YSD1 to Operate on Two-Hour Delay Wednesday, January 28, 2026

York, SC – Due to continued freezing temperatures, lingering ice, and unpredictable road conditions in parts of the district, York School District One will operate on a **2-hour delay** on **Wednesday, January 28, 2026**. The delay will provide safer travel conditions by allowing daylight visibility of potentially icy patches on roadways.

All students, faculty, and staff should report to school 2 hours later than their normal start time. With the 2-hour delay, all bus routes and school start times will run 2 hours later than normal.

For example:
- If your child's normal bus pick-up time is **6:30 a.m.**, it will now be **8:30 a.m.**
- If your child's school normally opens at **7:15 a.m.**, it will now open at **9:15 a.m.**

Dismissal for all schools will remain the same as the regular daily schedule. After-school programs and athletics are scheduled to resume normal operations on Wednesday, January 28, 2026.

We will continue to monitor the forecast, and any additional changes to a 2-hour delay schedule will be announced via voice phone calls, SMS texts, email, social media, and the district website.

We appreciate the community's understanding and continued support of York School District One as we work through this inclement weather event.
