Edwin Jarnagin, Director of Schools

January 23, 2026

Parents and/or Guardians:

The schoolwork included in this packet is intended for future virtual days, **if needed**. In the event our school system is closed for an extended period due to inclement weather, the information in this packet may be used for virtual instruction. Please keep this packet and save it for that purpose.

The Tennessee Department of Education allows school systems to use a limited number of virtual days. On a virtual day, students will be assigned activities for each class and will complete those activities at home.

Although Rogersville City School still has remaining inclement weather days, your child is bringing home a packet of work to be used if a virtual day is needed in the future.

RCS staff will report to work on virtual days unless instructed otherwise.

The school system alert system and the RCS website will alert you **if the day is a virtual day**. Please remember to monitor the RCS website, any messages sent by your child's teacher, the local media, and the RCS call-home system for updates regarding weather-related school operational changes.

Thank you for your cooperation and support.

Sincerely,

Edwin Jarnagin
Director
