CAMP WEDS

MORE Fun.
MORE Learning.
MORE Connection.
MORE Adventure.

Our Program

At Camp WEDS, we bring the magic of summer to life while staying true to our year-round model—providing a structured, supportive environment where students can grow socially, emotionally, and academically. Our program ensures that while school takes a break, growth and learning (through nature and play!) never do.

This year, we're gearing up for an unforgettable summer packed with all our favorite activities—rooftop lagoon adventures, hands-on STEM experiments, and inventive crafts—plus outdoor field trips that promote independence and leadership for our older campers. Our five-week program will give your child just what they need: a summer full of building strong friendships, lots of outdoor fun, a creative curriculum, and daily opportunities to try something new!

Camp WEDS Highlights

2026

Experienced WEDS leadership!

A team of WEDS teachers and counselors lead summer groups with a focus on problem solving and relationship building.

Outdoor time! Daily exploration and play at our local parks and our WEDS Lagoon rooftop, plus swimming lessons once a week.

Summer learning! At Camp WEDS, learning continues through the summer—rooted in the same engaging, student-centered approach we use all year long. Campers participate in small-group reading, writing, and math lessons grounded in WEDS pedagogy, including The Writing Revolution 2.0, Preventing Academic Failure (PAF) strategies, and the Big Ideas Math program.

STEAM and Social Studies learning is organized around a dynamic summer theme, with hands-on projects, cooking activities, and creative crafts that bring ideas to life.

Field trips! We explore the city and the great outdoors with excursions that appeal to all ages.

New experiences! Summer is the perfect time for kids to try new activities including meditation, cooking, musical theater, and more.

Leadership opportunities! Our oldest campers will have opportunities to help the staff with counselor-in-training-type responsibilities.
