2024-2025 School Accountability Report Card (Published During the 2025-2026 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

Admission Requirements for the University of California (UC)

Admission requirements for the UC follow guidelines set forth in the Master Plan, which requires that the top one-eighth of the state's high school graduates, as well as those transfer students who have successfully completed specified college course work, be eligible for admission to the UC. These requirements are designed to ensure that all eligible students are adequately prepared for University-level work. For general admissions requirements, please visit the UC Admissions Information website at <https://admission.universityofcalifornia.edu/>.

Admission Requirements for the California State University (CSU)

Eligibility for admission to the CSU is determined by three factors: (1) Specific high school courses, (2) Grades in specified courses and test scores, and (3) Graduation from high school. Some campuses have higher standards for particular majors or students who live outside the local campus area. Because of the number of students who apply, a few campuses have higher standards (supplementary admission criteria) for all applicants. Most CSU campuses have local admission guarantee policies for students who graduate or transfer from high schools and colleges that are historically served by a CSU campus in that region. For admission, application, and fee information, see the CSU website at <https://www2.calstate.edu/>.

2025-26 School Description and Mission Statement

PLEASANT VALLEY SCHOOL OF ENGINEERING AND ARTS Mission Statement:

PVSEA staff will collaborate to create a community of learners who are challenged to reach their highest potential. Our academic program is based on the California State Standards infused with Science, Technology, Engineering, Arts, and Math (STEAM). Instruction engages students in exploratory project-based learning. Coursework enables them to make decisions, develop positive communication skills, and foster social responsibility in their community.

PLEASANT VALLEY SCHOOL OF ENGINEERING AND ARTS Vision Statement:

PVSEA students will be highly literate, inquisitive individuals with the ability to use knowledge and acquire information to

2025-26 School Description and Mission Statement

problem solve. Students will be effective communicators, creative, critical thinkers, and risk-takers who engage in lifelong learning and are empowered to achieve personal, educational and career success in a global society

Pleasant Valley School of Engineering and Arts is a neighborhood school that opened its doors in 1965. The school changed its name from El Descanso to Pleasant Valley School of Engineering and Arts during the 2015-2016 school year. The school relocated to 550 Temple Avenue (Early Education Center / grades PK-K) and 700 Temple Avenue (Main Campus / grades 1-8) and serves approximately 660 students in grades Pre-Kindergarten through eighth grade. Its facilities and grounds are in excellent condition. Teachers are committed to rigorous instruction and assessment and student progress is regularly monitored, discussed, and intervention or enrichment are provided. The school has formed partnerships with multiple community organizations and businesses. The Makerspace serves as a place where students can explore, tinker and build. The MakerSpace is well stocked with various robots, drones, iPads, and a 3-D printer. A kiln and a performing stage also enhance students' learning experiences. Technology is used to enhance teaching and learning. Students in grades K-8 utilize Chromebooks at a ratio of 1:1 with a Chromebook for each student. Sixth, seventh, and eighth grade students have been issued Chromebooks that they take to and from home and school. PK, TK and K utilize iPads daily. School staff utilizes CHAMPS, Responsive Classroom and Restorative Justice techniques to reinforce positive behavior expectations.

A. Conditions of Learning **State Priority: Basic**

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair.

2025-26 Quality, Currency, Availability of Textbooks and Other Instructional Materials

Instructional Materials (School Year 2025-26)

The school district held a public hearing on October 16, 2025 and determined that each school within the district had sufficient and good quality textbooks, instructional materials, or science lab equipment pursuant to the settlement of Williams vs. the State of California. All students, including English learners, are given their own individual standards-aligned textbooks or instructional materials, or both, in core subjects for use in the classroom and to take home.

