

Escambia County
PUBLIC SCHOOLS

Oakcrest Elementary School
Audit of School Internal Accounts
For the year ended June 30, 2025

Office of Internal Auditing
October 2025

McKenzie Lane, CFE
Director – Internal Auditing

Audit Team:
Sara Heuer
Audit Intern

Preface

The Office of Internal Auditing serves to improve the fiscal accountability and enhance the public's perception of the management and operations of the Escambia County School District. This engagement strives to meet those objectives and align with the District's strategic goals by ensuring effective stewardship of internal funds.

Audits, reviews, and other engagements are determined through a District-wide risk assessment process and are incorporated into the annual work plan of the Office of Internal Auditing, as approved by the Audit Committee. Other assignments are also undertaken at the request of District management.

This engagement was conducted with the full cooperation of Oakcrest Elementary School staff and other District personnel.

Any recommendations included in this engagement are designed to improve operations and serve as the basis for informed discussions related to policies and procedures.

This engagement was conducted in accordance with the 2024 Global Internal Audit Standards issued by the Institute of Internal Auditors, which establish the principles and expectations for the professional practice of internal auditing.

We thank the principals, assistant principals, bookkeepers, secretaries, and various support personnel throughout the District for their cooperation and commitment.

Executive Summary

Oakcrest received a full audit for the 2024-2025 fiscal year.

Our office audits the internal accounts of the District's schools annually. The authority to conduct these audits is granted by the School Board of Escambia County in the Charter for the Office of Internal Auditing.

These audits are conducted on a rotating basis with a sample of schools receiving "full" audits each year, and the other schools receiving "limited" audits. For each full audit, extensive testing procedures are applied to internal funds accounts. Limited audits include cash procedures and reconciliation to independent bank confirmations. For the 2024-2025 fiscal year, Oakcrest Elementary School (Oakcrest) received a full audit. This report documents the results of the audit.

The purpose of our audit was to determine whether the financial information reported in the internal accounts reconciles with bank statements and corresponding independent bank confirmations, and to determine compliance of transactions included in those same internal accounts with the governing provisions of Florida Statutes, State Board of Education rules, and policies and procedures of the School Board. We also sought to determine whether any instances of non-compliance were severe enough to render the financial information reported by the school unreliable. We believe our audit provides a reasonable basis for our conclusion, findings, and recommendations. This engagement adds value by promoting sound financial management, supporting compliance with policies and laws, and strengthening accountability at the school level.

One adjusting journal entry was recommended.

Our audit procedures indicated matters that required adjustment of the school's records. One journal entry was necessary:

- To transfer the remaining balance of the Graduated Seniors account to the General account.

This journal entry was processed by the bookkeeper in the following school year.

Minor instances of non-compliance are documented in the audit field notes.

We noted some minor instances of violation of Board Policies and Florida Statutes. These matters were documented and provided to the principal and bookkeeper.

Our testing resulted in three audit findings.

Our testing resulted in three audit findings:

- Fundraiser Request/Reconciliation Forms were not properly completed.

The school's overall fund balance as of June 30, 2025 was \$13,965.81.

The majority of transactions included in the school's internal accounts were processed in accordance with applicable policies and procedures.

- Request Purchase Utilizing Purchasing Card forms were not properly completed.
- There was no evidence of receipt of goods verification on items shipped to the school.

The overall fund balance reported by the school at June 30, 2025 was \$13,965.81. We have determined that the financial information reported by the school reconciles with bank statements and independent bank confirmations.

We concluded that the majority of transactions included in the school's internal accounts were processed in accordance with all applicable Florida Statutes, State Board of Education rules, and policies and procedures of the School Board.

We have also determined that the instances of non-compliance noted above and elsewhere in this report do not have a material effect and are not severe enough to render the financial information unreliable.

This report contains recommendations. The Executive Summary is intended to highlight the various aspects of the report. The full report should be read to understand the basis of our recommendations. We will follow-up on these recommendations approximately 90 days after the school's exit conference.

Background

Each year, our office audits the District's schools' internal accounts. The authority to conduct these audits is granted by the School Board of Escambia County in the Charter for the Office of Internal Auditing.

School internal funds are defined in the Internal Funds Policy Manual (the Manual) as "all monies collected and disbursed by school personnel within a school, for the benefit of the school, or a school sponsored activity." As further explained in the Manual, "School internal funds shall be used to supplement activities approved by the school board when the District budgetary funds are not available or have been exhausted." More plainly, internal funds include everything from money found on campus to collections from ticket sales for athletic events.

Each year, District schools receive either a "full" audit (including all procedures listed in the Methodology section below), or a "limited" audit, where only certain procedures are performed (such as obtaining

Outside support organizations are not included in this report and are not audited by our office.

third-party confirmation for all cash and investment accounts and reconciliation of bank statements and confirmations). For the 2024-2025 fiscal year, Oakcrest received a full audit.

