant enough to impact the reliability of the reported financial information. We also sought to identify opportunities for operational improvements or enhancements to internal controls where

appropriate. This engagement also supports the District’s strategic objective of ensuring fiscal accountability at the school level.

We believe our audit provides a reasonable basis for our conclusion, findings, and recommendations.

Scope

The scope of this engagement included a full audit of the school’s internal accounts as of and for the fiscal year ended June 30, 2025. This engagement focused solely on internal funds maintained at the school level and did not include an audit of external support organizations such as PTAs or booster clubs.

Audit procedures included the examination of financial records, transaction testing, evaluation of supporting documentation, and confirmation of cash and investment balances. These procedures were designed based on an engagement-level risk assessment conducted during the planning phase, which helped guide the nature, timing, and extent of testing.

The authority to perform this audit is established by Florida Statute 1011.07, which designates the School Board as responsible for the administration and control of internal accounts, and by the Redbook, which requires an annual audit of those accounts. While each school principal is responsible for maintaining their school’s internal accounts, District management retains oversight of internal account policies and the preparation of year-end financial statements.

Methodology

Based on a rotating audit schedule, each year District schools receive either a “full” audit (including extensive testing of transactions), or a “limited” audit, where only certain procedures are performed (such as obtaining third-party confirmation for all cash and investment accounts and reconciliation of bank statements and confirmations). For the year ended June 30, 2025, twenty schools were selected for “full” audits.

The audit consists of three phases: planning, fieldwork, and reporting.

Each individual school audit consists of three phases: planning, fieldwork, and reporting.

No known conflicts of interest were identified.

Control risk for Pine Forest has been assessed at moderate.

For our purposes, exceptions of greater than or equal to 20% of the total population may exist before an audit finding is issued.

The planning phase includes steps taken by the auditor to familiarize himself or herself with the school, and to determine their approach to the audit. An independence statement is completed for each school. This statement contains the signature of each auditor certifying that there are no conflicts of interest and that they are free from bias. The internal audit team affirms that this engagement was conducted independently and objectively. **No impairments to independence or objectivity were identified.** An engagement-level risk assessment was conducted to identify and evaluate potential risks relevant to the school's internal funds. This included consideration of the school's prior audit history, recent staffing changes, the overall complexity of financial operations, and known or suspected control weaknesses. Based on this assessment, control risk for the school was determined to be moderate, and standard audit procedures were applied accordingly. If control risk is assessed at a level higher than moderate, additional procedures may be performed. The engagement risk assessment informed the development of our audit program, including the nature, timing, and extent of procedures necessary to provide reasonable assurance regarding the reliability of the school's financial information and compliance with applicable statutes, rules, and Board policies.

The fieldwork phase involves the application of testing procedures to the financial records of the school. While performing our testing, a percentage of transactions is allowed to contain compliance violations before it is determined to be an audit finding. For our purposes, an audit finding is a recurring issue that is present in greater than or equal to 20% of the sample. In addition, due to seriousness or materiality, a single compliance violation could also result in an audit finding. Upon the completion of fieldwork, exit conferences to discuss the results of the audit are conducted with principals and secretaries/bookkeepers, if necessary.

Finally, the reporting phase consists of communicating the results of the audit to the relevant parties in an easily readable and understandable format. Each phase consists of specific steps taken to ensure an audit is done in accordance with professional standards and currently accepted practices. Financial information from full audits is combined with information from limited audits and compiled into a District-Wide Report on Internal Accounts.

Detailed Results

Summary of Fund Activity		
07/01/24 Cash Balance	\$	115,972.91
Total Receipts		439,313.67
Total Disbursements		(168,543.21)
Total Net Journal Entries		(208,468.19)
06/30/25 Balance, per Skyward	\$	178,275.18
Audit Adjustments		-
06/30/25 Audited Balance	\$	178,275.18
06/30/25 Cash Balance, per Confirmation(s)	\$	197,096.96
Outstanding Deposits		-
Outstanding Checks		(19,097.77)
Other Reconciling Items		275.99
06/30/25 Reconciled Balance	\$	178,275.18

General Ledger Review

Throughout the year and prior to the school's closing of their records at year end, we may review various reports, transactions, and supporting documentation of the school. The purpose of this review is to recommend adjusting journal entries, reclassifications, or other necessary actions which we feel will result in more accurate reporting and/or compliance with established rules, policies, and procedures. Any recommended entries or actions are traditionally completed prior to the close of the school's records and are therefore included in the reported June 30 financial information, unless otherwise indicated.

Five adjusting journal entries were recommended.

As a result of our fieldwork, five additional adjusting journal entries were recommended:

- To correct the improper posting of a boys' basketball expense, we recommended a journal entry be processed for \$80.00.
- To correct the improper posting of a boys' basketball expense, we recommend a journal entry be processed for \$34.50.
- To correct the improper posting of Florida Orchestra Association Membership, we recommend a journal entry be processed for \$188.50.
- To correct the improper posting of vending commissions, we recommend a journal entry be processed for \$2,681.95.
- To transfer the remaining balance in the Senior account to the General Fund, we recommend a journal entry be processed for \$288.41.

