BP-1400

RELATIONS BETWEEN OTHER GOVERNMENTAL AGENCIES AND THE SCHOOLS

The School Board recognizes that agencies at all levels of government share responsibility for the welfare, health, and safety of our youth. The School Board further recognizes that tribal governments are committed to meeting the needs of tribal students within the district. The School Board and staff shall take every opportunity to work cooperatively with these agencies for the greater benefit of students.

The Superintendent or designee shall initiate and maintain cooperative relationships with representatives of other public agencies and tribal governments to help our schools and students make use of the resources, which governmental agencies can provide. The Superintendent or designee shall ensure that agreements with other agencies, which involve the exchange of funds or reciprocal services, are executed in writing so that roles and responsibilities are clearly defined. The District shall make information available to parents/guardians about shared or cooperative services so that students may fully benefit. Agreements may be shared among agencies to prevent duplicative efforts and to expedite cooperative programs and services.