Outside support organizations (school booster clubs and parent teacher associations) affiliated with this school that operate independent of a school's internal accounts **are not included** in this report and **are not audited** by the Office of Internal Auditing.

Oakcrest last received a full audit in the 2023-2024 fiscal year. There were eight matters that rose to the level of audit findings. There were findings related to the proper completion of the Request Purchase Utilizing Purchasing Card form, proper utilization of the Fundraising Log, proper completion of check signatures, proper completion of MCFs, proper completion of the Fundraiser Request/Reconciliation Forms, proper use of the Purchasing Card Log, proper use of prior written approval, and proper utilization of Request for Purchase Forms for disbursements, which were determined to be addressed adequately during a subsequent follow-up audit.

The bookkeeper left the district in July 2025, and was subsequently replaced during the next school year.

The school has had the same principal in place since the previous audit. The school's previous bookkeeper accepted a job outside of the district in July 2025, and was subsequently replaced during the next school year.

Objective

The purpose of our audit was to evaluate the accuracy, reliability, and compliance of the internal funds maintained by the school for the fiscal year ended June 30, 2025. Specifically, our objectives were to determine whether the financial information reported in the school's internal accounts reconciled with corresponding bank statements and independent bank confirmations; whether transactions were processed in accordance with applicable Florida Statutes, State Board of Education Rules, and School Board policies and procedures; and whether any instances of non-compliance or internal control weaknesses were significant enough to impact the reliability of the reported financial information. We also sought to identify opportunities for operational improvements or enhancements to internal controls where appropriate. This engagement also supports the District's strategic objective of ensuring fiscal accountability at the school level.

We believe our audit provides a reasonable basis for our conclusion, findings, and recommendations.

Scope

The scope of this engagement included a full audit of the school's internal accounts as of and for the fiscal year ended June 30, 2025. This engagement focused solely on internal funds maintained at the school level and did not include an audit of external support organizations such as PTAs or booster clubs.

Audit procedures included the examination of financial records, transaction testing, evaluation of supporting documentation, and confirmation of cash and investment balances. These procedures were designed based on an engagement-level risk assessment conducted during the planning phase, which helped guide the nature, timing, and extent of testing.

The authority to perform this audit is established by Florida Statute 1011.07, which designates the School Board as responsible for the administration and control of internal accounts, and by the Redbook, which requires an annual audit of those accounts. While each school principal is responsible for maintaining their school's internal accounts, District management retains oversight of internal account policies and the preparation of year-end financial statements.

Methodology

The audit consists of three phases: planning, fieldwork, and reporting.

No known conflicts of interest were identified.

Based on a rotating audit schedule, each year District schools receive either a "full" audit (including extensive testing of transactions), or a "limited" audit, where only certain procedures are performed (such as obtaining third-party confirmation for all cash and investment accounts and reconciliation of bank statements and confirmations). For the year ended June 30, 2025, 20 schools were selected for "full" audits.

Each individual school audit consists of three phases: planning, fieldwork, and reporting.

The planning phase includes steps taken by the auditor to familiarize himself or herself with the school, and to determine their approach to the audit. An independence statement is completed for each school. This statement contains the signature of each auditor certifying that there are no conflicts of interest and that they are free from bias. The internal audit team affirms that this engagement was conducted independently and objectively. **No impairments to independence or**

Control risk for Oakcrest has been assessed at moderate.

For our purposes, exceptions of greater than or equal to 20% of the total population may exist before an audit finding is issued.

objectivity were identified. An engagement-level risk assessment was conducted to identify and evaluate potential risks relevant to the school's internal funds. This included consideration of the school's prior audit history, recent staffing changes, the overall complexity of financial operations, and known or suspected control weaknesses. Based on this assessment, control risk for the school was determined to be moderate, and standard audit procedures were applied accordingly. If control risk is assessed at a level higher than moderate, additional procedures may be performed. The engagement risk assessment informed the development of our audit program, including the nature, timing, and extent of procedures necessary to provide reasonable assurance regarding the reliability of the school's financial information and compliance with applicable statutes, rules, and Board policies.

The fieldwork phase involves the application of testing procedures to the financial records of the school. While performing our testing, a percentage of transactions is allowed to contain compliance violations before it is determined to be an audit finding. For our purposes, an audit finding is a recurring issue that is present in greater than or equal to 20% of the sample. In addition, due to seriousness or materiality, a single compliance violation could also result in an audit finding. Upon the completion of fieldwork, exit conferences to discuss the results of the audit are conducted with principals and secretaries/bookkeepers, if necessary.