Minor instances of non-compliance are documented in the audit field notes.

After fieldwork, but prior to the issuance of this report, the school implemented our recommendations to process all journal entries mentioned above.

During our fieldwork, we noted minor instances of non-compliance, which are not included in this report. We documented these matters in our audit field notes, which were provided to the bookkeeper and principal.

Findings

Prior Written Approval

One finding related to lack of prior written approval.

Our testing indicated purchases were made prior to the principal's written approval date, as evidenced on the approval forms for both check requests and credit card purchase requests.

The Internal Funds Policy Manual gives specific guidelines regarding the prior approval of purchases. Section VIII, A.1 of the Manual states, "All disbursements require **prior written approval** of the Principal or his/her designated representative. 'Prior written approval' may consist of a properly completed Purchase Requisition/Request for Purchase Order. This must be done **BEFORE** the item is ordered and funds are obligated." In the case of credit card purchases, the Request Purchase Utilizing Purchasing Card approval form should be used.

This is a repeat audit finding from 2022-2023.

See our recommendation in the Recommendations section below.

Request for Purchase forms

One finding related to the improper completion of RFPs

Our testing indicated Request for Purchase forms were not properly completed or present.

The Internal Funds Policy Manual, Section VIII, D.1, states, "No disbursement shall be made without the prior written approval of the Principal.... 'Prior approval' may consist of a **properly completed** Purchase Requisition/Request for Purchase Order form (RFP)." A properly completed RFP includes fields such as the account name and/or number to be charged and the teacher/sponsor signature.

See our recommendation in the Recommendations section below.

Evidence of Receipt of Goods

One finding related to lack of evidence of receipt of goods.

Our testing indicated invoices/packing slips used as supporting documentation for expenditures did not include evidence indicating receipt of goods. This evidence would include a signature and initials indicating verification of the quantity of the items ordered, and a date indicating when the goods were received.

One finding related to the improper completion of the Monthly Log Report.

The Internal Funds Policy Manual gives specific guidelines regarding documentation for expenditures. Section VIII, D.4, (e) of the Manual states, “When the items purchased are received, the goods should be checked to ensure the items are correct and not damaged. The person receiving the items should initial and date the receiving slip or invoice to document their review and that all items ordered were received.”

This is a repeat audit finding from 2022-2023.

See our recommendation in the Recommendations section below.

Monthly Log Report – Proper Completion

Our testing indicated the Monthly Log Report was not properly completed and maintained.

The Internal Funds Policy Manual provides specific guidelines to be followed for the receipt of monies. As an internal control, at the end of each month, the secretary/bookkeeper is to provide a general ledger of each account to the account sponsors. These reports give the opportunity for those remitting monies to review their accounts on a timely basis for any discrepancies or posting errors. As evidence of this procedure, the account sponsor is to initial a Monthly Log Report.

The District has established an internal control whereby account sponsors are to review their account activity each month, and attest to each account’s completeness and accuracy by initialing a monthly account log. It is clear that the individual accounts did not contain all financial activity; however, the monthly log was completed by the account sponsors. It does not appear that the accounts were effectively monitored.

See our recommendation in the Recommendations section below.

Conclusion

As part of this engagement, our responsibility is to form a conclusion regarding whether transactions recorded in the school’s internal accounts complied with applicable Florida Statutes, State Board of Education rules, and School Board policies and procedures, and whether the school’s financial records reconciled with corresponding bank statements and independent bank confirmations. In conducting this evaluation, we also assessed the adequacy and effectiveness of internal controls relevant to the administration of internal funds.

The majority of the school's transactions were processed in accordance with all applicable policies and procedures

The financial information reconciled with bank statements and independent confirmations.

Based on the procedures performed, we conclude that, for schools where a full audit was conducted, the majority of transactions were consistent with applicable Florida Statutes, State Board of Education rules, and policies and procedures of the School Board. Additionally, the financial records reconciled appropriately with independent bank confirmations and bank statements. In our evaluation, we determined the internal controls established by the District appear comprehensive, adequate, and effective in supporting the proper management of internal funds.

While we identified some areas that present opportunities for strengthening internal controls, increasing operating efficiencies, and/or assuring compliance with applicable laws, rules, regulations, policies and/or procedures, these matters were not significant enough to affect the overall reliability of the school's reported financial information.

These observations, along with related recommendations for improvement, are detailed in the Detailed Results section of this report.

Recommendations

Review and instruct staff on policies and procedures related to prior written approval for expenditures.

Prior Written Approval

In an effort to address purchases made prior to receiving written approval from the principal/designee, **we recommend the principal and the bookkeeper review the Internal Funds Policy Manual and instruct staff on the proper procedures of obtaining prior written approval for expenditures.**

Risk Prioritization: 1 of 4

Risk Significance: Moderate

Review policies and procedures related to the proper completion of RFPs.

