

STEAM CONNECTIONS

FEBRUARY 2025

From Broadway to our classrooms! We were honored to welcome Lady Chops (alum of the hit show "STOMP") to both of our magnet academies as part of our partnership with the Acadiana Center for the Arts. Through a high-energy workshop using buckets, tables, and pure rhythm, she engaged our students in a hands-on musical takeover. It was a powerful lesson in "speaking" through percussion and seeing how much a beat can say without a single word being spoken.

Acadiana Center
for the Arts

FUTURE BUILDERS CLASSROOM CORNER

- Ms. Kali's class celebrated culture in social studies by constructing a Three Kings Cake.
- Third graders extended their learning about the history of basketball into STEM Lab by designing their own game!
- Mrs. Dore's class designed & tested solar power cars!
- Mrs. Airhart's third graders investigated plant growth factors while Ms. Tina's class became pollution detectives!
- Fourth & fifth graders discovered foundations of lighting, sound and set design on stage in theater!

FUTURE EXPLORERS CLASSROOM CORNER

- Ms. Sage's kindergarten students jammed with rhythm while learning number names to help math fluency.
- Ms. Stokes' kindergarten students worked together as a team to create animal nests, become trees, and provide food for their animals.
- First graders created 3D sculptures of birds with Mr. Alexander.
- STEM students blended color theory and art with circuits & LED lights.
- PreK students engineered stronger houses while reading The Three Little Pigs.