Finally, the reporting phase consists of communicating the results of the audit to the relevant parties in an easily readable and understandable format. Each phase consists of specific steps taken to ensure an audit is done in accordance with professional standards and currently accepted practices. Financial information from full audits is combined with information from limited audits and compiled into a District-Wide Report on Internal Accounts.

Detailed Results

Summary of Fund Activity		
07/01/24 Cash Balance	\$	12,751.86
Total Receipts		13,654.94
Total Disbursements		(8,105.59)
Total Net Journal Entries		(4,335.40)
06/30/25 Balance, per Skyward	\$	13,965.81
Audit Adjustments		-
06/30/25 Audited Balance	\$	13,965.81
06/30/25 Cash Balance, per Confirmation(s)	\$	13,965.81
Outstanding Deposits		-
Outstanding Checks		-
Other Reconciling Items		-
06/30/25 Reconciled Balance	\$	13,965.81

General Ledger Review

Throughout the year and prior to the school's closing of their records at year end, we may review various reports, transactions, and supporting documentation of the school. The purpose of this review is to recommend adjusting journal entries, reclassifications, or other necessary actions which we feel will result in more accurate reporting and/or compliance with established rules, policies, and procedures. Any recommended entries or actions are traditionally completed prior to the close of the school's records and are therefore included in the reported June 30 financial information, unless otherwise indicated.

One adjusting journal entry was recommended.

As a result of our fieldwork, one additional adjusting journal entry was recommended:

- To transfer the remaining balance of the Graduated Seniors account to the General account.

During field work, the school implemented our recommendation to process the journal entry mentioned above.

Minor instances of non-compliance are documented in the audit field notes.

During our fieldwork, we noted minor instances of non-compliance, which are not included in this report. We documented these matters in our audit field notes, which were provided to the bookkeeper and principal.

One finding related to improper completion of the FRR forms.

Findings

Fundraiser Request/Reconciliation Forms – Proper Completion

Our testing indicated Fundraiser Request/Reconciliation (FRR) forms were not properly completed or present.

Chapter 8 Section III, 4.3 of the State Board of Education Rules states all fundraisers shall be planned to finance a specific objective and have the approval of the organization sponsor and the principal. In addition, the principal shall maintain control over the activity. The requirements of this rule are met through the proper completion of the Fundraising Request/Reconciliation Form.

The Fundraising Guidelines Handbook approved by the School Board explains the use of the Fundraising Request/Reconciliation Form. The Handbook states, “Completing Section I of this form will document the authorization of the fundraiser...At the conclusion of your fundraiser, complete Section II of the Fundraising Request/Reconciliation Form...Review school internal funds reports to verify accuracy of postings to your account...Evaluate the success of your fundraising activity.”

This is a repeat audit finding from 2023-2024.

This is a repeat audit finding from 2022-2023.

See our recommendation in the Recommendations section below.

One finding related to improper completion of purchasing card forms.

Request Purchase Utilizing Purchasing Card forms

Our testing indicated Request Purchase Utilizing Purchasing Card forms were not properly completed.

The Internal Funds Policy Manual gives specific guidelines regarding documentation for internal funds credit card purchases. Section VIII, E.2 (b), (f) of the Manual states, “All purchases must be listed on the Request Purchase Utilizing Purchasing Card form and approved by the Principal prior to the purchase...If another person is making an order over the internet or phone then the ‘Authorization to Assign to Another Person to Make this Purchase’ section must be filled out and signed by the cardholder... this can be for multiple vendors for one project (i.e. 5th Grade Banquet, Band Trip, etc.).” In addition, the account name/number to be charged and the requestor’s signature are expected to be completed.

This is a repeat audit finding from 2023-2024.

See our recommendation in the Recommendations section below.

Evidence of Receipt of Goods

One finding related to lack of evidence for RFPs.

Our testing indicated invoices/packing slips used as supporting documentation for expenditures did not include evidence indicating receipt of goods. This evidence would include a signature and initials indicating verification of the quantity of the items ordered, and a date indicating when the goods were received.

The Internal Funds Policy Manual gives specific guidelines regarding documentation for expenditures. Section VIII, D.4, (e) of the Manual states, “When the items purchased are received, the goods should be checked to ensure the items are correct and not damaged. The person receiving the items should initial and date the receiving slip or invoice to document their review and that all items ordered were received.”

This is a repeat finding from 2022-2023.

See our recommendation in the Recommendations section below.

Conclusion

The majority of the school’s transactions were processed in accordance with all applicable policies and procedures

The financial information reconciled with bank statements and independent confirmations.

As part of this engagement, our responsibility is to form a conclusion regarding whether transactions recorded in the school’s internal accounts complied with applicable Florida Statutes, State Board of Education rules, and School Board policies and procedures, and whether the school’s financial records reconciled with corresponding bank statements and independent bank confirmations. In conducting this evaluation, we also assessed the adequacy and effectiveness of internal controls relevant to the administration of internal funds.