Request for Purchase Forms

In an effort to address the improper completion or lack of RFPs, **we recommend the principal and bookkeeper review the Internal Funds Policy Manual and instruct staff on the proper completion of the forms.**

Risk Prioritization: 2 of 4

Risk Significance: Moderate

Receipt of Goods

Review and instruct staff on policies and procedures related to evidence required to indicate receipt of goods.

In an effort to address the lack of proper evidence for receipt of goods, **we recommend the principal and bookkeeper review the Internal Funds Policy Manual and instruct staff on the proper procedure of documenting receipt of goods.**

Risk Prioritization: 3 of 4
Risk Significance: Moderate

Review and instruct staff on policies and procedures related to the Monthly Log Report.

Monthly Log Report

In an effort to address the lack of utilizing a Monthly Log Report, **we recommend the principal and bookkeeper review the Internal Funds Policy Manual and instruct staff on the proper utilization and maintenance of a Monthly Log Report.** In an effort to address proper procedures related to the Monthly Log Report **we recommend the principal and bookkeeper review the Internal Funds Policy Manual and instruct staff on the proper procedures related to the Monthly Log Report.**

Risk Prioritization: 4 of 4
Risk Significance: Moderate

We will follow-up on these recommendations approximately 90 days after the school's exit conference.

Subject: Management Response, Audit of School Internal Accounts

As a result of the four findings from the school's internal audit, the following procedures have been implemented as corrective measures.

1. **Prior Written Approval:** The principal and bookkeeper have met and reviewed the procedures currently in place. Moving forward, if all information required on the Purchase Order Request has not been filled in, the form will be returned to the requesting party. Once all required information has been provided by the requesting party and funds are available and have been verified by the bookkeeper, the form will be submitted to the principal for approval.
2. **Request for Purchase Forms:** The principal and bookkeeper have met and reviewed the procedures currently in place. Moving forward, if all information required on the Purchase Order Request has not been filled in, the form will be returned to the requesting party. Once all required information has been provided by the requesting party and funds are available and have been verified by the bookkeeper, the form will be submitted to the principal for approval. Upon return from the winter break in January, there will be staff training on the steps for submitting the RFPs in addition to all of the required documentation.
3. **Receipt of Goods:** The principal and bookkeeper have met and reviewed the procedures currently in place for the receiving of packages. It was determined that a change in procedure was needed and has since been implemented. Once packages have been delivered, they will be placed in the administrative suite. The bookkeeper will then check all packages for purchases made through her office of internal funds. As those packages are verified, the bookkeeper will open the packages, verify receipts of goods, and then make a copy of the invoice. The bookkeeper will then notify the purchasing party to pick-up their items and initial the invoice for her record.

<http://www.pfhseagles.com>

Melanie McElhaney, Principal

Latasha Jordan, Assistant Principal
Emily King, Assistant Principal

4. **Monthly Log Report:** The principal and bookkeeper have met and reviewed the procedures currently in place for dispersing and signing for monthly log reports. It was determined that a change in procedure was needed and has since been implemented. The bookkeeper now sends an email (at the end of the month) to all internal account holders informing them to come to her office. There they will sign the log signifying that they have not only received their monthly log report, but they have also reviewed it and asked the bookkeeper any clarifying questions they may have. At this time, each internal account holder will be made aware of their account balance.

If there are any additional steps that you feel will be helpful in correcting these audit findings, please do not hesitate to contact me or my bookkeeper. We are open to any and all suggestions in order to make these processes more efficient and in compliance.

Appendix

Risk Rating	Criteria
High	Significant internal control or risk management concern that if not corrected or mitigated could lead to serious consequences. Immediate attention from Escambia County School District personnel required.
Moderate	Minor procedural lapses, internal control gaps, and/or failure of defined controls which could lead adverse impacts. Timely attention from Escambia County School District personnel is warranted.
Low	Recommendation may lead to improvement in the quality and/or efficiency of the process or area audited, or conformance to best practices. Routine attention from Escambia County School District personnel is warranted.

The IIA's 2024 Global Internal Audit Standards requires internal auditors to "prioritize each engagement finding based on its significance, using methodologies established by the chief audit executive."

**Agenda Item Details**

Meeting	Dec 16, 2025 - REGULAR MEETING AGENDA (5:30 PM)
Category	45. Internal Auditing
Subject	A. 2024-2025 School Internal Accounts Audit Reports
Type	Action, Reports
Fiscal Impact	No
Budgeted	No
Recommended Action	Acceptance of the 2024-2025 school internal accounts audit reports.

Each year, we audit the internal accounts of the schools. As part of this process, a sample of schools receive audits with full procedures (financial and compliance), with the remaining schools receiving audits with limited procedures. Audits receiving full procedures are presented to the Board individually. These reports have been presented to and accepted by the Audit Committee, a standing committee of the Board. The reports are being presented to the Board for their review and entry into the minutes.