Textbooks and supplementary materials are adopted according to a cycle developed by the California Department of Education, making the textbooks used in the school the most current available. Materials approved for use by the State are reviewed by all teachers and a recommendation is made to the School Board by a selection committee composed of teachers and administrators. All recommended materials are available for parent examination at the district office prior to adoption

School Facility Conditions and Planned Improvements

School Facilities

Pleasant Valley School of Engineering and Arts was originally constructed in 1962 and is comprised of 24 permanent classrooms, seven portable classrooms, a gymnasium, two locker rooms, a library, a digital production room, a Makerspace, a staff lounge, a science lab, a playground, grass areas, and sports fields. The Early Education Center was originally constructed in 1961 and is comprised of 18 permanent classrooms, one portable classroom, one multipurpose room, an OT lab, a staff lounge, and three playgrounds.

Cleaning Process

The main campus' two part-time custodians (equal to 1.625 FTE) ensure that the cleaning of the school is maintained to provide a clean and safe school, while the early education center's two part-time custodians (equal to 1.25 FTE) are responsible for maintaining the same on their campus.

Maintenance and Repair

District maintenance staff ensure that repairs necessary to keep the school and early education center in good condition and work orders are completed in a timely manner. A work order process is used to ensure efficient service and highest priority is given to emergency repairs.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

College and Career Ready

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

ELA and mathematics test results include the Smarter Balanced Summative Assessments and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

Subject	School 2023-24	School 2024-25	District 2023-24	District 2024-25	State 2023-24	State 2024-25

2024-25 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus

the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

B. Pupil Outcomes

State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

2024-25 California Physical Fitness Test Participation Rates

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. The administration of the PFT requires only participation results for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2025-26 Opportunities for Parental Involvement

The PVSEA PTA works closely with the staff, providing hands-on support for the classrooms and school as well as financial assistance for many enrichment programs. Parents/caregivers have the opportunity to serve on several committees such as the Parent Teacher Association (PTA), School Site Council (SSC), English Learner Advisory Committee (ELAC), and District English Learner Advisory Committee (DELAC) so as to provide input on school programs as well as on budget expenditures. PVSEA's PTA supports the school through family events, such as Family Lunch on the Lawn, STEM Nights, and movie nights. Additionally, parents volunteer in the classroom as well as assist in extracurricular events.

State Priority: School Climate

The SARC provides the following information relevant to the State priority: School Climate (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety

2025-26 School Safety Plan

The safety of our students and staff is critical to creating a conducive environment for effective teaching and learning. Therefore, teachers and administrators at Pleasant Valley School of Engineering and Arts prioritize stakeholder safety. The school complies with all laws, rules, and regulations pertaining to safety issues, such as hazardous materials and state earthquake standards. Staff meetings at the start of each school year entail reviews of safety procedures. The School Safety plan is reviewed and updated in the spring of each year by the principal and school leadership team. All revisions are communicated to classified and certificated staff members. The school's disaster preparedness plan includes steps for ensuring student and staff safety during a disaster. Emergency drills are conducted on a monthly basis throughout the school year and include procedures for evacuation, duck and cover, lockdown, and shelter-in-place. Students are supervised before and after school by campus supervisors and teachers, as well as during lunch and break periods. There is a designated area for student drop off and pick up and procedures are communicated in multiple formats. PVSEA is a closed campus. Visitors must check in and sign the visitor log in the office and receive a badge. Unauthorized visitors are not permitted on campus. All schools utilize the Raptor visitor management security system.

Professional Development

Staff Development

As part of the cycle of continuous improvement, opportunities for training and staff development are provided at both the district and individual school sites to administrators, teachers, and classified staff. Professional development is ongoing and based on teacher surveys, principal observation, and on examining ways to best support the planning, instruction, and assessment of California State Standards and adopted curricula. The district offers professional growth opportunities in curriculum, teaching strategies, and methodologies. Teachers are also provided with time to assess student achievement and work collaboratively to design instruction that is aligned to California State Standards utilizing adopted curricula. The district offered three or more staff development days a year for the past three years. PVSEA had all staff members trained in Restorative Justice Practices during the 2019-2020 school year. Professional learning to support implementation of Second Step curriculum is planned for the 20-21 school year to support students' wellbeing which directly impacts student achievement.

This table displays the number of school days dedicated to staff development and continuous improvement.