Based on the procedures performed, we conclude that, for schools where a full audit was conducted, the majority of transactions were consistent with applicable Florida Statutes, State Board of Education rules, and policies and procedures of the School Board. Additionally, the financial records reconciled appropriately with independent bank confirmations and bank statements. In our evaluation, we determined the internal controls established by the District appear comprehensive, adequate, and effective in supporting the proper management of internal funds.

While we identified some areas that present opportunities for strengthening internal controls, increasing operating efficiencies, and/or assuring compliance with applicable laws, rules, regulations, policies and/or procedures, these matters were not significant enough to affect the overall reliability of the school’s reported financial information.

These observations, along with related recommendations for improvement, are detailed in the Detailed Results section of this report.

Recommendations

Review and instruct staff on policies and procedures related to fundraising forms.

Fundraising Request/Reconciliation Forms

In an effort to address the improper completion or lack of Fundraising Request/Reconciliation forms, **we recommend the principal and bookkeeper review the Internal Funds Policy Manual and instruct staff on the policies and procedures associated with fundraising activities.**

Risk Prioritization: 3 of 3

Risk Significance: Moderate

Review and instruct staff on policies and procedures related to proper completion of purchasing card forms.

Request Purchase Utilizing Purchasing Card Forms

In an effort to address the improper completion or lack of purchasing card forms, **we recommend the principal and bookkeeper review the Internal Funds Policy Manual and instruct school staff on the proper procedures related to credit card purchases, including prior written approval.**

Risk Prioritization: 1 of 3

Risk Significance: Moderate

Review and instruct staff on policies and procedures related to evidence required to indicate receipt of goods.

Receipt of Goods

In an effort to address the lack of proper evidence for receipt of goods, **we recommend the principal and bookkeeper review the Internal Funds Policy Manual and instruct staff on the proper procedure of documenting receipt of goods.**

Risk Prioritization: 2 of 3

Risk Significance: Moderate

We will follow-up on these recommendations approximately 90 days after the school's exit conference.

November 17, 2025

Dear Ms. McKenzie Lane,

This letter is to address the audit findings for Oakcrest Elementary for the 2024-2025 school year along with a plan of action to correct the findings in the future.

FINDINGS/ACTION PLAN:

1. Fundraiser Request/Reconciliation Forms – Proper Completion
 - a. Finding: Testing indicated Fundraiser Request/Reconciliation (FRR) forms were not properly completed or present.
 - b. Plan of Action: Train staff on proper completion and refer to the Fundraising Guidelines Handbook if there are any questions. (Section II)
2. Request Purchase Utilizing Purchasing Card forms
 - a. Finding: Testing indicated Request Purchase Utilizing Purchasing Card forms were not properly completed.
 - b. Plan of Action: Train staff on proper completion and refer to the Internal Funds Policy Manual if there are any questions (Section VIII, E.2 (b), (f))
3. Evidence of Receipt of Goods
 - a. Finding: Testing indicated invoices/packing slips used as supporting documentation for expenditures did not include evidence indicating receipt of goods.
 - b. Plan of Action: Train staff on proper completion and refer to the Internal Funds Policy Manual (Section VIII, D.4, (e))

We will continue to do due diligence in training staff.

Sincerely,

Dawn Turley
Oakcrest Principal

Appendix

Risk Rating	Criteria
High	Significant internal control or risk management concern that if not corrected or mitigated could lead to serious consequences. Immediate attention from Escambia County School District personnel required.
Moderate	Minor procedural lapses, internal control gaps, and/or failure of defined controls which could lead adverse impacts. Timely attention from Escambia County School District personnel is warranted.
Low	Recommendation may lead to improvement in the quality and/or efficiency of the process or area audited, or conformance to best practices. Routine attention from Escambia County School District personnel is warranted.

The IIA's 2024 Global Internal Audit Standards requires internal auditors to "prioritize each engagement finding based on its significance, using methodologies established by the chief audit executive."

**Agenda Item Details**

Meeting	Dec 16, 2025 - REGULAR MEETING AGENDA (5:30 PM)
Category	45. Internal Auditing
Subject	A. 2024-2025 School Internal Accounts Audit Reports
Type	Action, Reports
Fiscal Impact	No
Budgeted	No
Recommended Action	Acceptance of the 2024-2025 school internal accounts audit reports.

Each year, we audit the internal accounts of the schools. As part of this process, a sample of schools receive audits with full procedures (financial and compliance), with the remaining schools receiving audits with limited procedures. Audits receiving full procedures are presented to the Board individually. These reports have been presented to and accepted by the Audit Committee, a standing committee of the Board. The reports are being presented to the Board for their review and entry into the minutes.
