What Are A-G Requirements?

A-G COURSE LIST

Brought to you by

- The University of California (UC) and California State University (CSU) systems require entering freshmen to complete certain courses in high school. These courses are called the **“A-G” requirements** because of the letter each subject area is assigned: “A” is for History/Social Science, “B” is for English, and so on.
- Many out of state and private colleges and universities also require classes very similar to A-G
- While any student wishing to enter a four-year public college in the State of California must meet the “A-G” standard; knowledge acquired through the “A-G” curriculum is now a prerequisite for many employment positions that had far less stringent requirements a generation or two ago.

Almost all of Skyline’s classes count as A-G!

12thG: there should not be any numbers in the “credits needed box, meaning you are signed up for everything you need to graduate.

Ignore these prompts as they are often incorrect

It is normal to have numbers in the “credits enrolled” box, it indicates the classes you are currently enrolled in.
